CATALOGUE 2021

SUPPORTING STATES IN THE IMPLEMENTATION OF
ICAO STANDARDS AND RECOMMENDED PRACTICES (SARPS)

ICAO

INTRODUCTION

ICAO's mission in aviation training is to support the human resources development strategies established by Member States and the aviation community, to ensure there are a sufficient number of qualified and competent personnel to manage, operate, and maintain the growing air transport system. Standardized and competency-based training is critical to support States in implementing ICAO Standards and Recommended Practices (SARPs), in order to achieve the Organization's strategic objectives.

This course brochure presents key trainings, developed by ICAO or in partnership with TRAINAIR PLUS Programme (TPP) Members, that cover ICAO provisions aimed at supporting Member States and industry in their implementation of SARPs. ICAO's complete portfolio of training also includes Standardized Training Packages (STPs), developed by TPP Members, which focus on operational practices aligned with Member States' national regulations and/or industry requirements.

For a comprehensive review of all ICAO recognized training courses, including registration information, please visit www.icao.int/training.

Table of contents

ICAO Courses	4-38
Flight Safety and Safety Management	4-14
Aerodromes	15-18
Air Navigation Services	19-22
Air Transport	23-24
Aviation law	25-26
Aviation Management	27-30
Environment	31-32
Security and Facilitation	33-38

Please note that the content of this course catalogue is comprised of training packages validated as of 2 June 2021. This catalogue will be updated on a bi-annual basis.

For more information and registration, visit www.icao.int/training. TRAINAIR PLUS Members can purchase training packages through the TRAINAIR PLUS Electronic Management System (TPEMS). If you are not a TRAINAIR PLUS Member, please send your enquiries to aviationtraining@icao.int.

CAA preparation for restarting operations during a pandemic: Virtual Classroom

The course provides CAA senior and middle managers with an overview of the necessary safety and security oversight and surveillance activities during the recovery phase of a pandemic. It is also particularly beneficial for organisations that have applied for alleviations and exemptions, or significantly reduced their operating scope in terms of size, management infrastructure or complexity, during a pandemic or similar crisis.

ECCAIRS - European Co-ordination Centre for Accident and Incident Reporting Systems (ECCAIRS) End User Course

The end-user course is aimed at participants who will input the safety data into ECCAIRS or interrogate the system for safety analysis purposes. This course covers Accident/Incident Data Reporting (ADREP) taxonomy, as well as hands-on experience of ECCAIRS as a tool used to code, enter, extract or analyze safety data.

ECCAIRS - European Co-ordination Centre for Accident and Incident Reporting Systems (ECCAIRS) Technical Course

The technical course is aimed at those who will install and administer ECCAIRS from a technical point of view. This course covers the installation, setup, and management of the ECCAIRS system. The scope of the course enables system administrators and/or IT personnel to get acquainted with the system, perform the setup and configuration of their ECCAIRS installation, as well as to supply basic user support. This support includes the management of the security of the ECCAIRS installation, the adaptation of reports, the customization of the taxonomy and the adaptation of the user interfaces.

IAASM-SAA Postgraduate Certificate in Aviation Medicine for Medical Examiners and Assessors

Part 1 and 2 will prepare participants to familiarize themselves with the roles and responsibilities of an aviation medical examiner and assessor through a curriculum that covers the competency framework published in the ICAO Manual of Civil Aviation Medicine as well as foundational knowledge of ICAO Annex 1 — Personnel Licensing, Standards and Recommended Practices (SARPs), and the aviation environment.

Part 3, 4 and 5 will provide participants with practical experience of the aviation operating environment in order to appreciate its impact on human physiology and performance. Participants (primary target audience only) will be able to apply ICAO SARPs, perform effective licensing medical examination, critically evaluate medical documents and make medical fitness conclusions for ICAO Class 1, 2 and 3 medical assessments.

RTCE ITP

ICAO English Language Proficiency Interlocutor/Rater Initial Training

The course will enable ICAO English language proficiency Interlocutors/Raters acquire and apply the required competencies to objectively assess and rate the language proficiency of pilots and air traffic controllers using standard criteria so that ICAO Language Proficiency Requirement is consistently and uniformly met without compromising safety of flight and affecting the professional life of pilots and air traffic controllers negatively.
