

International Civil Aviation Organization

MID Air Navigation Plan Ad-hoc Working Group

Second Meeting (ANP WG/2)  
(Cairo, Egypt, 16 - 18 December 2014)

---

**Agenda Item 3: Development of the new MID Air Navigation Plan**

REVIEW OF VOLUMES I and II - PART VII – AIM

*(Presented by the Secretariat)*

**SUMMARY**

This paper presents Part VII-AIM of Volumes I and II of the MID eANP.

Action by the meeting is at paragraph 3.

**REFERENCES**

- MIDANPIRG/14 Report
- MSG/4 Report

**1. INTRODUCTION**

1.1 The Council approved the new eANP Template (Volumes I, II and III) and corresponding procedure for amendment on 18 June 2014 (202nd session, Fourth meeting).

**2. DISCUSSION**

2.1 A consolidated version of the MID eANP Volumes I and II - Part VII - AIM developed based on the Council approved Template are at **Appendices A and B**.

**3. ACTION BY THE MEETING**

3.1 The meeting is invited to review and update, as appropriate, the MID eANP Volumes I and II - Parts VII - AIM at **Appendices A and B**, in particular Tables AIM II-1 and AIM II-2.

-----

## MID ANP, VOLUME I

### PART VII - AERONAUTICAL INFORMATION MANAGEMENT (AIM)

#### 1. INTRODUCTION

1.1 This part of the MID ANP constitutes the agreed regional requirements considered to be the minimum necessary for effective planning and implementation of aeronautical information services (AIS) and aeronautical information management (AIM) facilities and services in the MID Region and complements the provisions of the ICAO SARPs and PANS related to AIS/AIM. It contains stable plan elements related to the assignment of responsibilities to States for the provision of AIS/AIM facilities and services within the ICAO MID Region in accordance with Article 28 of the *Convention on International Civil Aviation* (Doc 7300); and mandatory requirements related to the AIS/AIM facilities and services to be implemented by States in accordance with regional air navigation agreements.

1.2 The dynamic plan elements related to the assignment of responsibilities to States for the provision of AIS/AIM facilities and services and the mandatory requirements based on regional air navigation agreements related to the AIS/AIM facilities and services are contained in the MID ANP Volume II, Part VII – AIM.

1.3 The MID ANP Volume III contains dynamic/flexible plan elements related to the implementation of air navigation systems and their modernization in line with the ICAO Aviation System Block Upgrades (ASBUs) methodology and associated technology roadmaps described in the Global Air Navigation Plan. The ASBU modules are aimed at increasing capacity and improving efficiency of the aviation system whilst maintaining or enhancing safety level, and achieving the necessary harmonization and interoperability at regional and global level. This includes the regionally agreed ASBU modules applicable to the specified ICAO region/sub-region and associated elements/enablers necessary for the monitoring of the status of implementation of these ASBU modules, which include service improvement through digital aeronautical information management and interoperability and data through globally interoperable system wide information management (SWIM).

#### *Standards and Recommended Practices and Procedures for Air Navigation Services*

1.4 The SARPs and PANS and related guidance material applicable to the provision of AIS, and ultimately AIM, are contained in:

- a) Annex 4 — *Aeronautical Charts*;
- b) Annex 15 — *Aeronautical Information Services*;
- c) *Regional Supplementary Procedures* (Doc 7030);
- d) *Aeronautical Information Services Provided by States* (Doc 7383);
- e) *Location Indicators* (Doc 7910);
- f) *Aeronautical Information Services Manual* (Doc 8126);
- g) *Procedures for Air Navigation Services – Aircraft Operations – Construction of Visual and Instrument Flight Procedures* (PANS-OPS, Volume I and Volume II) (Doc 8168);

- h) *ICAO Abbreviations and Codes (PANS-ABC)* (Doc 8168);
- i) *Aeronautical Charts Manual* (Doc 8697);
- j) *Manual on Coordination between Air Traffic Services, Aeronautical Information Services and Aeronautical Meteorological Services* (Doc 9377);
- k) *World Geodetic System (1984) Manual* (Doc 9674);
- l) *Guidelines on the Use of the Public Internet for Aeronautical Applications* (Doc 9855);
- m) *Guidelines for Electronic Terrain, Obstacle and Aerodrome Mapping Information* (Doc 9881);
- n) *Flight Procedure Design Quality Assurance System, Volume I* (Doc 9906);
- o) “*AIM QMS Manual*” (Doc 9839) (Draft); and
- p) “*Training Manual for AIM*” (Doc 9991) (Draft).

## **2. GENERAL REGIONAL REQUIREMENTS**

2.1 States should ensure that the provision of aeronautical data and aeronautical information covers its own territory and those areas over the high seas for which it is responsible for the provision of air traffic services, in accordance with **Charts ATM I-1 and ATM I-2**.

2.2 States are responsible for the aeronautical information/data published by its aeronautical information service or by another State or a non-governmental agency on its behalf.

2.3 Aeronautical information published for and on behalf of a State should clearly indicate that it is published under the authority of that State.

2.4 The responsibility for the provision of AIS/AIM facilities and services in the MID Region is reflected in the Volume II.

## **3. SPECIFIC REGIONAL REQUIREMENTS**

None.

