# Public Health Corridor

## Key Competency Online

This engaging interactive online course, based on a webinar in the ICAO Covid-19 series, provides clear explanations of the principles and detailed examples of the key elements of the Public Health Corridor (PHC) strategy, a multilayer approach to ensuring as much as possible the use of “clean” crew, “clean” aircraft, and “clean” airport facilities to mitigate the spread of COVID-19 through air travel.

### COURSE OUTLINE

This course has four main components:

1. You will listen to a comprehensive webinar presentation given by Dr. Ansa Jordaan.
2. You will explore current practices in the implementation of operational and health safety measures as well as disinfection and segregation procedures used to mitigate the risk of transmission of COVID-19. This includes analysis of a CAPSCA survey on essential flights, and ICAO supporting documents and resources.
3. You will gain specific information regarding the use of PHC guidance material and support system for different operations.
4. You will listen to specific responses to questions from a variety of aviation professionals

### LEARNING OBJECTIVES

After completion of this online course, participants will be able to:

- Explain the Public Health Corridor Concept (PHC)
- Describe the principles of Public Health Corridor (PHC)
- Identify CAPSCA COVID-19 guidance materials, designed in collaboration with subject matter experts
- Define the scope, considerations, and modules of PHC
- Verify the PHC support system
