## ICAO TRAINING IN FIGURES 2019

Divided into 3 thematic sections, the 2019 edition of ICAO Training in Figures presents a detailed statistical overview of all training activities implemented during the year by the ICAO's Global Aviation Training Section (GAT), its TRAINAIR PLUS Members, and the ICAO's Air Transport Bureau (ATB) through its network of regional Aviation Security Training Centres (ASTCs). In-depth sections and glossaries have been added to this report to clearly identify topics of interest, and make a better use of the information provided.

This booklet is distributed to ICAO Member States, TRAINAIR PLUS Members, ASTCs and international organisations.

The online version of ICAO's Training in Figures 2019 is also accessible at [www.icao.int/training](http://www.icao.int/training), where it can be downloaded in its full version or browsed per individual thematic sections.

Please note that the contents of this course catalogue is comprised of training packages validated as of 24 February 2020.

This catalogue will be updated on an bi-annual basis.

For up-to-date information, please visit the ICAO Global Aviation Training website at [www.icao.int/training](http://www.icao.int/training).

## GLOSSARY

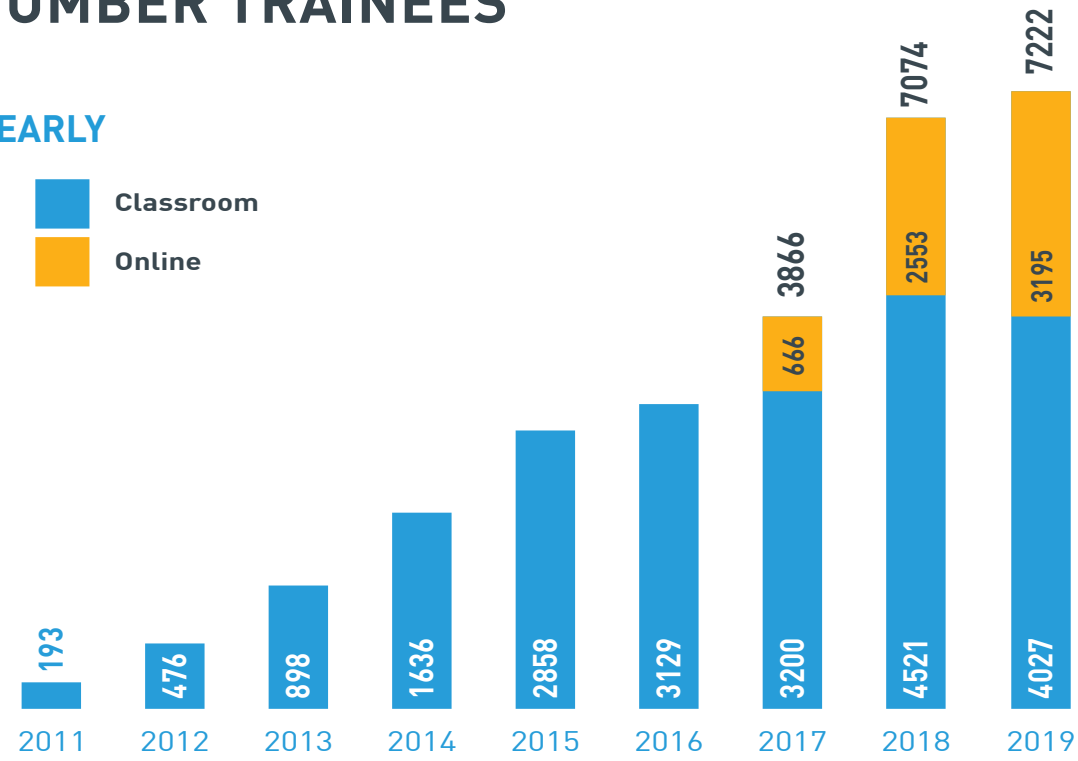

**ICAO Training:** ICAO Training is the acquisition of knowledge and skills provided by ICAO and/or training organizations associated with ICAO issuing a certificate of completion or a certificate of achievement with the ICAO emblem or an ICAO programme emblem.

