

Implementing Annex 14: Advanced Aerodrome Design and Operations (AADO)

Virtual Classroom

The goal of the course is to enable the target audience to support the implementation of the ICAO Annex 14 in their aerodromes to achieve compliance. The online part of the course will allow trainees to grasp the theoretical aspects of Aerodrome Design and Operations, as detailed in ICAO Annex 14 Volume 1.

▶ **LEARNING OBJECTIVES**

After having successfully completed this course, participants will be able to:

- Apply the Standards and Recommended Practices for Lighting, Signs and Markings on an aerodrome;
- Detail the Aerodrome emergency planning process requirements;
- Detail the services needed to operate the aerodrome such as RFF, Wildlife strike hazard reduction, ground handling;
- Identify solutions to challenges presented regarding aerodrome design and operations, encountered in real life situations.;
- Manage non-compliance through safety assessment with reference to the PANS Aerodrome manual.

▶ **TARGET POPULATION**

- Airport Operations Directors, Managers, Officers and Staff;
- Airport Construction and Engineering Directors, Managers and Staff;
- Airport Emergency Managers, Officers and Staff;
- Airport Safety Managers, Officers and Staff;
- Airport Public Affairs and Communications, Directors, Managers and Staff;
- Airline Officials;
- Airport Authority Officials; and
- Civil Aviation Authority Officials.

▶ **STRUCTURE OF THE COURSE**

Duration: 5 days

Delivery Mode: Virtual Classroom

Language of instruction: English
