UNITING AVIATION

Effects of Novel Coronavirus (COVID-19) on Civil Aviation: Economic Impact Analysis

Montréal, Canada

2 March 2020

ICAO

UNITING AVIATION

Air traffic has been vulnerable to external factors including disease outbreaks

What can we learn from past experience? SARS, Aviation flu and MERS

Impact of past outbreaks on aviation

History shows that SARS has the most serious impact on traffic. At the height of the outbreak (May 2003), monthly RPKs of Asia-Pacific airlines were 35% lower than their pre-crisis levels. Overall in 2003, Asia-Pacific airlines lost **8% of annual RPKs** and **\$6 billion of revenues**.

COVID-19 outbreak caused a substantial setback in flight bookings for Chinese New Year

Chinese air arrivals in worldwide regions for Chinese New Year, before vs one week after the travel restrictions

10 January – 6 February, Bookings made as of 19 January and 26 January 2020. Volumes of arrivals.

Travel dates from 10 January to 6 February 2020 vs. 21 January to 17 February 2020, according to bookings issued as of 19 January and 26 January 2020.

Only considered pax staying 1 to 21 nights at destinations.

Source: ForwardKeys air reservation data.

Flight cancellation has exceeded actual operations since 31 January 2020

Note: The above includes a) international from mainland China, Hong Kong SAR of China, Macao SAR of China, Taiwan, Province of China; b) domestic within mainland China, and c) regional between mainland China and Hong Kong SAR, Macao SAR and Taiwan Province

Scenario Analysis: International Services from/to Mainland China

This is a preliminary analysis. Figures and estimates herein will be updated with the situation evolving and more information available.

- **“International”** refers to scheduled international passenger services from/to mainland China excluding:
 - scheduled passenger services between mainland China and Hong Kong Special Administrative Region (SAR) of China, Macao SAR of China and Taiwan, Province of China; and
 - scheduled international passenger services from/to Hong Kong SAR, Macao SAR of China and Taiwan, Province of China
- **“Regional”** refers to scheduled passenger services:
 - between mainland China and Hong Kong SAR of China
 - between mainland China and Macao SAR of China; and
 - between mainland China and Taiwan, Province of China

Number of seats offered by airlines (monthly, 2019)

Capacity share 2019

- 45%: International by Chinese carriers
- 37%: International by foreign carriers
- 9% Regional (mainland China - Hong Kong SAR)
- 3% Regional (mainland China - Macao SAR)
- 7% Regional (mainland China - Taiwan Province)

ICAO

UNITING AVIATION

Number of seats offered by airlines (1Q 2020 originally-planned)

Capacity share 1Q 2020

- 48%: International by Chinese carriers
- 36%: International by foreign carriers
- 7% Mainland China - Hong Kong SAR
- 3% Mainland China - Macao SAR
- 6% Mainland China - Taiwan Province

Baseline: 10% seat capacity increase compared to 1Q 2019

A total of YoY 10% seat capacity increase originally - planned for 1Q 2020 despite the reduction of capacity between mainland China and Hong Kong SAR and Taiwan Province

Scenario 1: for 1Q 2020 a total of 39% reduction compared to 1Q 2019 and 44% reduction from Baseline

Scenario 2: for 1Q 2020 a total of 39% reduction compared to 1Q 2019 and 45% reduction from Baseline

15.2 to 17.5 million “international” passenger reduction in 1Q 2020 compared to Baseline

3.4 to 3.7 million “regional” passenger reduction in 1Q 2020 compared to Baseline

Scenario 1

3.4 million passenger reduction

Scenario 2

3.7 million passenger reduction

Approx. USD 4.7 to 5.2 billion potential loss of airline revenues for 1Q 2020 compared to Baseline

Scenario 1: USD 4.7 billion reduction

Scenario 2: USD 5.2 billion reduction

- International (Chinese carriers)
- International (Foreign carriers)
- Regional (Mainland - Hong Kong SAR)
- Regional (Mainland - Macao SAR)
- Regional (Mainland - Taiwan Province)