**Classroom Courses:** GAT has an extensive portfolio of face-to-face courses that are delivered in traditional format, led by an ICAO-qualified instructor in a classroom environment. Classroom courses are the only mode of delivery where access to technology and high-speed internet is limited, with no access to online and/or virtual courses. The delivery of the classroom portfolio is managed through the TRAINAIR PLUS Electronic Management System (TPEMS).

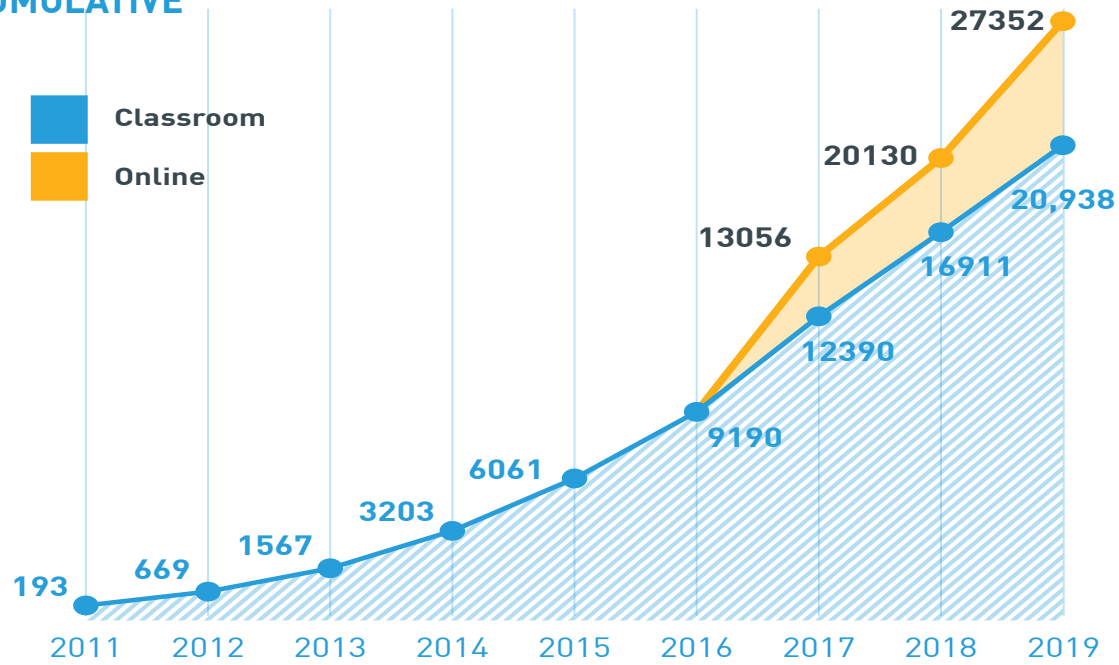

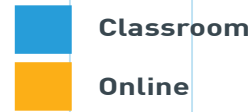

**Online Courses:** Online courses offer the flexibility of learning at one's own pace to achieve the goal of learning anytime, anywhere. In addition to knowledge acquisition, the interactive and engaging content can build a learner's professional competencies. Learners can benefit from ICAO's online courses across multiple subject areas, including Aerodromes, Air Transport, Air Navigation Services, Flight Safety and Safety Management. ICAO's online courses are hosted on GAT's Learning Management System (LMS). Upon successful completion of the exam, participants receive an e-certificate through the LMS.

