

INTERNATIONAL CIVIL AVIATION ORGANIZATION

**TWENTY FIFTH MEETING OF THE
ASIA/PACIFIC AIR NAVIGATION PLANNING AND
IMPLEMENTATION REGIONAL GROUP (APANPIRG/25)**

Kuala Lumpur, Malaysia, 8 - 11 September 2014

Agenda Item 3: Performance Framework for Regional Air Navigation Planning and Implementation

3.0: Regional and National Performance Framework

PBN-RELATED INDICATOR FOR APAC PRIORITIES AND TARGETS

(Presented by the Secretariat)

1. WP/20 presents the proposed regional priorities and targets that were developed at the meeting of APANPIRG Sub Group Chairpersons and the dissolved APASPG Chairs held in Hong Kong China on 16 – 17 January 2014.
2. The proposed regional priorities and targets were also reviewed by the AOP WP/2, CNS SG/18 and ATM SG/2 meetings.
3. After an internal review of the regional performance dashboard by ICAO HQ and regional offices, the indicator related to PBN has been further harmonized between the ICAO regions, in order to establish a consistent measurement and enable comparisons.
4. The meeting is invited to note that the initial indicator “% of international aerodromes having at least one runway end provided with APV Baro-VNAV or LPV procedures” is changed to “Percentage of instrument runways used for approaches at international aerodromes with APV, or LNAV-only procedures”.