- International (Chinese carriers): calculated with an average fare of USD 250 per passenger based on traffic/financial reports of CA, CZ and MU;
- International (Foreign carriers): assumed 15% higher average fare than Chinese carriers;
- Regional: calculated with an average fare of USD 135 per passenger based on traffic/financial reports of CA, CZ and MU

The preliminary estimates indicate the impact in terms of scheduled international passenger traffic from/to mainland China (including between mainland China and Hong Kong SAR of China, Macao SAR of China and Taiwan, Province of China) during 1Q 2020 compared to originally-planned:

- Overall reduction ranging from **44% to 45% of seats offered by airlines**
- Overall reduction of **19.2 to 21.2 million passengers**
- Approx. **USD 4.7 to 5.2 billion potential loss** of gross operating revenues of airlines

Scope of analysis	Estimated Impact on

Total	-5,800	-31%	-5,900	-31%	-4,700	-31%	-6,000	-40%	-\$1,100	-\$1,470

Summary of Scenario Analysis

This is a preliminary analysis. Figures and estimates herein will be updated with the situation evolving and more information available.

- The direct impact of COVID-19 outbreak is expected to be greater than that caused by SARS in 2003 due to higher scale of flight cancellations and bigger economic size/air travel market of China
- The preliminary estimates indicate the impact in terms of scheduled international passenger traffic from/to China (including Hong Kong SAR of China, Macao SAR of China and cross-strait services from/to Taiwan, Province of China) during 1Q 2020 compared to originally-planned:
 - Overall reduction of **41% of seats offered by airlines**
 - Overall reduction of **23.9 to 27.2 million passengers**
 - Approx. **USD 5.8 to 6.6 billion potential loss** of gross operating revenues of airlines
- The above estimates exclude, inter alia, the impact of traffic reduction related to air cargo, Chinese domestic, as well as other international services

Break-down of revenue reduction by region of air carrier registration in 1Q 2020

55% and 85% of revenue reduction is estimated to be attributed to the loss from Chinese carriers and Asia/Pacific carriers (including Chinese carriers), respectively

Break-down of estimated impact in 1Q 2020

Scope of analysis	Estimated Impact on									
	Number of seats offered by airlines (000)				Number of Passengers (000)				Gross operating revenues of airlines (USD, million)

This section contains a very preliminary analysis. Figures and estimates herein will be updated with the situation evolving and more information available.

Domestic passenger services in mainland China in 1Q 2020

The preliminary estimates indicate the impact in terms of scheduled domestic passenger traffic within mainland China during 1Q 2020 compared to originally-planned:

- Overall reduction of **40% of seats offered by airlines**
- Overall reduction of **66.6 to 76.3 million passengers**
- Approx. **USD 6.8 to 7.8 billion potential loss** of gross operating revenues of airlines

	Estimated Impact on									
	Number of seats offered by airlines (000)				Number of Passengers (000)				Gross operating revenues of airlines (USD, million)	
Scope of analysis	Scenario 1		Scenario 2		Scenario 1		Scenario 2		Scenario 1	Scenario 2
Domestic within mainland China	-76,100	-40%	-76,100	-40%	-66,600	-42%	-76,300	-48%	-\$6,830	-\$7,825
PRELIMINARY Assumption	Seat capacity is reduced by 3% in January 2020 and 60% in February and March 2020 from the originally-planned schedules (baseline)				Load factor is down from 83% (baseline) to 80% for 1Q 2020		Load factor is down from 83% (baseline) to 80% in January 2020, 58% in February 2020 and 63% in March 2020		Calculated with an average fare of USD 102.5 per passenger based on traffic/financial reports of CA, CZ and MU	

Potential loss of revenues from Chinese tourists to top 5 States in 1Q 2020
