

FINAL MEETING REPORT
ICAO COLLABORATIVE ARRANGEMENT FOR THE PREVENTION AND
MANAGEMENT OF PUBLIC HEALTH EVENTS IN CIVIL AVIATION ASIA PACIFIC
(CAPSCA-AP)

7th Meeting of CAPSCA Asia Pacific (CAPSCA – AP) Project

(Colombo, Sri Lanka, 20-23 May 2014)

SUMMARY OF DISCUSSIONS

1. INTRODUCTION

1.1 The 7th Meeting of the CAPSCA-Asia Pacific (CAPSCA-AP) project was hosted by the Civil Aviation Authority of Sri Lanka at the Hilton Colombo, Sri Lanka, from 20 May to 23 May 2014.

1.2 A total of almost 70 participants attended the meeting, representing both Civil Aviation and Public Health Authorities and their stakeholders, from 13 States/Administrations of the Asia Pacific Region i.e. Bangladesh, Brunei, China, Hong Kong SAR, Indonesia, Macao SAR, Malaysia, Maldives, Nepal, New Zealand, Singapore, Sri Lanka, and Thailand. In addition to ICAO, partner organisations at the meeting included representatives from the World Health Organization (WHO), Airports Council International (ACI), Association of Asia Pacific Airlines (AAPA), and University of Toronto. The complete Participants list is attached in **Appendix A** of this Report.

1.3 Mr. H.M.C. Nimalsiri, Director General of Civil Aviation and Chief Executive Officer Civil Aviation Authority of Sri Lanka, as host welcomed all meeting participants to Sri Lanka, wished for fruitful discussions and acknowledged that CAPSCA provided a forum for productive dialogue between all partners and an opportunity for networking.

1.3 The 7th CAPSCA-AP Meeting began with the launching of the Sri Lanka National Civil Aviation Preparedness Plan for Public Health Emergencies. This launching was officiated by Dr Ravindra Ruberu, Secretary of the Ministry of Civil Aviation Sri Lanka in the presence of the Honourable Deputy Minister of Civil Aviation of Sri Lanka, Mr. Geethanjana Gunawardena.

1.4 The 7th CAPSCA AP meeting was facilitated by Dr. Jarnail Singh, the ICAO CAPSCA Global Programme Technical Adviser and Chairman, Aviation Medical Board, CAA Singapore, and Mr. Manjit Singh, Regional Officer Technical Assistance of the ICAO APAC Regional Office and Regional Coordinator, CAPSCA-AP.

1.5 The Meeting adopted the agenda/programme as in **Appendix B**. The Meeting was provided with presentations by WHO, ACI, and University of Toronto (virtual presentation). The ICAO Team presented reports, reviewed conclusions and provided highlights of the 6th CAPSCA-AP Meeting, 4th CAPSCA Global Coordination Meeting and other CAPSCA Regional Project Meetings. Other ICAO Presentations included - ‘Arrival of an affected aircraft – A Standard Operating Procedure’ (recorded presentation by Dr Anthony Evans, ICAO CAPSCA Programme Manager) and an Update on ICAO Universal Safety Oversight Audit Programme Protocol Questions on Public Health Emergency Preparedness’, etc. Dr Jarnail Singh also presented an ‘Update on WHO informal consultation meeting on technical guidance and 4th PAGnet meeting’, held in Lyon, in April 2014. In addition various State representatives (e.g. China, Sri Lanka, Malaysia, Thailand, and Singapore) provided presentations sharing their national experiences in preparedness planning. The complete list of presentations, all the documentation and presentations related to the Meeting and all CAPSCA information and references are available at the CAPSCA website: <http://www.capsca.org/>.

1.6 Day 4 of the meeting was reserved for a visit to the Mattala Rajapaksa International Airport (MRIA), Sri Lanka which included an airport walkthrough of the public health facilities.

2. CONCLUSIONS

2.1 The Meeting adopted the following Conclusions:

Conclusion No. 1:

Mr. H.M.C. Nimalsiri, Director General of Civil Aviation and Chief Executive Officer of Civil Aviation Authority of Sri Lanka was elected as Chairperson of the CAPSCA-AP project until the next (8th) CAPSCA-AP Meeting. The meeting also agreed to the continuation of Malaysia as Vice-Chairperson of the CAPSCA AP Project.

