8 June 2016

Subject: Zika virus and the launch of the web-based
Airport Vector Control Register

Action required: a) disseminate this information; and
b) urge airports to contribute their vector control
information to the Register

Zika State Letter

WHO Guidance:

- Standard WHO recommendations regarding airport vector control should be implemented in keeping with the IHR (2005).
- Disinsection policies dependent on individual State risk assessment

Collaborative Arrangement for the Prevention and Management of Public Health Events in Civil Aviation

CAPSCA

www.capsca.org

Airport vector control register

- Voluntary information sharing for risk assessment concerning vector control practices
- Website managed by ICAO and shared with:
 - Civil Aviation Authorities
 - Airports
 - General Public

unnecessary costs to operators; and improve the operational efficiency at airports. The Airport Vector Control Register can be accessed at www.icao.int/crr/Pages/Airport-Vector-Control-Register.aspx and will be available as of **15 June 2016**. Detailed instructions and information on how to access and complete the register can be found on the same site.

Risk Based Assessment Tool

- State sovereignty and national requirements
- Assist States to determine aviation risk
- Need for aircraft disinsection requirements and type
- Step-based approach with different layers
- Vector distribution maps
- Airport vector control measures
- Is it an acceptable risk for the specific State taking into account its own objectives?
- Or do they want to implement additional measures?

2 August 2016

Subject: State support for the Collaborative Arrangement for the Prevention and Management of Public Health Events in Civil Aviation (CAPSCA) programme

Action Required: a) nomination by States and international organizations of medical focal point for CAPSCA; and b) completion of CAPSCA survey

CAPSCA Survey

- State Letter published 2 August 2016
- Distributed to 191 Member States
- States to nominate CAPSCA focal point and complete survey
- Poor response – only 48 replies = 25%

CAPSCA Survey Oct 2016

Functions of CAPSCA focal point

- Contact point for ICAO for States
- Liaison with IHR focal point
- Internal state coordinator together with IHR focal point
- Communicate any relevant ICAO information
- Informed of issues that might affect their State
- Providing help with assistance visits
- Informed of assistance visits in neighbouring countries should they wish to send someone as observer
