Safety Management Online

This course provides theoretical principles related to the implementation of ICAO SARPs and fundamental concepts of Safety Management Systems (SMS) and State Safety Programs (SSP). This online course is a mandatory prerequisite for the Safety Management for Practitioners (SMxP) course.

Modules:

- 1- Introduction to Safety Management;
- 2- ICAO Annex 19 - Safety Management;
- 3- State Safety Programme (SSP); and/or
- 4- Safety Management Systems (SMS)

* Pre-requisite to the Safety Management for Practitioners (SMxP) Course

▶ LEARNING OBJECTIVES:

Upon completion of the course, participants will be able to:

- Apply the fundamental concepts and principles of aviation safety management;
- Participate in the SSP/SMS implementation plans based on the frameworks provided in ICAO safety management Standards and Recommended Practices (SARPs), Annex 19 and guidance material, such as the Safety Management Manual, Fourth Edition – 2018; and
- Participate in the resolution of safety-related issues by applying the required skills and knowledge associated with the key SSP/SMS processes

▶ TARGET POPULATION:

The training is most beneficial for those who work for a State regulatory body involved in the planning, development, and implementation of State Safety Programmes, and for staff who work for an aviation service provider involved in the planning, development and implementation of Safety Management Systems.

▶ STRUCTURE OF THE COURSE:

Duration: 12 Hours

Delivery Mode: Online

Language of instruction: English
