

International Civil Aviation Organization

**EIGHTEENTH MEETING OF THE METEOROLOGY
SUB-GROUP (MET SG/18) OF APANPIRG**

ICAO Regional Sub-Office, Beijing, China
18 – 21 August 2014

Agenda Item 11: Any other business

REVIEW APAC [MET] CONTACT LISTS

(Presented by the Secretariat)

SUMMARY

This paper presents lists of contact details required by the ICAO Regional Office, Bangkok, for MET-related issues.

1. Introduction

1.1 The ICAO Regional Office in Bangkok maintains lists of contact details for key people in APAC States and organizations concerned with regional implementation of ICAO standards and recommended practices pertaining to the supply and use of meteorological information for international civil aviation.

1.2 In order to facilitate effective coordination and cooperation between the key stakeholders it is necessary to ensure the contact details held in the Regional Office are maintained correct and up-to-date.

2. Discussion

2.1 The Regional Office routinely liaises with States and organizations to share important information concerning, inter alia, regional implementation of MET and the work program of APANPIRG and its contributory bodies. While different individuals may be included in the distribution lists for various communications from the Regional Office depending on the particular technical nature of the matter concerned, generally all liaison related to MET will be either directed to, or copied to, the primary MET contact nominated by a State or organization concerned so that the State or organization can ensure the information is provided to the appropriate person(s). Typically, the primary MET contacts in States will be the State-designated MET authorities or their delegates. The primary MET contact is often also the representative of the aeronautical MET service provider. **The Attachment 1** to this paper contains the current list held in the Regional Office containing contact details provided by States and organizations for their designated MET authorities and primary MET contacts. As the Regional Office uses email as the preferred and often only means of distribution of communications wherever possible, it is important that the email addresses in the contact list are maintained correct and up-to-date.

2.2 The meeting is also reminded that the ICAO keeps an on-line global contacts database, known as the DGCA directory, which contains contact details provided by States for key authorities including State-designated MET authorities and MET agencies. Access to this on-line version is by subscription only (see <http://www.icao.int/secretariat/legal/Pages/DGCA.aspx> for details). The DGCA Directory is used for reference purposes by all States, ICAO staff members and paying subscribers and the meeting is reminded that the DGCA directory is a self-service system that requires the States to provide and update their own contact information whenever necessary. Instructions on how to enter and update the information are provided at the DGCA directory webpage via the ICAO secure portal. For reference, **the Attachment 2** to this paper provides an extract of the contact details contained in the DGCA directory for MET authorities and MET agencies in the APAC region.

2.3 On behalf of the World Area Forecast System (WAFS) Internet File Service (WIFS) Provider State, the United States, the ICAO Regional Office is also the custodian of the list of contact details for approving officials for changes to WIFS accounts and new WIFS accounts (MET SG/17 Decision 17/4 refers). **The Attachment 3** to this paper contains the current list held in the Regional Office containing contact details provided by States for WIFS approving officials (as requested in State letter Ref.: T 4/9.5:AP124/13 (MET), issued on 21 August 2013). The meeting is reminded of the necessity for States to keep this information correct and up-to-date to facilitate the ongoing provision of the WIFS system by the United States.

3. Action by the Meeting

3.1 The meeting is invited to:

- a) note the information contained in this paper;
- b) provide updates to the lists in the **Attachment 1** and **Attachment 3** to this paper as necessary; and
- c) ensure that States' MET authority and MET agency contact details are correct and up-to-date in the ICAO on-line DGCA directory as discussed in paragraph 2.2, above.

REGIONAL OFFICE STANDING INSTRUCTIONS

ROSI #: DD – 03/M
 Issued: 24 January 1996
 Amendment: **05 August 2014**

Subject: **Listing – AP Contracting / Non Contracting States / Territories - MET Authorities and MET Contacts**
