TRAINING FOR AFGHANISTAN AIR TRAFFIC CONTROLLERS IN TEHRAN

(Presented by I. R. Iran)

SUMMARY

This paper presents the ability of Islamic Republic of Iran to provide standard academic, pre-On-the-Job (OJT) and OJT course for Afghanistan air traffic controllers.

1. INTRODUCTION

1.1 As mentioned in AHACG/1, lack of experienced Afghan Air Traffic Control Officers (ATCOs) was the main issue affecting the continuity of the ATS in Kabul FIR.

1.2 The AHACG/1 meeting noted that ICAO would issue a State Letter requesting States to detail what support (training, facilities, personnel, etc.) they could provide for Afghanistan.

1.3 In light of the above, this working paper presents the ability of Islamic Republic of Iran to train and support Afghanistan Civil Aviation Authority for provision of ATS service in Kabul FIR by Afghan ATCOs.

2. DISCUSSION

2.1 As mentioned in final report AHACG/2, Islamic Republic of Iran is ready to provide the following course (Academic, pre-OJT & OJT) in ICAO TRAINAIR Institute at Tehran to train Afghan Air Traffic Controllers.

2.2 Provision of training courses in Tehran for Afghan Air Traffic Controllers have the following advantages:

- a) low cost (course fee, transportation and settlement)
- b) similarity in language, tradition & religion

2.3 For official contract between CAO of Islamic Republic of Iran and Afghanistan Civil Aviation Authority for provision of required course, Tehran needs to receive official request from Afghanistan Authority to prepare a relevant course (**Table 1**).