Conclusion No. 2:

States are encouraged to:

- a. confirm participation in the CAPSCA-AP Project by the civil aviation authority (CAA) and/or public health authority (PHA) (if not yet members) by sending a letter to ICAO and/or WHO regional offices respectively in accordance with the Asia Pacific Air Navigation Planning and Implementation Regional Group (APANPIRG/23) Conclusion 23/51 (Note: there is currently no cost to join CAPSCA);
- b. designate CAPSCA focal point(s) from CAA and/or PHA (States are requested to advise the ICAO Regional Office); and
- c. request Assistance Visits (on a cost-recovery basis) in 2014 by sending a letter to ICAO APAC Regional Office.

Conclusion No. 3:

The meeting congratulated Sri Lanka on the Launch of the Sri Lanka National Civil Aviation Preparedness Plan for Public Health Emergencies. CAA Sri Lanka has agreed to share its Plan with CAPSCA for posting on the CAPSCA website: www.CAPSCA.org.

Other States' authorities, airport operators, aircraft operators and air navigation service providers (ANSP) are encouraged to provide their Public Health Emergency Preparedness Plans to ICAO for posting on the CAPSCA website.

Conclusion No. 4:

States/Administrations should develop, update and test aviation public health emergency (PHE) preparedness plans in collaboration with public health authorities, in compliance with related ICAO SARPs and WHO IHR (2005), and prepare for the ICAO USOAP Continuous Monitoring Approach (CMA) audit which, from 2013, include protocol questions concerning PHE related ICAO Standards and Recommended Practices.

Conclusion No. 5:

WHO, represented by the South East Asia Regional Office (SEARO) and WHO country office of Sri Lanka, encourages all Member States (MS):

- i. requesting a second extension, to develop and strengthen their national IHR core capacities set forth in Annex 1 of IHR (2005) for designated points of entry by working with WHO, partners and CAPSCA within the new extended timeframe.
- ii. to “designate” required PoE and identifying competent authorities for implementing IHR at PoE.
- iii. to list authorized ports able to issue ship sanitation certificates
- iv. to strengthen links of PoE with the national health surveillance and response system and provide timely report to WHO through the National IHR Focal Point.
- v. to update national legislation and harmonization of IHR requirements with enforcement of provisions from others International agreements (e.g. ICAO, International Maritime Organization (IMO), International Labour Organization (ILO) Conventions)
- vi. to strengthen inter-sectoral collaboration and coordination for designation, assessment and development of routine and response core capacity at PoE (e.g. transport, customs, immigration, environment, etc.); and
- vii. to have harmonized best practices at PoE in a globalized world and in an all hazards approach.

Conclusion No. 6:

State aerodrome operators and public health authorities are invited to consider developing a local standard operating procedure for an arriving affected aircraft, including timelines for response. Recommendations developed by the United Kingdom working group are available for reference on the CAPSCA website: <http://www.capsca.org/CAPSCAStateRefsDocuments.html>.

Conclusion No. 7:

CAPSCA-AP 2014 was informed of the slow progress that Pacific Island Countries are making towards achieving compliance with IHR 2005 requirements. The meeting noted that these states have serious challenges to overcome before they will be able to achieve compliance. It is important they:

- a. develop their countries capabilities by using the principles of proportionality to ensure that the building of their core capacities reflects the particular public

- health risks they have to manage; and
- b. receive the technical and training support they need to assist them to successfully implement relevant core capacities.

Conclusion No. 8:

The meeting was apprised of the WHO informal consultation meeting on draft technical guidance and the 4th PAGnet (Ports, Airports and Ground Crossings Network) held in Lyon in April 2014. The meeting, in welcoming the guidance material, recommended that a joint partnership approach be adopted between WHO, ICAO, IATA and other aviation sector stakeholders towards the development of joint public health guidelines for the aviation sector.

Conclusion No. 9:

If traveller screening is considered:

- Exit screening is most effective, least disruptive but places further burden on the source country
- Entry screening in cities receiving direct flights from a source area is a second but less desirable option
- Entry screening in cities not receiving direct flights from a source area are highly inefficient and can be disruptive

States may consider establishing a validation process in collaboration with other States for ensuring that travellers have been exit screened to an appropriate level at the origin airport to avoid applying entry screening when arriving at the destination airport. A similar process is utilized by some States with respect to airport security screening of transfer travellers.

