

ICAO

GLOBAL AVIATION TRAINING  
TRAINAIR PLUS™

## Virtual Classroom and Online Courses

Updated as of 1 June 2020

# Keep Moving Forward with ICAO e-Training Programmes!

In a time of uncertainty, training remains a powerful source of knowledge for aviation professionals around the world. To support Member States and civil aviation industry personnel prepare to solve complex challenges ahead, ICAO has expanded its e-training portfolio of virtual classrooms and online courses.

Whether you choose to enter a virtual classroom or to self-study, our competency-based courses will provide you with the necessary knowledge and skills to help you achieve your professional goals.

We remain committed to providing you with training solutions that are affordable, accessible and easy to use.

## Learning Methods:

---

### Virtual Classroom Courses

Real-time instructor-led training

Benefit from live discussion and group activities, including interactive polls, breakout rooms, and more. These courses will offer you:

- An interactive learning experience in a virtual classroom
- Engagement with ICAO instructors and Subject Matter Experts
- An opportunity to interact and share best practices with your peers from around the world

### Online Courses

Self-study and learn at your own pace

Benefit from a unique portfolio of online training opportunities. These courses will offer you:

- Interactive online training to build your professional skills and competencies
- Flexibility to learn and adapt to your own schedule
- Content that is developed by ICAO and its training partners

## Learn anytime. Learn anywhere.

### For Immediate Support

Our support team is available to provide any guidance requested.

Please visit us at [www.icao.int/onlinetraining](http://www.icao.int/onlinetraining) or send us an email to [aviationtraining@icao.int](mailto:aviationtraining@icao.int)

# VIRTUAL CLASSROOM COURSES

## CORSIA Verification: Virtual Classroom

ITP\*

**Training Area** Environment

**Course Description** The Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA) Verification Course provides training on how to verify CO2 Emissions Reports that have been prepared by aeroplane operators, in accordance with the provisions of the CORSIA Standards and Recommended Practices (SARPs).

**Delivery** Virtual Classroom

**Language** English

**Duration** 4 days

## COVID-19 Aviation Safety Risk Management for CAAs: Virtual Classroom

ITP\*

**Training Area** Flight Safety and Safety Management

**Course Description** Apply safety management principles to improve decision-making to address COVID-19 challenges and support safe aircraft operations.

Entry requirements: Review ICAO Webinar, Management of aviation safety risks related to COVID-19 for CAAs <https://www.icao.int/Meetings/webinar-series/Pages/Risk-Assessment-during-COVID-19.aspx>

**Delivery** Virtual Classroom

**Language** English

**Duration** 1 day

## Curso de Gerentes de Centros de Instrucción (CGCI): Impartición Virtual

ITP\*

**Training Area** Training Competency Development

**Course Description** El Curso de Gerentes de Centros de Instrucción TRAINAIR PLUS de OACI (CGCI) se ocupa de los aspectos operativos de la gestión de un Centro de Instrucción de la aviación que cumpla con los estándares requeridos operacionales, la ejecución de los procesos de instrucción y la gestión de la calidad. Esto permitirá a los participantes aplicar las directrices de OACI en la evaluación de un centro de instrucción, a fin de prepararla a cumplir y mantener las normas operacionales y de calidad para el reconocimiento de la OACI.

**Delivery** Virtual Classroom

**Language** Spanish

**Duration** 5 days

## Derecho Aeronáutico Internacional: Impartición Virtual

ITP

**Training Area** Aviation Law

**Course Description** El curso de Derecho Aéreo Internacional tiene por objeto capacitar a representantes de las administraciones de aviación civil, autoridades de aviación civil, aeropuertos y proveedores de servicios de navegación aérea para que apoyen a sus respectivas organizaciones en la implementación del derecho aeronáutico internacional, mediante la aplicación de conocimientos apropiados y actividades de promoción.

**Delivery** Virtual Classroom

**Language** Spanish

**Duration** 5 days

## Emergency Response Tabletop Exercises Management: Virtual Classroom

STP

**Training Area** Aerodromes

**Course Description** This course will provide accountable executives managing and overseeing emergency tabletop exercises with the necessary knowledge, skills, and attitudes to effectively plan an emergency tabletop exercise and use an airport emergency simulation software to execute, debrief, and evaluate an airport's emergency tabletop exercise, and prepare a corrective action plan, all according to the requirements of ICAO SARPs, a State's regulations, and recommendations of experienced subject matter experts (SMEs).

