INTERNATIONAL CIVIL AVIATION ORGANIZATION

STAFF NOTICE NO. 5868

NEW TRAINING OPPORTUNITY: ACCESS TO ICAO'S GLOBAL AVIATION TRAINING PORTFOLIO

In order to enhance staff learning and professional development on topics relevant to ICAO Standards and Recommended Practices (SARPs), courses in the ICAO Global Aviation Training (GAT) portfolio are being made available for ICAO staff on a complimentary basis, effective immediately.

ICAO staff now have access to ICAO Training Packages (ITPs) hosted by ICAO at Headquarters or Regional Offices, delivered in virtual format, or to online courses hosted on the ICAO Learning Management System. This initiative is applicable to all courses developed and owned by ICAO, also known as ITPs, while courses developed in partnership with other organizations and universities will be subject to review and agreement with the partner on a case-by-case basis.

Supervisors (at the Section Chief level or higher) can nominate staff members by sending an email to aviationtraining@icao.int and indicating the requested training session(s), together with the staff's contact information. Staff will subsequently be notified of their enrolment in the course(s). It is noted that for virtual and classroom courses, registrations will be confirmed once delivery costs have been recovered (i.e. instructor salary).

Staff are therefore invited to identify your technical training needs during your Performance and Competency Enhancement (PACE) discussions with your supervisors and subsequently select courses which are aligned to these needs.

I strongly encourage you to participate in this initiative to enhance your knowledge of ICAO SARPs and to obtain first-hand experience of GAT's training portfolio. For more information on eligible ITPs, please visit the GAT website at [ICAO Aviation Training & Education Directory](#).
