For more information and registration, visit www.icao.int/training.

TRAINAIR PLUS Members can purchase training packages through the TRAINAIR PLUS Electronic Management System (TPEMS). If you are not a TRAINAIR PLUS Member, please send your enquiries to aviationtraining@icao.int.

Global Aviation Training Activities

ICAO Global Aviation Training, under the Technical Cooperation Bureau, undertakes the following activities:

Training Assessments

- Conduct of assessments of training organizations in line with International Civil Aviation Organization (ICAO) guidance material to help enhance, streamline and modernize their training operations.
- Provision of support services in training.

Training Design and Development

- Design and production of ICAO courses.
- Validation of ICAO-recognized training packages.
- Qualification of Course Developers, Course Instructors, Subject Matter Experts, and Course Validators.

TRAINAIR PLUS Programme (TPP)

- Establishment of a network of ICAO-recognized training centres, international organizations, and academic institutions delivering ICAO training.
- Implementation of a standardized methodology to develop competency-based courses and deliver ICAO training.
- Developing and sharing over 200+ courses.

Training Services

Provision of the following Capacity Building Services:

- Training Needs Analysis
- Training and Procedures Manual (TPM)
- Training Quality System (QS)
- Post-training Evaluation
- Establishment of a Training Organization

TRAINAIR PLUS™ Programme Membership Advantages

The TRAINAIR PLUS Programme (TPP), ICAO's network of training organizations and industry partners, encompasses aviation training in all ICAO's Strategic Objectives with the goal of improving the safety and efficiency of air transport. The TPP is open to all training organizations and operators, provided they are recognized or approved by their respective governments. The network consists of the following four categories of membership:

Associate Members

- ICAO recognition
- Host the delivery of ICAO-recognized courses

Full Members

- ICAO recognition
- Develop a Standardized Training Package (STP)
- Host the delivery of ICAO-recognized courses

Regional Training Centres of Excellence

- ICAO recognition
- Develop an ICAO Training Package (ITP)
- Host the delivery of ICAO-recognized courses
- Regional training implementation

Partners

- ICAO recognition
- Develop Partnership Training Package (PTP)
- Delivery of PTP

Benefits of the Programme

- Obtain ICAO recognition aligned with its requirements.
- Exclusive access to a virtual library and sharing platform of ICAO-recognized trainings.
- Develop and/or host ICAO-recognized trainings.
- Expand your outreach to attract trainees internationally.

Who can join the Programme?

- Training arms of Civil Aviation Authorities (CAAs), airlines, airports, and maintenance organizations.
- Private training organizations.
- Training centres, international organizations and universities involved in any specialized aviation-related training to support the implementation of ICAO Standards and Recommended Practices (SARPs).