## NOTE

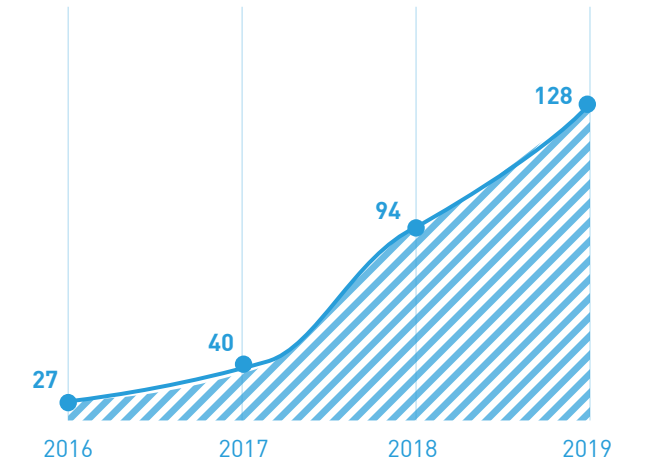

As per Council Decision (C-DEC 217/1), in 2019 GAT put more focus on the development and provision of distance learning training. As a result of these efforts, the number of classroom trainees has slightly decreased in 2019 in favour of a higher participation of trainees to GAT newly developed online courses.

**Competency-based training:** competency-based training is the approach ICAO recommends for training aviation professionals. ICAO aviation training is standardized, based on the analysis of competencies, job-oriented and material-dependent. TRAINAIR PLUS course developers follow competency-based training methodology to develop training courses.

## GLOSSARY

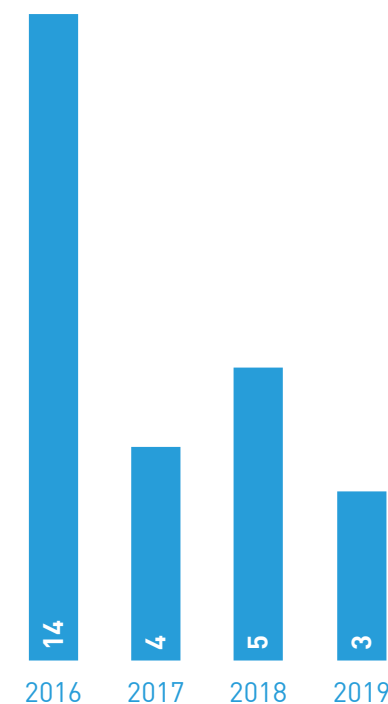

**Assessments:** the TRAINAIR PLUS Programme (TPP) recognizes Training Organizations through an assessment process. Upon application to the Programme, Training Organizations are assessed by ICAO based on specific requirements of TPP. Only Training Organizations compliant with such requirements are recognized as TPP Members.

**Reassessments:** reassessments of TPP Members are carried out every three years. This allows TPP to maintain oversight on the quality of training operations of its Members and TPP activities they conduct while ensuring all Members continue to meet established requirements.