**Delivery** Virtual Classroom

**Language** English

**Duration** 5 days

## Especialista en Evaluación Post-Instrucción: Impartición Virtual

ITP

**Training Area** Training Competency Development

**Course Description** El Curso de Especialista en Evaluación Post-Instrucción TRAINAIR PLUS de OACI (CGCI) trata sobre la aplicación eficiente de los procedimientos de Evaluación Post-instrucción de Nivel 3 y la elaboración de informes que permitan la verificación de la transferencia al puesto de trabajo de las competencias adquiridas en los cursos impartidos dado los objetivos de instrucción contenidos en el diseño de los mismos, impactando en la mejora permanente de la instrucción y el incremento progresivo de su efectividad. Esto permitirá a los participantes desarrollar las capacidades relativas a la aplicación eficaz de los procedimientos de Evaluación Post-instrucción TRAINAIR Plus de Nivel 3 (impacto sobre los rendimientos del trabajo), de acuerdo con las especificaciones de la norma metodológica.

**Delivery** Virtual Classroom

**Language** Spanish

**Duration** 5 days

## Establecimiento de un Manual de Aeródromo para la Certificación de un Aeródromo

STP\*

**Training Area** Aerodromes

**Course Description** Este curso está dirigido a profesionales aeroportuarios y tiene como meta proporcionar a los participantes una comprensión clara de los requisitos y la aplicación práctica de los procesos necesarios para la aprobación de un Manual de Aeródromo (MA) por la respectiva Autoridad de Aviación Civil (AAC). El curso se centra en el proceso de preparación, implementación y mantenimiento del MA que son aplicables a los operadores de aeródromos (como solicitantes reconocidos) y los respectivos organismos de la AAC responsables de la aprobación

**Delivery** Virtual Classroom

**Language** Spanish

**Duration** 5 days

## Establishment of an Aerodrome Manual Toward Airport Certification

STP\*

**Training Area** Aerodromes

**Course Description** This course is targeted at airport professionals and aims to provide participants with a clear understanding of the requirements and practical application of the processes needed for the approval of an Aerodrome Manual (AM) by the respective Civil Aviation Authority (CAA). The course focuses on the preparation process, implementation, and maintenance of the AM that are applicable to aerodrome operators (as recognized applicants) and their respective CAA approving bodies.

**Delivery** Virtual Classroom

**Language** English

**Duration** 5 days

## Gestión de ejercicios de mesa para emergencias - Impartición Virtual

STP\*

**Training Area** Training Competency Development

**Course Description** Este curso le dará a aquellos ejecutivos responsables de la gestión y supervisión de los ejercicios de mesa para emergencias los conocimientos, habilidades y actitudes para planificar, ejecutar, discutir y evaluar ejercicios de mesa para emergencias en aeropuertos y para preparar un plan de acciones correctivas según los requerimientos de las SARP (estándares y prácticas recomendadas) de la OACI y las recomendaciones de expertos en la materia. Beneficios para todos los miembros del equipo de emergencias -aeropuerto, aerolíneas, cuerpos profesionales y defensa civil.

**Delivery** Virtual Classroom

**Language** Spanish

**Duration** 5 days

## ICAO Annex 9 - Facilitation: Virtual Classroom

ITP\*

**Training Area** Security and Facilitation

**Course Description** The ICAO Annex 9 – Facilitation course is course designed to provide ICAO global training in facilitation to relevant staff from Civil Aviation Authorities (CAA) and relevant border control authorities to deal collectively, in an inter-agency manner, with Annex 9’s facilitation provisions and support development and implementation of a National Air Transport Facilitation Programme (NATFP), National Air Transport Facilitation Committee (NATFC) and Airport Facilitation Committee.

**Delivery** Virtual Classroom

**Language** English

**Duration** 5 days

## International Air Law: Virtual Classroom

ITP\*

**Training Area** Aviation Law

**Course Description** The International Air Law course aims to enable representatives of Civil Aviation Administrations, Civil Aviation Authorities, Airports and Air Navigation Service Providers to support their organization in compliance with international air law, through application of appropriate knowledge and advocacy.