Conclusion No. 10:

The representative from Civil Aviation Medicine Center of CAAC briefed the meeting on the national civil aviation organizational structure and prevention/control measures for public health emergencies in China mainland. The meeting noted the presentation.

Conclusion No. 11:

Following a discussion on contact tracing, the meeting recommended that a generic approach to contact tracing is not feasible. The meeting recommended that a risk assessment approach be adopted for contact tracing for public health events. In this context it was felt that WHO in partnership with ICAO, IATA and ACI as well as other relevant stakeholders, draw up contact tracing guidelines and have examples of public health events eg., Measles, Ebola, H7N9 Influenza, MERS-CoV, Wild Polio, to illustrate the risk based approach.

Conclusion No. 12:

The meeting in recognizing the importance of capacity building in PHE preparedness planning, endorsed the:

- i. need of intensive training programmes for both Aviation and Public Health Authority personnel for implementation of Aviation Preparedness plan for public health events / emergencies in the APAC Region
- ii. need of refresher course on public health issues for Aviation Medical examiners and Airline/Airport Medical Officers in the APAC Region; and
- iii. the development of a web based community discussion forum on PHEIC within the CAPSCA website to discuss matters that arise on PHEIC and National planning, for participants to make queries, share experiences, and give expert

views, recommendations and inputs. [Post meeting note: WHO HQ has established a website for Ports and Ground Crossing (PAGNET) that may fulfil this purpose: http://www.who.int/ihr/ports_airports/pagnet/en]

Conclusion No. 13:

The meeting agreed that the public health response to an emerging infectious disease (such as MERS-COV) requires risk assessments that are timely and accurate and practical prevention and control strategies that are appropriate to the level of risk.

Precautionary measures include public health advisories to minimize the risk of infection for travelers to an infected area, systems for early detection of cases at the airport, clinics and hospitals, and protocols for preventing epidemic spread into the community.

Conclusion No. 14:

ICAO drew the attention of the meeting participants to the ICAO State Letter Ref.: AN 5/28-14/33 dated 11 April 2014, regarding the establishment of the special ICAO's voluntary Safety Fund (SAFE) earmarked for CAPSCA.

States, Organizations and Industry are encouraged to make voluntary contributions to the Collaborative Arrangement for the Prevention and Management of Public Health Events in Civil Aviation (CAPSCA).

Conclusion No. 15:

States are invited to host the next (8th) CAPSCA AP meeting in April – June 2015 timeline by writing to the ICAO APAC Regional Office.

(Note: The People's Republic of China delegation indicated tentative interest to host the 8th CAPSCA AP Meeting, but this is very much subject to internal coordination/approvals which would be conveyed to ICAO APAC Office).

**7TH MEETING OF THE COLLABORATIVE ARRANGEMENT FOR THE
PREVENTION AND MANAGEMENT OF PUBLIC HEALTH EVENTS IN CIVIL
AVIATION ASIA PACIFIC (CAPSCA-AP)**

COLOMBO, SRI LANKA

20-23 MAY 2014

(Meeting Venue: Hilton Colombo)

MEETING PROGRAMME

Day 1 – Tuesday, 20 May 2014			
time		Programme	Speaker / Lead
0800	0900	Registration	CAA Sri Lanka
0900	0930	Opening Remarks by <ul style="list-style-type: none"> • DGCA CAA Sri Lanka • Additional Secretary Medical Services, MoH Sri Lanka • ICAO • WHO Representative 	
0930	1000	Launch of the National Civil Aviation Preparedness Plan for Public Health Emergencies <ul style="list-style-type: none"> - Speech by Secretary Ministry of Civil Aviation SL - Handover of National Plan to Minister of Civil Aviation 	Ministry of Civil Aviation
1000	1100	Group Photograph / Coffee Break	
1100	1115	Appointment of Chairperson and Vice-Chairperson	
1115	1130	Meeting Participants Introductions / Adoption of Meeting Agenda	
1130	1145	Review of CAPSCA-AP Outstanding Conclusions (6 th CAPSCA-Asia Pacific project meeting in Manila, 22-25 April 2013)	MS
1145	1200	Report on the 4 th Global Coordination Meeting of CAPSCA (Bern, Switzerland, 18 to 21 June 2013)	JS
1200	1230	Highlights of CAPSCA activities and achievements in all regions	JS
1230	1330	Lunch Break	

