

One-ICAO Approach for Implementation Support

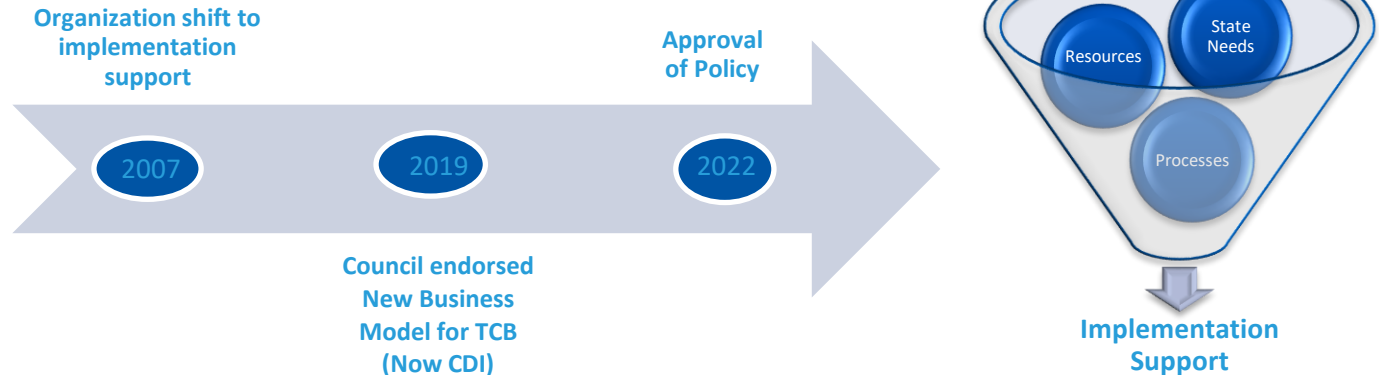

TITLE / HEADING

Marco Merens
Chief, Implementation Support Planning and Coordination
Air Navigation Bureau

Concept

Better **support** States through “**One ICAO**” by aligning all technical **implementation** support activities from **inception** of new standard to **full implementation**

Implementation Support Policy

- During 225th Session, the ICAO Council approved a new Implementation Support Policy
- The policy defines principles and objectives for a more harmonized, collaborative, State-centered and needs-based approach for implementation support for ICAO

Implementation Support Objectives

Increase State level of **implementation** of ICAO Policies, Plans, SARPs, PANS and guidance materials

Increase the allocated **financial** and **human resources**

Integrate ICAO implementation support within the **ICAO Business Plan**

Prioritize and **enhance** ICAO support provided

Reinforce the State **needs-based approach**

Improve the **relevance, consistency, efficiency** and **effectiveness**

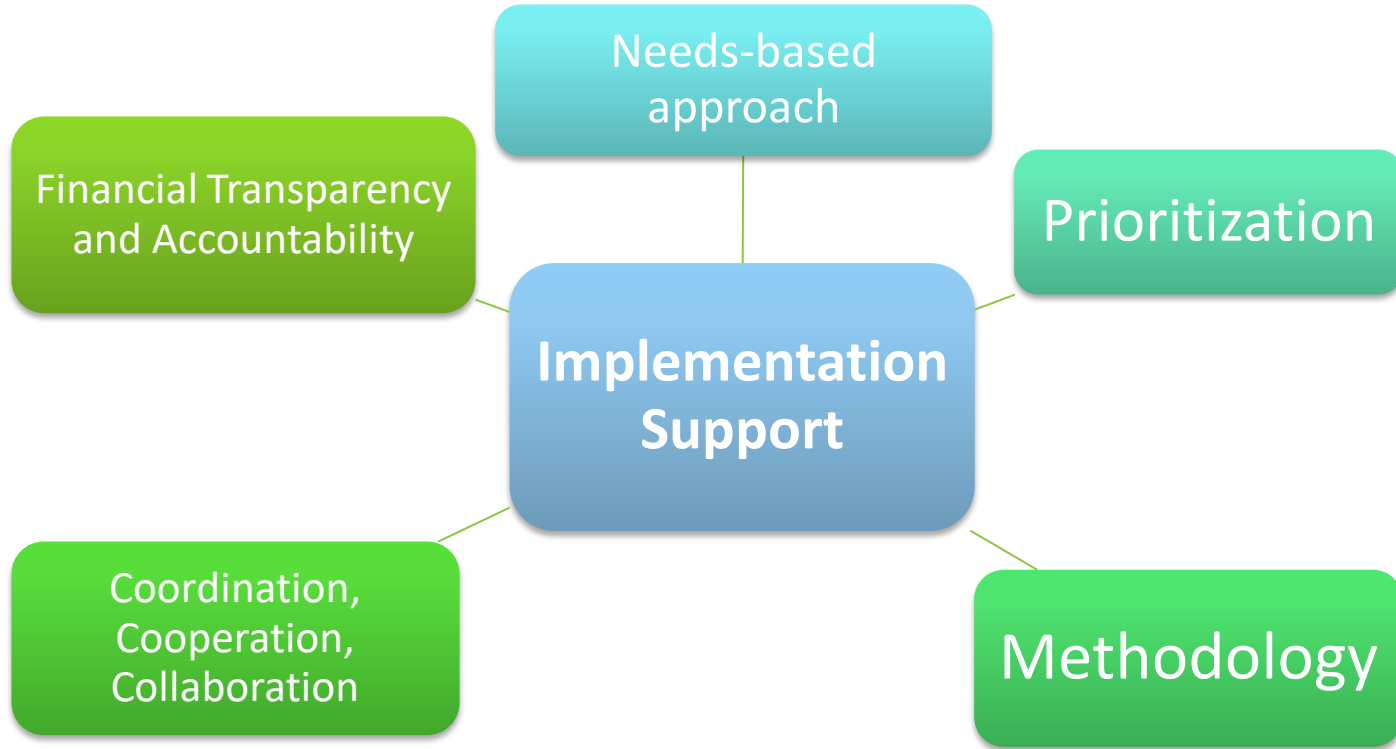

Align with a **One-ICAO** approach

Implementation Support Principles

Delivering as One ICAO

- CDI
- ANB
- ATB
- Regional Offices
- Other stakeholders

**NO COUNTRY
LEFT BEHIND**

Needs-Based Approach

- Implementation support activities will be developed and implemented to **support the needs of the State** to ensure compliance with ICAO SARPs.
- ICAO implementation support will be subject to **prioritization of needs** to ensure the efficient use of available implementation support resources.
- Implementation support shall apply a **needs-based approach** and **shall harmonize the implementation support process** from the development of new and amended ICAO standards to their full implementation by States.
- Implementation support is provided in response to **specific requests** from States.
