

Cir 313
AT/134

Outlook for Air Transport to the Year 2025

Approved by the Secretary General
and published under his authority

September 2007

International Civil Aviation Organization

TABLE OF CONTENTS

	<i>Page</i>
Chapter 1. Summary.....	1
Chapter 2. Air Transport Trends and Challenges	5
Economic development and airline traffic patterns.....	5
Trends in scheduled passenger, freight and mail traffic.....	6
International and domestic traffic	7
Regional distribution of scheduled international traffic	8
Passenger traffic on major intercontinental route groups.....	9
Trends in non-scheduled passenger traffic.....	9
Aircraft movements.....	10
Fleet composition and productivity.....	11
Relationship between productivity, prices and financial performance	13
Safety and quality of service	15
Airport and airspace congestion.....	16
Environmental protection.....	17
Financial resources.....	17
Economic regulation	18
Industry structure	19
Product distribution.....	20
Alliances and airline cooperation.....	20
Airline business models	20
Privatization, national consolidation and transnational ownership	21
Chapter 3. World Economic Environment.....	22
Historical trends.....	22
Outlook	23
Chapter 4. Airline Financial Trends	24
Operating revenues, expenses and results.....	24
Global trends.....	24
Yields and unit costs	28
Operating revenues and expenses by category and region.....	29
Outlook	32
Chapter 5. Forecasts of Airline Traffic to the Year 2025	33
Forecasting methodology.....	33
Main assumptions and econometric models	33
Global passenger forecasts.....	34
Regional passenger forecasts	36
Passenger forecasts by route group.....	37
Global freight forecasts.....	37
Regional freight forecasts	40
Accuracy of previous forecasts.....	41
Summary of air traffic forecasts by other organizations.....	41

	<i>Page</i>
Chapter 6. Forecasts of Aircraft Movements to the Year 2025	43
Factors affecting aircraft movements	43
Measures of aircraft movements	45
Forecasting methodology	45
Forecasts of world scheduled aircraft movements	46

APPENDICES

Appendix 1. Econometric Models of Demand for World Scheduled Air Traffic	48
Appendix 2. Model for Aircraft Movement Forecasts	49

TABLES

Table 1-1. ICAO air traffic forecasts — World (1985–2025)	2
Table 1-2. ICAO air traffic forecasts — Regions of airline registration (1985–2025)	3
Table 1-3. ICAO air traffic forecasts — Route groups (1985–2025)	4
Table 2-1. Trends in total scheduled traffic — World (1975–2005)	6
Table 2-2. International non-scheduled passenger traffic — World (1985 and 2005)	10
Table 2-3. Productivity of international scheduled airlines — World (1965–2005)	13
Table 4-1. Operating revenues and expenses — World (1965–2005)	25
Table 4-2. Total and unit operating revenues and expenses — World (1985 and 2005)	26
Table 4-3. Distribution of operating revenues and expenses — World (1985 and 2005)	31
Table 4-4. Distribution of operating revenues and expenses — Regions of airline registration (1985 and 2005)	32
Table 5-1. ICAO scheduled passenger traffic forecasts — World (1985–2025)	35
Table 5-2. ICAO scheduled passenger traffic — Regions of airline registration (1985–2025)	36
Table 5-3. ICAO air traffic forecasts— Route groups (1985–2025)	38
Table 5-4. ICAO scheduled freight traffic forecasts — World (1985–2025)	39
Table 5-5. ICAO scheduled freight traffic — Regions of airline registration (1985–2025)	40
Table 5-6. Global scheduled traffic forecasts by aerospace manufacturers	42
Table 6-1. ICAO aircraft movements forecast — World (1995–2025)	46
Table A2-1. Growth in aircraft movements and contributing factors — World (1995–2025)	50

FIGURES

Figure 2-1. Economic and airline traffic trends — World (1960–2005)	6
Figure 2-2. Trends in scheduled international and domestic traffic — World (1985 and 2005)	7
Figure 2-3. International passenger and freight traffic — Shares by region (1985 and 2005)	8
Figure 2-4. Passenger-kilometres performed on scheduled services — Major international route groups (1985 and 2005)	9
Figure 2-5. Growth in passengers and aircraft movements — World (1960–2005)	11
Figure 2-6. Composition of commercial aircraft fleet — World (1960–2005)	12
Figure 2-7. Trends in airline productivity — World (1960–2005)	14
Figure 2-8. Input price trends — World (1960–2005)	14
Figure 2-9. Trends in airline industry performance — World (1960–2005)	15
Figure 2-10. Aircraft orders, deliveries and operating margin — World (1985–2005)	18
Figure 3-1. Growth of real GDP and GDP per capita — World (1985–2005)	23