**Delivery** Virtual Classroom

**Language** English

**Duration** 5 days

## Management Certificate in Civil Aviation: Virtual Classroom

PTP\*

**Training Area** Aviation Management

**Course Description** The Management Certificate in Civil Aviation (MCCA) covers three main topics to help leaders prepare and enhance their leadership skills in civil aviation. The programme is taught at a level equivalent to that of a graduate business programme and consists of three independent certificates:

- 1) Certificate in Strategic Management;
- 2) Certificate in Human Resources Management;
- 3) Certificate in Business Planning and Decision Making.

These Certificates will provide current and future leaders in civil aviation with the tools needed to bring their organizations up to speed on critical industry issues.

**Delivery** Virtual Classroom

**Language** English

**Duration** 6 days for each

## Managing Compliance with ICAO SARPs: Virtual Classroom

ITP\*

**Training Area** Training Competency Development

**Course Description** This course aims to enable CAA senior and middle managers to plan, manage and continuously monitor the implementation of ICAO SARPs in their States.

Upon completion of the course, participants will be able to:

- develop a strategy to comply with ICAO SARPs
- manage the implementation of national requirements
- monitor compliance with ICAO SARPs

**Delivery** Virtual Classroom

**Language** English

**Duration** 5 days

## Post-Training Evaluation (PTE): Virtual Classroom

ITP\*

**Training Area** Training Competency Development

**Course Description** This course will provide CATC personnel with the necessary knowledge, skills and attitude to implement the TRAINAIR PLUS Level 3 Post-Training Evaluation (L3 PTE) processes, measure the impact of delivered training on work performance, and enhance the quality of developed courses and implemented training processes. The training package includes: - 5 days of face-to-face training and - 5 days of remote technical assistance.

**Delivery** Virtual Classroom

**Language** English

**Duration** 5 days

## Safety Management for Practitioners (SMxP): Virtual Classroom

ITP\*

**Training Area** Flight Safety and Safety Management

**Course Description** The SMxP Virtual Course focuses on Safety Risk Management and Safety Assurance. It aims to provide qualified Safety Management System (SMS) staff with a comprehensive application of operational safety management processes and practical examples on the use of IT tools to enhance efficiency and effectiveness of safety management activities.

**Delivery** Virtual Classroom

**Language** English

**Duration** 6 days

## Training Managers Course (TMC): Virtual Classroom

ITP\*

**Training Area** Training Competency Development

**Course Description** The ICAO TRAINAIR PLUS Training Managers Course (TMC) addresses the operational aspects of managing an aviation training organization that meets the required standards of operation, training delivery, and quality management. It will enable the participants to apply the ICAO training organization assessment guidelines in order to prepare their training organization to meet and maintain operational and quality standards for ICAO recognition

**Delivery** Virtual Classroom

**Language** English

**Duration** 5 days

## Validación de la Instrucción Basada en Competencias: Impartición Virtual

ITP\*

**Training Area** Training Competency Development

**Course Description** El Curso de "Validación de la instrucción basada en competencias" (VIC) ha sido elaborado por la Oficina de instrucción mundial en aviación (GAT) de la Organización de Aviación Civil Internacional (OACI) y se ofrece a la comunidad de la aviación en las instalaciones de un Centro TPP de TRAINAIR PLUS (definido como "Centro TPP" en el presente marco de acuerdo). El curso proporcionará a los centros de instrucción capacidades de validación de los Conjunto de Material Didáctico Normalizados CMDNs diseñados según los preceptos metodológicos del Doc. 9941 de OACI, así como para los cursos convencionales que se diseñen implementando una metodología basada en competencias, asegurando la calidad de la instrucción.

**Delivery** Virtual Classroom

**Language** Spanish

**Duration** 5 days

## Validating Competency-based Training (VCT): Virtual Classroom

ITP\*

**Training Area** Training Competency Development

**Course Description** The Validating Competency-based Training (VCT) course provides Instructional Systems Design (ISD) validators with the essential knowledge, skills and attitudes to conduct validation of competency-based training courses in accordance with the ICAO Doc 9941, Training Development Guide (TDG).

**Delivery** Virtual Classroom

**Language** English

**Duration** 6 days

## Virtual Classroom Instruction (VCI)

ITP\*

**Training Area** Training Competency Development

**Course Description** The ICAO TRAINAIR PLUS Virtual Classroom Instruction (VCI) course provides instructors with the competencies required to deliver online courses, supporting the transition from teaching in a classroom to managing instruction within a virtual classroom.

