

Zulkifli Alias

Zulkifli Alias, formerly was the airport chief fire officer, started his profession in Malaysia Airlines as a Flight Safety Instructor in 1991. He holds a Diploma in Mechanical Engineering from University Technology of Mara and later received Certificate in Training and Development United Kingdom during his instructional days. Last year, he achieved a Master Degree in Business Administration from Northern University of Malaysia.

**Cabin Safety Inspector
Malaysia Airlines**

He is a person with strong advocate towards safety and being a safety instructor with Malaysia Airlines was the right choice to him. His has devoted himself to Cabin safety ever since. Cabin safety inspectorate section was formed in Flight Safety dept where he chose to join and became a cabin safety Inspector. The experience and professionalism shown by him as a cabin safety inspector received accreditation from the Dept of Civil Aviation (DCA) Malaysia and was appointed as a DCA authorised Cabin Safety Inspector. He was also given the task as a Safety Anchor Person for cabin safety with the implementation of Safety Management System, actively involved in Malaysia Airlines working team during IOSA accreditation under Cabin Operations discipline since 2005 and Crew Resource Management (CRM) facilitator. In addition, he was given the responsibility and ownership to develop and update the airline Safety Emergency Procedures Manual.

Zulkifli is currently holding the post as a Flight Safety Controller managing Flight Safety Training matters for flight and cabin crew at Malaysia Airlines Academy. He is now involved in a project for the airline e-learning implementation as a subject matter expert (SME) for the content development focusing on cabin safety.
