ICAO Government Aviation Safety Inspector Operations Air Operator Certification (GSI-OPS-18700) Virtual Classroom

The Government Safety Inspector Operations – Air Operator Certification (GSI-OPS) course is designed for operations inspectors involved in certifying an air transport operator. Participants will be taught the five-phase certification process based upon ICAO Standards and Recommended Practices (SARPs) and Model Civil Aviation Regulations (MCARs).

▶ LEARNING OBJECTIVES

After having successfully completed GSI-OPS participants will be able to:

- evaluate prospective Operators Pre-assessment Statement forms for acceptability;
- identify pre-application meeting objectives;
- conduct a cursory review of the packages and, from the review, evaluate the quality of one package and identify formal application meeting objectives for the other package;
- evaluate narrative and reference statements;
- conduct an in-depth evaluation of an excerpt from a mock operations manual;
- evaluate a sample curriculum segment from a mock operator's training programme;
- evaluate an excerpt of a mock operator's Cabin Attendant Manual for acceptability;
- evaluate a mock operator's A300 Aircraft Operating Manual for acceptability;
- evaluate a mock operator's proposed Minimum Equipment List (MEL) and Configuration Design List (CDL);
- verify submitted performance planning data for acceptability;
- evaluate an excerpt of a mock operator's Aircraft Loading and Handling Manual for acceptability and identify errors;
- evaluate excerpts from the mock operator's Exit Row Seating programme;
- evaluate the results of an inspector's main base inspection for acceptability and determine inspector actions;
- evaluate the inspector's observations of a training programme and facilities for acceptability and determine the correct inspector actions;
- evaluate emergency evacuation demonstration scenarios to determine if they were satisfactory and provide reasons for your decision;
- determine appropriate recommendations for scenarios involving inspector observations/reports of four demonstration flights and reasons for the recommendations; and
- complete a mock operator's certificate and Standard Operating Procedures (SOPs) and identify items that must be included in the certification report.

▶ TARGET POPULATION:

This course is for Aviation Safety Inspectors tasked with certification of air operators.

▶ STRUCTURE OF THE COURSE

Duration: 14 days

Delivery Mode: Virtual classroom

Language of instruction: English