Upon completion of the course, participants will be able to:

- prepare for a virtual classroom delivery
- manage learning activities in a virtual classroom
- deliver instruction effectively in a virtual classroom

**Delivery** Virtual Classroom

**Language** English

**Duration** 1 day

## Global ACI-ICAO Airport Management Professional Accreditation Programme (AMPAP)

PTP\*

**Training Area** Aerodromes

**Course Description** Start your International Airport Professional (IAP) or Global ACI-ICAO AMPAP Associate designation by enrolling in any of the following three (3) virtual courses of the AMPAP curriculum:

1. Airport Operations, Safety and Security\*
2. Airport Commercial and Financial Management\*
3. Airport Planning, Development and Environmental Management\*

Each of these online mandatory courses last four (4) weeks and participants are estimated to spend on average 10 to 13 hours per week. These courses propose a mix of online sessions, individual and group assignments, and online exams that allow you to take the class while keeping your daily responsibilities at work.

\*Special conditions apply. [Please visit programme page for details.](#)

**Delivery** Virtual Classroom and Online

**Language** English

**Duration** 4 weeks (each)

# ONLINE COURSES

## Aviation Data-driven Decision Making (AD3M) - Part 1

ITP\*

**Training Area** Flight Safety and Safety Management

**Course Description** The Aviation Data-driven Decision Making (AD3M) online course is an excellent way to explore the fundamental concepts behind aviation data-driven decision making. You may wish to complete this online course as a stand-alone, or be eligible as a pre-requisite for the classroom delivery of the Application of Aviation Data-driven Decision Making.

This course is aimed for aviation professionals and managers from Civil Aviation Authorities (CAAs), airlines, aerodrome operators, and other service providers involved in collecting, managing, reporting or making decisions using aviation data.

**Delivery** Online

**Language** English

**Duration** 13 hrs

## Aviation English Level 3 for Civil Aviation Professionals

STP\*

**Training Area** Training Competency Development

**Course Description** Provide to new aviation professionals the necessary knowledge, skills and attitudes allowing them to effectively execute their duties in English language as needed in accordance with ICAO language competency level 3.

**Delivery** Online

**Language** English

**Duration** 40 hrs

## Aviation Fundamentals (AviFun)

PTP\*

**Training Area** Air Transport

**Course Description** An online course for all aviation professionals across all sectors. Learn about the aviation fundamentals of the air transport system in just 9 modules.

Whether you currently work in any field related to aviation, or you are new to aviation, this course will provide you with an overall update and understanding of international civil aviation. ICAO, in partnership with the University of Waterloo bring you this efficient and cost-effective learning method, so you can earn your e-certificate today.

**Delivery** Online

**Language** English

**Duration** 20 hrs

## Conducting a Technical Assistance Visit to CAPSCA Member States and Airports

RTCE ITP\*

**Training Area** Flight Safety and Safety Management

**Course Description** This online course aims to contribute to the ICAO Collaborative Arrangement for the Prevention and Management of Public Health Events in Civil Aviation (CAPSCA) programme by developing a critical mass of experts for the global implementation of ICAO Standards and Recommended Practices (SARPs) related to public health events and emergencies, and the WHO International Health Regulations (IHR 2005).

This online training will enable experts to become CAPSCA Technical Advisors by developing a standardised awareness and understanding of the methodology, aspects and requirements to assess and improve existing prevention infrastructure, and to propose measures to eliminate deficiencies in preparedness to Public Health emergencies.

**Delivery** Online

**Language** English

**Duration** 32 hrs

## Essential Elements of Criminal Air Law for Aviation Professionals

STP\*

**Training Area** Air Transport

**Course Description** This STP will provide aviation professionals with the necessary knowledge, skills and attitudes to correctly carry out the appropriate procedures during specific safety and security incidents on board of an aircraft and in an aerodrome according to the regulatory framework and taking into account the chain of command, responsibilities and liabilities.

**Delivery** Online

**Language** English

**Duration** 18 hrs

## ICAO-ACI Global Reporting Format (GRF) - Online Course

PTP\*

**Training Area** Aerodrome

**Course Description** This online course, jointly developed with Airports Council International (ACI), aims to assist airport personnel to meet the new ICAO requirements for runway surface condition assessment and reporting that come into effect in November 2020, as outlined in ICAO Circular 355, Assessment, Measurement and Reporting of Runway Surface Conditions, and ICAO Doc 10064, Aeroplane Performance Manual (APM).

You will benefit from this course if you are an Manager, Officer or Staff in Airport Operations, Airport Emergency Management, or Airport Safety Management.