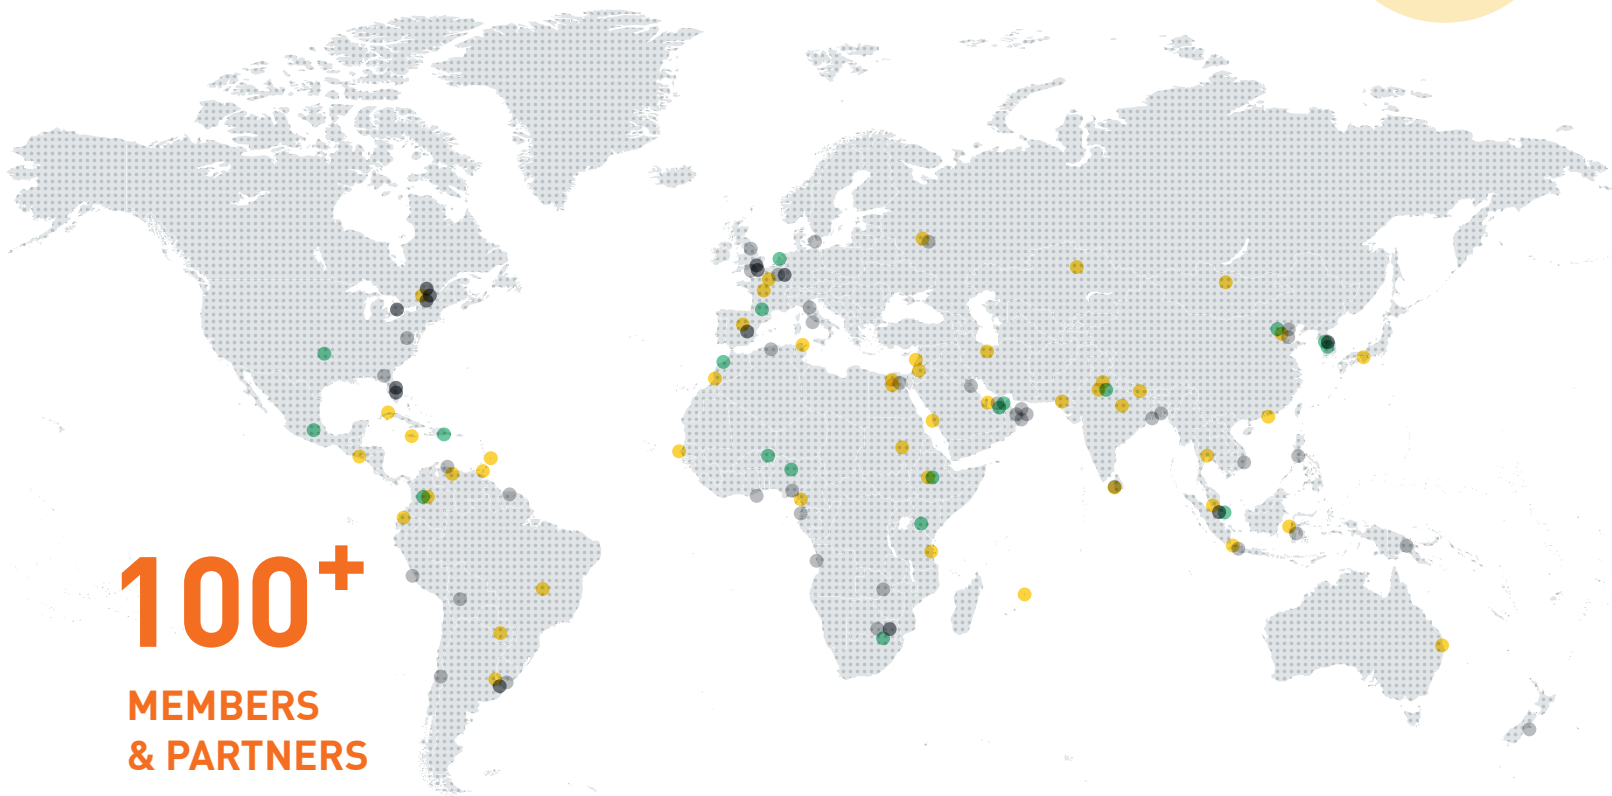

TRAINAIR PLUS™ Programme Worldwide Presence

A network of over 100 training organizations, academic institutions, and other international organizations delivering ICAO training.

ICAO Training Delivery for Everyone!

Prefer self-pace course or instructor-led training? We now offer flexible and effective delivery format that suits your needs.

ICAO supports evolving learner needs, enhance new learning experiences, and promotes continuous learning and facilitates the delivery and evaluation of ICAO online and virtual classroom courses. ICAO also continue offering in-person classroom courses throughout.

Learning takes place anytime and anywhere.

Online Course

Self-study and learn at your own pace. Benefit from a unique portfolio of online training opportunities. These courses will offer you:

- Interactive online training to build your professional skills and competencies
- Flexibility to learn and adapt to your own schedule
- Content that is developed by ICAO and its training partners

Virtual Classroom Course

Real-time instructor-led training, hosted on an online platform. Benefit from live discussion and group activities, including interactive polls, breakout rooms, and more. These courses will offer you:

- An interactive learning experience in a virtual classroom
- Engagement with ICAO instructors and Subject Matter Experts
- An opportunity to interact and share best practices with your peers from around the world

Classroom Course

A traditional classroom experience. Benefit from the richness of interacting with your instructor and peers, face-to-face.

These courses will offer you:

- A learning experience with lively in-person discussions, and engaging group activities
- An opportunity to learn directly from ICAO instructors and Subject Matter Experts
- An opportunity to interact directly and share best practices with your peers from around the world

Blended Course

Blended courses include in-class time (traditional classroom or virtual classroom) as well as an online component.

ENGAGING, EXCITING AND INTERACTIVE

For more information, please visit www.icao.int/training.

Course Definitions

ICAO Training Package (ITP) / (RTCE ITP)

An ITP is a training package produced by ICAO or a Regional Training Centre of Excellence (RTCE), in accordance with the ICAO Training Development Guide, Competency-based Methodology (Doc 9941) or an equivalent ISD methodology.

Compliant Training Package (CTP)

A CTP is a training package that complies with ICAO Standards and Recommended Practices (SARPs) and guidance material. It is presented as a fully documented and tested comprehensive package of training material that reflects:

- the current technological and operational requirements specific to a particular training topic;
- ICAO SARPs, Annexes and guidance material; and
- ICAO training objectives, complements existing ICAO training, and makes a significant contribution to aviation capacity building.

