ACI's mission

To advance the collective interests, and act as the voice of the world's airports and the communities they serve, and promote professional excellence in airport management and operations.

ACI APEX AIRPORT EXCELLENCE PROGRAMMES

- Consists of an on-site assessment - APEX Review - conducted by industry peers
- Identifies safety and security gaps and vulnerabilities in airports of all sizes
- Helps airports improve their level of safety and compliance with ICAO standards and ACI best practices
- Provides post-review assistance such as the development of an action plan

An important pillar of ACI's Security Strategy is **promoting airport excellence**

ACI World's Security Goal:
Help ACI members build and maintain strong security and work with policy makers and partners to build effective and efficient security regimens.

To achieve this we need to:

1. Represent Airports' Interests *(shaping)*

- 1A. By articulating the priorities for airports
- 1B. By engaging with decision-makers and working with partners

2. Promote Airport Excellence *(helping)*

- 2A. By sharing **information with members**
- 2B. Through **guidance** and **capacity building**

Background to the APEX in Security Programme

APEX is ACI's response to the call-to-action to improve airport security worldwide

- Peer to peer review with the aim to enhance compliance with ICAO, national regulations and ACI best practices
- Self-evaluate security performance and implementation
- Access a network of experts to mitigate any security gaps
- Receive a comprehensive gap analysis on regulatory and security standards
- Develop staff and enhance security culture
- Promote secure airport operations
- Remains confidential between ACI, ICAO and the Member Airport
