# Public Health Corridor

## Key Competency Online

This engaging interactive online course, based on a webinar in the ICAO COVID-19 series, and further subsequent developments, provides clear explanations of the principles and detailed examples of the key elements of the Public Health Corridor (PHC) strategy, a multilayer approach to ensuring as much as possible the use of “clean” crew, “clean” aircraft, “clean” airport facilities and “clean” cargo to mitigate the spread of COVID-19 through air travel.

### COURSE OUTLINE

This course has four main components:

1. You will listen to a comprehensive webinar presentation given by Dr. Ansa Jordaan.
2. You will explore current practices in the implementation of operational and health safety measures as well as disinfection and segregation procedures used to mitigate the risk of transmission of COVID-19. This includes analysis of a CAPSCA survey on essential flights, and ICAO supporting documents and resources.
3. You will gain specific information regarding the use of PHC guidance material and support system for different operations.
4. You will listen to specific responses to questions from a variety of aviation professionals

### LEARNING OBJECTIVES

After completion of this online course, participants will be able to:

- Explain the Public Health Corridor Concept (PHC)
- Outline the principles of the Public Health Corridor (PHC)
- Describe CAPSCA’s role in managing the COVID-19 outbreak in aviation
- View CAPSCA COVID-19 guidance materials developed for essential flights
- Describe the scope, considerations, and modules of the PHC, drafted by the Council Aviation Recovery Taskforce (CART) in collaboration with aviation stakeholders, international organizations, ICAO Member States and public health authorities
- Identify the subject matter expertise that contributed to the PHC guidance material, forms and certification process in each of the modules
- Identify the tools and steps of the support system for the PHC

### TARGET POPULATION

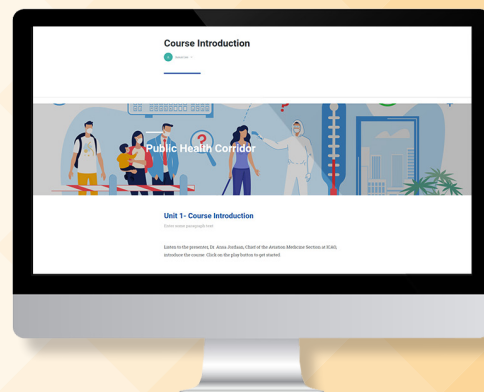

Civil Aviation Authorities, States Members, Airline Operators, and other aviation industry professionals involved in regulatory approval and industry standards.

### CERTIFICATE

This online course is hosted on the ICAO Learning Management System (LMS). Upon successful completion of the exam, participants will receive an e-Certificate through the ICAO LMS.

### COURSE MODULES

- Course Introduction
- Unit 1- PHC Concept and Principles
- Unit 2- CAPSCA and its role during the disease outbreaks
- Unit 3- Initial CAPSCA COVID-19 Survey Results
- Unit 4- CAPSCA COVID-19 Guidance Material
- Unit 5- PHC Considerations and Scope
- Unit 6- PHC Modules (for types of operations)
- Unit 7- PHC Structure
- Unit 8- PHC Support System
- Unit 9- Question and Answer Session
- Course Summary
- Final Exam
- Interactive guidance material: The CART Take-off guidance

### STRUCTURE OF THE COURSE

**Duration:** 2 hours

**Delivery Mode:** Online

**Language of instruction:** English