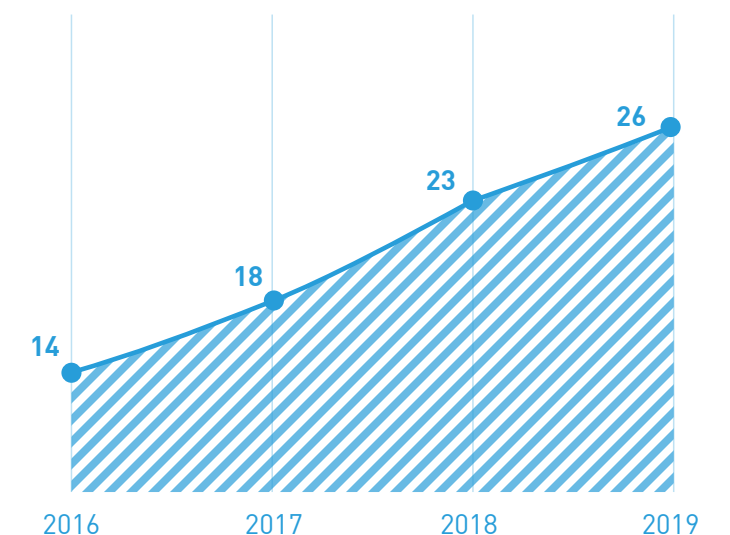

**Validators:** to enhance CATCs capacity-building and reduce the cost of course development, GAT established a qualification process for ICAO Instructional System Design (ISD) validators. These validators must successfully complete the ICAO ISD validator qualification process and hold a valid certificate as an ICAO ISD validator. ICAO ISD validators conduct validations for the development and implementation of competency-based training (STP/CTP/ITP) in their training organization and in the TPP network, in compliance with the ICAO Training Development Guide, Competency-based Training Methodology (Doc 9941), provide On-the-Job Training (OJT) to course developers throughout their first STP development process, give refresher training on the Training Development Guide (TDG) methodology to course developers, and conduct assessments of ICAO Qualified Course Developers (IQCDs) from their training organization for continuous oversight.

## GLOSSARY

In 1992, ICAO established a network of regional Aviation Security Training Centres (ASTCs), primarily to aid ICAO in the promulgation of newly developed Aviation Security Training Packages (ASTPs) and aviation security workshops which were designed to assist States in the implementation of Annex 17. As of 4th Quarter 2018, the ASTC Network consisted of 35 Centres, of which 14 are TRAINAIR PLUS Programme Members that have been endorsed, supported and/or overseen by their National Appropriate Authority for Civil Aviation Security. The Implementation Support and Development Section (Security) of the Air Transport Bureau (ATB) provides leadership and support to Aviation Security Training Centres (ASTCs), and collaborates with the GAT Office to harmonize the strategic and operational aspects regarding the management of the Aviation Security Training Programme.

## GLOSSARY

**CAA SMMTC:** ICAO developed and delivered a Civil Aviation Authority Senior and Middle Managers Training Course (CAA SMMTC). The course aimed to enhance the skills of senior and middle management of Civil Aviation Authorities (CAAs), in order to effectively manage the implementation of ICAO Standards and Recommended Practices (SARPs) related to the areas of safety, air navigation, security and facilitation. The course was developed and delivered with the support of the Government of China, and covered course tuitions, transportation, accommodations, venues etc.

# TRAINAIR PLUS™ PROGRAMME

## PARTNERS

### INTERNATIONAL AVIATION ORGANIZATIONS

### ACADEMIC INSTITUTIONS

### REGIONAL TRAINING CENTRES OF EXCELLENCE

## GLOSSARY

**TPP Membership:** ICAO recognizes aviation training centres through the TRAINAIR PLUS Programme (TPP) with the aim of improving the safety and efficiency of air transport through the establishment, maintenance and monitoring of high standards for training and competency of aviation personnel on a worldwide basis and in a cost-effective manner.

**Categories of Membership:** TPP is open to all training organizations and operators, provided they are recognized or approved by their respective governments. The network consists of the following four categories of membership:

**Partners:** Universities, regional and international aviation-oriented organizations, public institutions, aviation agencies and industry companies that develop and deliver a TRAINAIR PLUS Partnership Training Package (PTP) to respond to global and regional training needs and support the implementation of ICAO SARPs and aviation global plans.

**Regional Training Centres of Excellence (RTCEs):** TRAINAIR PLUS Full Members that develop ICAO courses, using ICAO provisions (Annexes and guidelines). This membership category offers additional partnership with ICAO for development of ITPs. RTCEs will be assessed by GAT, according to a set of high-level criteria.

**Full Members:** Training centres that wish to improve and consolidate competency-based training within their organizations must develop an STP, including the provision of on-the-job training to their course developers, conducted by an ICAO-qualified validator. Once the STP is validated by ICAO, the applicant will be granted TRAINAIR PLUS Full Member status;

**Associate Members:** To become a Associate Member, new applicants must complete the online application and successfully pass the TRAINAIR PLUS on-site assessment, conducted by an ICAO-qualified assessor, to determine compliance of the applicant with the criteria set forth in the TRAINAIR PLUS Assessment Guidelines (TPAG) and TRAINAIR PLUS Protocol Questionnaire.