Partner Training Package (PTP)

A PTP is training material produced in partnership between ICAO and the training arm of a Corporate Member, industry partner, or educational institution, in accordance with the ICAO Training Development Guide, Competency-based Methodology (Doc 9941).

PTPs are presented as fully documented and tested comprehensive packages of training material that comply with ICAO SARPs and policies, help achieve ICAO training objectives, complement existing ICAO training, and make a significant contribution to aviation capacity building.

Standard Training Package (STP)

An STP is a competency-based training package developed by TPP Members, using Member State's or industry requirements with operational content. An STP is produced in accordance with the ICAO Training Development Guide, Competency-based Methodology (Doc 9941). It is self-contained, material-dependent, and validated by the TRAINAIR PLUS Programme. The package includes instructor material, trainee material, as well as relevant documents on how the course was developed.

ICAO Training Categories

ICAO's courses are strategically divided in nine training areas to respond closely to the needs in the industry.

Browse the ICAO Training search mechanism available on ICAO's Global Aviation Training website at www.icao.int/training.

AERODROMES

1

AERODROMES

Aerodrome Restart (ARST EN): Online

This engaging self-guided online course addresses the impact of the COVID-19 Pandemic on aerodromes, and the required interventions to ensure a safe restart. This course will inform and guide CAA and aerodrome operators in applying Annex 14, Volume I and other relevant ICAO provisions to ensure the safety, regularity, and efficiency of aerodrome operations after a partial or full aerodrome closure due to the COVID-19 Pandemic.

ITP

[Online](#)

Duration 5 hours

Developed by International Civil Aviation Organization (ICAO)

Aerodrome Safety Management Incorporating PANS-Aerodromes

This course will provide safety management systems (SMS) safety managers with necessary knowledge, skills and attitude to implement and maintain an effective safety management system at an aerodrome, in accordance with ICAO Procedures for Air Navigation Services (PANS) - Aerodromes (Doc 9981) as stipulated in ICAO Annex 14 — Aerodromes, Volume 1 and in ICAO Annex 19 — Safety Management.

ITP

[Classroom](#)

Duration 5 days

Developed by Incheon Airport Aviation Academy (IAAA)

Apron Markings Management

This course provides the apron management personnel with necessary knowledge, skills and attitudes to ensure that the apron markings management is conducted effectively and efficiently, according to the ICAO Annex 14, Volume 1 and Doc 9157 Aerodrome Design Manual, Part 2 and Part 4.

ITP

ICAO-ACI Aerodrome Certification

Many international airports are yet to be fully certified and many that are certified are unable to apply the Standards and Recommended Practices (SARPs) as laid out in ICAO Annex 14 — Aerodromes and the Manual on Certification of Aerodromes (Doc 9774). The objective of this course is to provide airport operators with the knowledge and skills required to practically apply and maintain the aerodrome certificate.

PTP

Duration 5 days

Developed by Airports Council International (ACI) & International Civil Aviation Organization (ICAO)

Certificación de Aeródromo

Muchos aeropuertos internacionales aún no están completamente certificados y muchos de los que están certificados no pueden aplicar las Normas y Prácticas Recomendadas (SARP) establecidas en el Anexo 14 de la OACI - Aeródromos y el Manual de Certificación de Aeródromos (Doc 9774). El objetivo de este curso es proporcionar a los operadores aeroportuarios los conocimientos y habilidades necesarios para aplicar y mantener en la práctica el certificado de aeródromo.

ICAO-ACI Airport User Charges

This training course is based on the application of ICAO's policies on user charges. The course uses a blended learning approach combining an e-learning component followed by a workshop component. This course, which is jointly delivered by Airports Council International (ACI) and ICAO, reviews the main recommendations adopted by the Conference on the Economics of Airports and Air Navigation Services (CEANS), the ninth edition of ICAO's Policies on Charges for Airports and Air Navigation Services (Doc 9082) and the third edition of the Airport Economics Manual (Doc 9562).

AERODROMES

ICAO-ACI Implementing Annex 14: Advanced Aerodrome Design and Operations

The goal of the course is to enable the target audience to support the implementation of the ICAO Annex 14 in their aerodromes to achieve compliance. This classroom course will provide case studies on existing locations throughout the world to enable trainees to practice implementation activities of Annex 14. The course will make use of relevant ICAO documentation such as PANS Aerodrome and will prepare trainees for the ACI-ICAO Aerodrome certification course.

