

III. Revision Message REV

1. Purpose of the REV Message

The REV message is used to transmit revisions to co-ordination data previously sent in an ACT message provided that the accepting unit does not change as a result of the modification.

2. Message Contents

The REV message shall contain the following items of data:

- Message Type;
- Message Number;
- Aircraft Identification;
- Departure Aerodrome;
- Estimate Data and/or Co-ordination point;
- Destination Aerodrome;

in

Note: The Estimate Data contained in the REV has to include complete data the Estimate Data field in order to eliminate any ambiguity regarding the transfer elements. If the ACT message included the supplementary flight level, the following REV message will include the supplementary flight level if still applicable.

The REV message shall contain the following items of data if they have changed:

- SSR Mode and Code;
- Equipment Capability and Status.

If bilaterally agreed, the REV message shall contain any of the following items of data, if they have changed:

- Route.

If bilaterally agreed, the REV message shall contain any of the following items of data:

- Message Reference.

3. Example

- (REVBC/P873-UAE4486-OMDB-TUMAK/2201F360-LERT-81/Y/NO
U/EQ)
