

**INTERNATIONAL CIVIL AVIATION ORGANIZATION
MIDDLE EAST REGIONAL OFFICE**

WILDLIFE AND FOREIGN OBJECT DEBRIS (FOD) WORKSHOP

(Cairo, Egypt, 24 – 26 March 2014)

SUMMARY OF DISCUSSIONS

1. INTRODUCTION

1.1 The Wildlife and Foreign Object Debris (FOD) Workshop was successfully held in Cairo, Egypt on 24-26 March 2014. This event was organized by IATA in partnership with ICAO. The Workshop was hosted by the Egyptian Civil Aviation Authority (ECAA) and sponsored jointly by the Egyptian Airports Company (EAC) and Cairo Airport Company (CAC).

1.2 The Workshop was attended by a total of ninety five (95) participants from seven (7) States (Bahrain, Egypt, Jordan, Oman, Saudi Arabia, Sudan, and United Arab Emirates) and five (5) International Organizations (DAA, Embraer, IATA, FAA and Boeing). The list of participants is at **Attachment A** to this Summary of Discussions.

1.3 Wildlife and FOD were identified as contributors to the In-Flight Damage (IFD) and accordingly, the organization of a Wildlife/FOD Workshop was included in the RASG-MID work programme to address the hazards identification, risk assessment and mitigation measures associated with Wildlife and FOD.

1.4 Mr. Adel Ramlawi, Regional Officer, Aerodromes and Ground Aids (AGA) was the ICAO MID focal point and facilitator of the Workshop supported by Mr. Mashhor Alblowi, Regional Officer, Flight Safety (RO/FLS).

2. DISCUSSION

2.1 Captain Hossam Kamal, Minister of Civil Aviation, Egypt, and Mr. Mohamed Smaoui, ICAO Deputy Regional Director, Middle East Office, opened the Workshop. Mr. Ashraf Ahmed Zaki, Chairman, the Egyptian Holding Company for Airports and Air Navigation, Eng. Hani El Adawai, Vice-President, Egyptian Civil Aviation Authority (ECAA) and Captain Gad El Karim Nasr Mohamed, Chairman, Egyptian Airports Company (EAC) addressed also the Workshop during the opening session.

2.2 The Workshop included two days of presentations (24-25 March) covering all important Wildlife and FOD topics and providing feedback on implementation issues. The third day (26 March) comprised a visit to Cairo International Airport and introduction to their experience on Wildlife/FOD Control. The Workshop Programme is attached to this Summary of Discussion at **Attachment B**.

2.3 The Workshop agreed to the following Conclusions:

- 1) the importance of data collection and sharing among industry stakeholders;
- 2) the need to improve reporting culture;
- 3) the need to raise the awareness of Regulators and Aerodrome Operators about existing standards and best practices related to Wildlife and FOD;
- 4) the importance of collaboration and communication among operators, ATCs, Aerodromes and CAAs (including local authorities) to detect hazards and mitigate Wildlife/ FOD risks;
- 5) technology is a great tool to be used, to the maximum possible, for Wildlife/FOD control, but it's not the only solution;
- 6) Wildlife/FOD programme should be developed based on the risk assessment conducted within the framework of aerodrome SMS;
- 7) roles and responsibilities should be clearly defined in the Wildlife/FOD programme, so that Regulators set the requirements while Aerodromes Operators and ATCs implement the programme;
- 8) in accordance with ICAO Doc 9774, Wildlife Hazard Management should be one of the Aerodrome Certification requirements; accordingly, a WHMP should be developed and kept up-to-date; and
- 9) the follow up of the Wildlife/FOD programme implementation should be part of the Runway Safety Team (RST) duties.

2.4 The Workshop was provided with closing remarks by Mr. M. Smaoui who thanked Egypt, IATA and the speakers for making the Workshop successful. The Participants appreciated the role of ICAO and IATA in organizing the Workshop and also appreciated the participation from DAA, FAA, and Embraer which enriched the Workshop through exposure to other Regions experience.

3. CONCLUSION

3.1 The participants thanked ICAO and IATA for organising the Workshop and Egypt for the hosting and excellent hospitality.

3.2 All the materials presented during the Workshop have been posted on the ICAO MID website: <http://www.icao.int/mid/>.

International Civil Aviation Organization

Wildlife and Foreign Object Debris (FOD) Workshop