**Delivery** Online

**Language** English

**Duration** 3 hrs

## Introduction to the Global Reporting Format (GRF) for Runway Surface Conditions – Online Course for Aircraft Operators and Flight Crew

PTP\*

**Training Area** Aerodrome

**Course Description** This online course, jointly developed by the International Air Transport Association (IATA), aims to assist flight crew to understand and use the new runway condition reporting requirements as outlined in ICAO Annex 14, Volume 1, Aerodrome Design and Operation; Doc 10064, AeroplaneS Performance Manual (APM); and Circular 355, Assessment, Measurement and Reporting of Runway Surface Conditions.

You will benefit from this course if you are a Flight crew, Airline operational staff, or Dispatcher.

**Delivery** Online

**Language** English

**Duration** 3 hrs

## NOTAM Specialist Course - Online Phase

STP\*

**Training Area** Air Navigation Services

**Course Description** The course will provide participants with the preliminary knowledge, skills and attitudes required to effectively follow Classroom phase of the 'NOTAM Specialist' Course with optimized duration.

**Delivery** Online

**Language** English

**Duration** 30 hrs

## Performance-Based Navigation (PBN) - Airspace Design

ITP\*

**Training Area** Air Navigation Services

**Course Description** This online course provides an understanding of the application of Performance-Based Navigation (PBN) in the design of airspace. Personnel involved in airspace design need to understand the PBN concept and how it can be used to improve an existing airspace structure.

You will benefit from this course as an aviation professional currently working as: an ATS provider and regulator, ATS manager, Airline flight planning personnel from operational control centres, supervisors, safety managers, airspace planners, trainers, and inspectors who are involved in ATS airspace design and procedures both civil and military.

**Delivery** Online

**Language** English

**Duration** 5 hrs

## Performance-Based Navigation (PBN) for Air Traffic Controllers

ITP\*

**Training Area** Air Navigation Services

**Course Description** This Performance-Based Navigation (PBN) course provides fundamental and most critical information necessary for Air Traffic Controllers to facilitate their understanding with respect to PBN.

You will benefit from this course as an aviation professional working for an air traffic service provider or for individual Air Traffic Controllers with guidance from the International Federation of Air Traffic Controllers Associations.

**Delivery** Online

**Language** English

**Duration** 5 hrs

## Performance-Based Navigation (PBN) for Pilots

ITP\*

**Training Area** Air Navigation Services

**Course Description** This Performance-Based Navigation (PBN) course provides an overview of the PBN concept and principles, and provides pilots with guidance on procedures for PBN operations.

PBN is increasingly becoming the normal method of navigation and all pilots need to understand the basic concepts and operational requirements.

You will benefit from this course as an aviation professional working for an airline, or if you are a commercial or general aviation pilot.

**Delivery** Online

**Language** English

**Duration** 5 hrs

## Performance-Based Navigation (PBN) Operations Approval

ITP\*

**Training Area** Air Navigation Services

**Course Description** This online course provides an overall understanding of the Performance-Based Navigation (PBN) concept, implementation and operations approval process.

As commercial air transport operators need operational approval to fly PBN routes and procedures, this course is fundamental for Civil Aviation Authorities (CAA) and Airline personnel.

**Delivery** Online

**Language** English

**Duration** 5 hrs

## Performance-Based Navigation (PBN) Overview

ITP\*

**Training Area** Air Navigation Services

**Course Description** This online course provides a high-level overview of the Performance-Based Navigation (PBN) concept and principles. This course is a recommended pre-requisite to understanding PBN and for further PBN training.

Since PBN implementation impacts all areas (aircraft operations, regulatory approvals and authorizations, training, instrument flight procedure design, airspace design, aircraft separation, etc), understanding the PBN concept and principles becomes essential for all aviation stakeholders.

**Delivery** Online

**Language** English

**Duration** 5 hrs

## Personal Weight Management Skill Set for Aviation Professionals

STP\*

**Training Area** Flight Safety and Safety Management

**Course Description** This course will provide participants the necessary knowledge, skills and attitudes to ensure that participants can plan and execute a lifestyle that will reduce the likelihood of obesity and its related diseases, in accordance with the recommended practices and procedures established by the State (Department of Health) and relevant international bodies.