---

**MID ANP, VOLUME II**  
**PART VII - AERONAUTICAL INFORMATION MANAGEMENT (AIM)**

**1. INTRODUCTION**

1.1 This part of the MID ANP, Volume II, complements the provisions in ICAO SARPs and PANS related to AIS/ AIM and aeronautical charts (MAP). It contains dynamic plan elements related to the assignment of responsibilities to States for the provision of AIS/ AIM facilities and services within a specified area in accordance with Article 28 of the *Convention on International Civil Aviation* (Doc 7300); and mandatory requirements related to the AIS/ AIM facilities and services to be implemented by States in accordance with regional air navigation agreements. Such agreement indicates a commitment on the part of the State(s) concerned to implement the requirement(s) specified.

**2. GENERAL REGIONAL REQUIREMENTS**

2.1. The responsibility for the provision of AIS/ AIM facilities and services in the MID Region, is reflected in the **Table AIM II-1**, which shows the list of designated international NOTAM Office (NOF), designated State for AIP production, designated State for aeronautical charts (MAP) production, designated State for the provision of the authoritative Integrated Aeronautical Information Database (IAID) and designated State for the provision of the pre-flight information services.

2.2. States should designate and implement an authoritative Integrated Aeronautical Information Database (IAID) where data sets are integrated and used to produce current and future AIS/ AIM products and services, which is a fundamental step in the transition to AIM. The designation of authoritative databases should be clearly stated in the Aeronautical Information Package AIP.

2.3. The national plans for the transition from AIS to AIM identifying clearly the timelines for the implementation of the different elements of the ICAO Roadmap for the transition from AIS to AIM should be submitted by States to the ICAO MID Regional Office. States should also inform the ICAO MID Regional Office of any update.

2.4. States should take necessary measures to ensure that aeronautical information and data they provide meet the regulatory Aeronautical Data quality requirements.

2.5. The Quality Management System (QMS) in AIS/ AIM should define procedures to meet the safety and security objectives associated with the management of aeronautical data and information.

2.6. Recognizing the need to maintain or enhance existing safety levels of operations, States should ensure that any change to the existing systems or the introduction of new systems used for processing aeronautical data and/ or information are preceded by a safety assessment.

2.7. Technical services responsible for origination of the raw aeronautical information should be acquainted with the requirements for promulgation and advance notification of changes that are operationally significant as established in Annexes 11 and 14 and other relevant ICAO documentation. They should take due account of the time needed by AIS/ AIM for the preparation, production and issue of the relevant material, including the compliance with the AIRAC procedures.

2.8. AIS/ AIM personnel should be involved in the air navigation planning processes. This should ensure the timely preparation of appropriate AIS documentation and that the effective dates for changes to the air navigation system and procedures are satisfied.

2.9. States should produce relevant aeronautical charts required for civil air operations employing visual air navigation independently or in support of other forms of air navigation. The production responsibility for sheets of the World Aeronautical Chart (WAC) — ICAO 1: 1 000 000 or Aeronautical Chart — ICAO 1: 500 000 (*as an alternative to the World Aeronautical Chart — ICAO 1:1 000 000*) is set out in **Table AIM II-2**.

**3. SPECIFIC REGIONAL REQUIREMENTS**

None.

DRAFT

**TABLE AIM II-1 - RESPONSIBILITY FOR THE PROVISION OF AIS/ AIM FACILITIES AND SERVICES****EXPLANATION OF THE TABLE**

Column:

- 1 Name of the State or territory
- 2 Designated international NOTAM Office (NOF)
- 3 Designated State for AIP production
- 4 Designated State for aeronautical charts (MAP) production
- 5 Designated State for the provision of the authoritative Integrated Aeronautical Information Database (IAID)
- 6 Designated State for the provision of pre-flight information services
- 7 Remarks — additional information, as appropriate.

State	NOF	AIP	MAP	IAID	Pre-flight briefing	Remarks
1	2	3	4	5	6	7
<b>BAHRAIN</b>	BAHRAIN	BAHRAIN	BAHRAIN	BAHRAIN	BAHRAIN	
<b>EGYPT</b>	CAIRO	EGYPT	EGYPT	EGYPT	EGYPT	
<b>IRAN, ISLAMIC REPUBLIC OF</b>	TEHRAN	IRAN	IRAN	IRAN	IRAN	
<b>IRAQ</b>	BAGHDAD	IRAQ	IRAQ	IRAQ	IRAQ	
<b>JORDAN</b>	AMMAN	JORDAN	JORDAN	JORDAN	JORDAN	
<b>KUWAIT</b>	KUWAIT	KUWAIT	KUWAIT	KUWAIT	KUWAIT

**TABLE AIM II-2 - PRODUCTION RESPONSIBILITY FOR SHEETS OF THE WORLD  
AERONAUTICAL CHART - ICAO 1:1 000 000 OR AERONAUTICAL CHART — ICAO 1: 500 000**

**EXPLANATION OF THE TABLE**

*Column:*

- 1 Name of the State accepting production responsibility.
- 2 World Aeronautical Chart — ICAO 1:1 000 000/ Aeronautical Chart — 1: 500 000 sheet number(s) for which production responsibility is accepted.
- 3 Remarks.

*Note — In those instances where the production responsibility for certain sheets has been accepted by more than one State, these States by mutual agreement should define limits of responsibility for those sheets. This should be reflected in the Remarks column*

State	Sheet number(s)	Remarks