1330	1500	CAPSCA-AP technical assistance visits to Sri Lanka (May 2013) – Follow-up update/progress on the Action Plans :	Sri Lanka MoH/CAA/AASL
		<ul style="list-style-type: none"> Recent developments in prevention of PHEIC by Dr Denuwara, Director of Quarantine Ministry of Health. National Aviation Preparedness Plan - Implementation update by Dr Bimal Dias 'Handling of Transit Passengers who become unwell at the airport' by Dr S.D.A.S. Nishantha, Company Medical Officer, Airport and Aviation Services (SL) Limited 	
1500	1530	Coffee Break	
1530	1600	Experience of States/Airports in preparedness planning, including training video/s :	Presentation by China
		<ul style="list-style-type: none"> National Aviation Prevention and Control Measures for Public Health Emergencies in China 	
1600	1630	Arrival of an affected aircraft – A Standard Operating Procedure	AE – Recorded presentation
1700		Day-1 Meeting Adjourn	
Day 2 – Wednesday, 21 May 2014			
time		programme	Speaker/Lead
0900	1030	WHO Presentation(s): <ul style="list-style-type: none"> International Health Regulations update and progress in the region 2013 Pandemic Influenza Risk Management WHO Interim Guidance – an overview Update relating to the H7N9 and the MERS-CoV outbreaks 	Dr Bardan Jung – WHO SEARO Dr Janakan – WHO SL
1030	1100	Coffee Break	
1100	1130	"Designating Aviation POEs - The Challenge for the Pacific States"	John Gardner Senior Advisor Biosecurity Environmental & Border Health Ministry of Health NZ
1130	1200	Equipment carried on-board airlines and cabin crew training to deal with on-board public health and medical events	Dr Anomi Jayasinghe Group Medical Officer Sri Lankan Airlines
1200	1300	Lunch Break	
1300	1330	Global Health Security and Singapore's Public Health Response to Emerging Diseases	Dr Steven Ooi Min of Health, Singapore
1330	1500	Experience of States/Airports in preparedness planning <ul style="list-style-type: none"> Thailand Malaysia 	
1500	1530	Coffee Break	
1530	1600	Transfer to DLC	
1600	1700	Bio Diaspora-Evidence-Based Decision-Making in Public Health	Dr Kamran Khan
1700		Day-2 Meeting Adjourn	

Day 3 – Thursday, 22 May 2014			
time		Programme	Speaker/Lead
0900	1000	Discussion Panel 1: Passenger Contact tracing	Moderator: JS
1000	1030	Coffee Break	
1030	1100	ACI Presentation	Mr Desmond Chong, Manager, Airport Operations Centre, Changi Airports Group (representing ACI)
1100	1130	Update on WHO informal consultation meeting on technical guidance and 4th PAGnet meeting, Lyon, FRA, 14-17 April 2014	JS
1130	1200	ICAO Universal Safety Oversight Audit Programme and CMA update – PHE related ICAO SARPs	MS
1200	1300	Lunch Break	
1300	1500	Table top exercise (presentation by groups)	JS
1500	1530	Coffee Break	
1530	1545	<ul style="list-style-type: none"> • Update on CAPSCA 2014 Meetings • Future funding for CAPSCA 	MS
1545	1600	Date and Venue of the Next CAPSCA AP Meeting (Note: <i>States wishing to host the CAPSCA AP meeting in 2015 may indicate their interest</i>)	MS
1600	1630	Meeting Conclusions	JS & MS
1630		Day-3 Meeting Adjourn	
Day 4 – Friday, 23 May 2014			
time		Programme	Speaker/LEAD
0730		Departure to the Mattala Rajapaksa International Airport (MRIA)	CAA Sri Lanka
0930	1130	Airport Visit covering as well the <i>public health facilities</i> at Mattala Rajapaksa International Airport (MRIA) - <ul style="list-style-type: none"> • Emergency Operations Centre • Public Health Office • Departure & Arrival Areas/Facilities including Immigration & Customs • Airport Medical Services • Rescue and Firefighting Services Station • ATC Tower 	JS & BD
1300		Back to BIA, Colombo	
		Day-4 Meeting Adjourn