**Delivery** Online

**Language** English

**Duration** 10 hrs

## Personnel Licensing (PEL) System Part 1

STP\*

**Training Area** Flight Safety and Safety Management

**Course Description** The ITP-PEL online module aims to provide participants with essential knowledge about personnel licensing system.

Upon completion of this course, you will be able to:

- Identify the essential components and processes of a PEL system
- Describe the regulatory system governing PEL and the requirements of a PEL office
- Describe the processing of licences, language proficiency requirements, and the examining principles of PEL

**Delivery** Online

**Language** English

**Duration** 15 hrs

## Repurposing Aircraft Passenger Cabin for Transport of Cargo

ITP\*

**Training Area** Flight Safety and Safety Management

**Course Description** This interactive online course based on an ICAO webinar in the COVID-19 pandemic, provides comprehensive and up-to-date guidance for the implementation of the Transport of Cargo in the Passenger Cabin (TCPC) including specific ICAO Provisions, considerations for regulatory approval, and examples of best practices from Member States and other organizations.

**Delivery** Online

**Language** English

**Duration** 2 hrs

## Safety Management Online

ITP\*

**Training Area** Flight Safety and Safety Management

**Course Description** This Safety Management course describes ICAO safety management provisions and the implementation of State Safety Programme (SSP) and Safety Management System (SMS) at State and service provider level, respectively.

By completing this course, you will be prepared and eligible to enroll in other ICAO Safety related courses, as it remains a pre-requisite to register for the State Safety Programme, Aerodrome Safety Management Incorporating PANS-Aerodromes, Safety Management for Practitioners (SMxP).

You will benefit from this course if you work for a State regulatory body involved in the planning, development, and implementation of State Safety Programmes, and if you work for an aviation service provider involved in the planning, development and implementation of Safety Management Systems.

**Delivery** Online

**Language** English

**Duration** 13 hrs

## Training Instructors Course (TIC) Part 1 - Instructional Competencies

ITP\*

**Training Area** Flight Safety and Safety Management

**Course Description** This online course aims to provide participants with basic instructional skills, knowledge and techniques, as well as contemporary methods, which will enable them to prepare and be ready to deliver training courses in an efficient and effective way.

You will benefit from this course if you are a pre-service and in-service trainers with little or no formal training background. This course will also prepare you as it remains a pre-requisite to the classroom delivery of the Training Instructors Course (TIC) Part 2.

**Delivery** Online

**Language** English

**Duration** 30 hrs

## Universal Safety Oversight Audit Programme Continuous Monitoring Approach (USOAP CMA)

**Training Area** Flight Safety and Safety Management

**Course Description** This comprehensive online course assists aviation experts to prepare for Universal Safety Oversight Audit Programme Continuous Monitoring Approach (USOAP CMA) activities. It highlights the essential content of the protocol questions, relating them to the associated ICAO documents, including the ICAO Annexes and associated guidance material in each audit area.

If your State is looking to qualify additional personnel, this is a good time to enroll in this course.

**Delivery** Online

**Language** English

**Duration** 50 hrs

# Course Definitions

## ICAO Training Package (ITP)

An ITP is a training package produced by ICAO or a Regional Training Centre of Excellence (RTCE), in accordance with the ICAO Training Development Guide, Competency-based Methodology (Doc 9941) or an equivalent ISD methodology.

## Compliant Training Package (CTP)

A CTP is a training package that complies with ICAO Standards and Recommended Practices (SARPs) and guidance material. It is presented as a fully documented and tested comprehensive package of training material that reflects:

- the current technological and operational requirements specific to a particular training topic;
- ICAO SARPs, Annexes and guidance material; and
- ICAO training objectives, complements existing ICAO training, and makes a significant contribution to aviation capacity building.

## Partner Training Package (PTP)

A PTP is training material produced in partnership between ICAO and the training arm of a Corporate Member, industry partner, or educational institution, in accordance with the ICAO Training Development Guide, Competency-based Methodology (Doc 9941).

PTPs are presented as fully documented and tested comprehensive packages of training material that comply with ICAO SARPs and policies, help achieve ICAO training objectives, complement existing ICAO training, and make a significant contribution to aviation capacity building.

## Standard Training Package (STP)

An STP is a competency-based training package produced in accordance with the ICAO Training Development Guide, Competency-based Methodology (Doc 9941). It is self-contained, material-dependent, and validated by the TRAINAIR PLUS Programme. The package includes instructor material, trainee material, as well as relevant documents on how the course was developed.