[Virtual](#)

Duration 5 days

Developed by Airports Council International (ACI) & International Civil Aviation Organization (ICAO)

Mise en oeuvre de l'annexe 14: Cours avancé sur la conception et l'exploitation des aéroports

Le but du cours est de permettre au public cible de soutenir la mise en œuvre des normes et pratiques recommandées (SARP) du volume 1 de l'annexe 14 de l'OACI dans leurs aéroports, afin de pouvoir s'y conformer. Le cours comprend des études de cas pour que les participants pratiquent l'élaboration des activités comprises dans l'annexe 14. Ce cours s'appuiera sur la documentation pertinente de l'OACI, comme le Doc 9981: PANS-Aéroports, et préparera les participants du cours à la certification d'aéroport de l'ACI-OACI.

PTP

Duration 5 days

Developed by Airports Council International (ACI) & International Civil Aviation Organization (ICAO)

Implementación del Anexo 14 Aeródromos: Curso avanzado de diseño y operaciones de aeródromos

El objetivo del curso es capacitar a los participantes para que apoyen la aplicación de las Normas y Prácticas Recomendadas (SARPS) del Volumen 1 del Anexo 14 de la OACI en sus aeródromos para lograr su cumplimiento. El curso utilizará estudios de casos para que los participantes practiquen las actividades de implementación del Anexo 14. Este curso utilizará la documentación pertinente de la OACI, como el Doc 9981: PANS-Aerodromes y preparará a la audiencia para el curso de certificación de aeródromos de ACI-ICAO.

Применение Приложения 14: Курс усовершенствованного проектирования и эксплуатации аэродромов

Цель курса состоит в том, чтобы дать возможность участникам поддержать внедрение и соблюдение Приложения № 14 Стандартов и Рекомендуемых практик (SARPs) ИКАО на своих аэродромах. Курс использует примеры – кейсы для участников в целях практической реализации мероприятий по внедрению Приложения № 14. Он использует соответствующую документацию ИКАО как Doc 9981: PANS-Aerodromes и подготовит аудиторию для курса ACI-ICAO по сертификации аэродромов.

AIR NAVIGATION SERVICES

ITP

Performance-Based Navigation Airspace Design (PBN AD EN): Online

This online course provides an understanding of the application of Performance-Based Navigation (PBN) in the design of airspace. Personnel involved in airspace design need to understand the PBN concept and how it can be used to improve an existing airspace structure.

[Online](#)

Duration 5 hours

Developed by International Civil Aviation Organization (ICAO)

ITP

Performance-Based Navigation for Air Traffic Controllers (PBN ATC EN): Online

This Performance-Based Navigation (PBN) course provides fundamental and most critical information necessary for Air Traffic Controllers to facilitate their understanding with respect to PBN.

You will benefit from this course as an aviation professional working for an air traffic service provider or for individual Air Traffic Controllers with guidance from the International Federation of Air Traffic Controllers Associations.

[Online](#)

Duration 5 hours

Developed by International Civil Aviation Organization (ICAO)

ITP

Performance-Based Navigation for Pilots (PBNP EN): Online

This Performance-Based Navigation (PBN) course provides an overview of the PBN concept and principles, and provides pilots with guidance on procedures for PBN operations.

PBN is increasingly becoming the normal method of navigation and all pilots need to understand the basic concepts and operational requirements. You will benefit from this course as an aviation professional working for an airline, or if you are a commercial or general aviation pilot.

AIR NAVIGATION SERVICES

ITP

Performance-Based Navigation Operations Approval (PBN OPS EN): Online

This online course provides an overall understanding of the Performance-Based Navigation (PBN) concept, implementation and operations approval process.

As commercial air transport operators need operational approval to fly PBN routes and procedures, this course is fundamental for Civil Aviation Authorities (CAA) and Airline personnel.

[Online](#)

Duration 5 hours

Developed by International Civil Aviation Organization (ICAO)

ITP

Performance-Based Navigation Overview (PBN0 EN): Online

This online course provides a high-level overview of the Performance-Based Navigation (PBN) concept and principles. This course is a recommended pre-requisite to understanding PBN and for further PBN training.

Since PBN implementation impacts all areas (aircraft operations, regulatory approvals and authorizations, training, instrument flight procedure design, airspace design, aircraft separation, etc), understanding the PBN concept and principles becomes essential for all aviation stakeholders.

Digital Transformation in Aviation (DTA EN): Online

The COVID-19 crisis has shown the increased effectiveness and the importance of digital options over more traditional, paper-based solutions. This engaging, interactive online course, based on a webinar in the ICAO Covid-19 series, will discuss key technological innovations to consider when launching a digital transformation initiative within an organization. It will also touch upon the use of technologies such as digital identity, artificial intelligence and blockchain in key areas of aviation including certification, signing, identification and security.

