

PROCEDURE FOR APPROVAL OF AERONAUTICAL INFORMATION/DATA

By
UGANDA

Objective

- aeronautical information/data provided is adequate, timely and is of the required quality.

SCOPE

- Uganda Aeronautical Information Publication (AIP), including amendment services,
- Supplements to the AIP, and
- NOTAM
- Aeronautical Information Circular (AIC)
- Aeronautical Charts
- Static database for the purpose of producing digital data sets

RESPONSIBILITIES

- Regulator – responsible for implementation of this procedure
- Data Originators
 - Obtaining approval for the data from CAA
 - Notification of inaccuracies in aeronautical information service (AIS) publications:
 - For changes planned in advance: notifying AIS and the CAA, in writing, at least 70 days

Responsibilities (contd)

- Notification for planned temporary changes to CAA at least 48hours in advance of the effective date,
- Submit both permanent and temporary data and information to the AIS on the Aeronautical Information Promulgation Advice Form to be obtained from the AIM website <https://aim.caa.co.ug>.

Regulatory Approval Process

- data originator forwards the request for promulgation to Director Safety, Security and Economic Regulation (DSSER) for consideration
- Upon submission of the Aeronautical Data to the DSSER, the request shall be forwarded to the ANS Inspectorate for coordination with appropriate department/Section if regulatory approval is required.
- Approve the aeronautical data for publication by AIS; or
- Engage with the Authorised data originator if approval is denied

Approval process contd

- upon receipt of the approval of the data from the respective department/section, the ANS inspectorate forwards the aeronautical data/information to AIS for analysis, processing and promulgation

Information Approved

- Controlled/Regulated Airspace
- Ground/Satellite based Navigation Systems
- Instrument Flight Procedures
- VHF/UHF frequencies
- Danger/Restricted Areas
- Civil/Military Aerodrome Traffic Zones
- Aerodrome Runway Declared Distances
- Aerodrome Rescue & Fire Fighting categories

Challenges

- Late submission of information
- Incomplete information and inaccurate information
- Information which does not qualify for promulgation
- Misuse of publication of the IAIP especially NOTAM