Instrucción en el aula virtual (VCI SP): Impartición Virtual

El curso de Instrucción en el aula virtual (IAV) TRAINAIR PLUS de la OACI proporciona a los instructores las competencias necesarias para impartir cursos en línea, apoyando la transición de la enseñanza en un aula presencial a la gestión de la instrucción en un aula virtual.

Al finalizar el Curso, los participantes podrán:

- Preparar la impartición de un Curso de instrucción en el aula virtual.
- Gestionar actividades de aprendizaje en un aula virtual.
- Brindar instrucción de manera efectiva en un aula virtual

Training Programmes

In collaboration with key industry player, ICAO launched a number of professional education programmes that provides aviation professionals with a comprehensive learning experience

ICAO is pursuing training partnerships with the aim of establishing agreements in all regions in order to enhance the competencies and skills of current and future aviation professionals. To this end, the ICAO Global Aviation Training Office (GAT) is actively working with international organizations, academic institutions (universities), and the aviation industry to develop and deliver joint aviation training programmes under the auspices of the TRAINAIR PLUS Programme (TPP).

TRAINING PROGRAMMES

PTP

Global ACI-ICAO Airport Management Professional Accreditation Programme (AMPAP)

Training Area Aerodromes

Start your International Airport Professional (IAP) or Global ACI-ICAO AMPAP Associate designation by enrolling in any of the following three (3) virtual courses of the AMPAP curriculum:

1. Airport Operations, Safety and Security*
2. Airport Commercial and Financial Management*
3. Airport Planning, Development and Environmental Management*

Each of these online mandatory courses last four (4) weeks and participants are estimated to spend on average 10 to 13 hours per week. These courses propose a mix of online sessions, individual and group assignments, and online exams that allow you to take the class while keeping your daily responsibilities at work.

*Special conditions apply.

Master of Science (MSc) in Aviation Security

Training Area Security

The MSc in Aviation Security allows you to explore and develop theories and methodologies to mitigate these risks, and consider and analyse the future of safe and secure aviation.

This master's analyses, evaluates and develops the multi-layered and interconnected processes involved in security management in the high-risk and technology-dependent world of aviation.

After having successfully completed this course, participants will have:

- a master's level qualification relevant to your professional development
- high level knowledge that gives you professional recognition in this field
- lifelong skills and, particularly, the ability to analyse and evaluate operational and strategic contexts
- the skills to apply academic theory and principles in a business environment.

Management Certificate in Civil Aviation: Virtual Classroom

Training Area Aviation Management

The objective of this aviation-centric management programme is to enhance the competencies of qualified personnel in the civil aviation community while promoting best practices with ICAO's TRAINAIR PLUS Programme and global aviation training activities. The programme will be taught at a level equivalent to that of a graduate business programme and will consist of three certificates: Strategic Management, Human Resources Management and Business Planning and Decision-Making. Successful completion of all three certificates will lead to a Management Certificate in Civil Aviation.

Successful completion of all three will lead to a Management Certificate in Civil Aviation.

1. MCCA: Business Planning and Decision-Making
2. MCCA: Human Resources Management
3. MCCA: Strategic Management

Advanced Masters Program in Aviation Safety Management (ASM)

Training Area Flight Safety and Safety Management

In line with the strategic objectives set by the ICAO Global Aviation Safety Plan and Roadmap, the joint ICAO/ENAC Advanced Master's programme in Aviation Safety Management aims at training Safety Managers. This Programme helps to disseminate a thorough knowledge of the principles, strategic objectives, standards and recommended practices applying to Aviation Safety and develop the necessary skills for an effective implementation of aviation safety plans at various levels among all stakeholders of the aviation community.

Upon completion of the programme, graduates will have gained a broad knowledge of the current situation, challenges and perspectives of Aviation Safety worldwide.

- They will have acquired the necessary skills to implement an effective Safety Management System in their own organization as well as among other aviation operators and at a State level.

Master Degree in Air Navigation Services Management

Training Area Air Navigation

This Master Programme is aimed at strengthening the managerial competencies of ANS professionals globally, and other professionals which are involved in ANS matters such as airlines staff, airport managers, regulators and supervisors, military staff, meteorological providers, air navigations service providers, etc.

Its objective is to provide candidates with specialised technical, operational and managerial competencies so that they acquire a broad understanding of air navigation services and the context (current and future) in which they are provided.

To this end, the programme also benefits of the partnership between industry and academia. Highly skilled instructors from both sectors will share their expertise, and provide participants with a 360 degree approach to the subjects treated.
