1. INTRODUCTION

1.1 During the development of the MID-ASR, it was highlighted that some differences/inconsistencies have been identified between the accident data provided by the contributed organizations.

1.2 At the level of ICAO-HQ, aircraft accidents and serious incidents are reviewed and categorized by the ICAO Safety Indicators Study Group (SISG) using the definition provided in Annex 13 to the Chicago Convention—Aircraft Accident and Incident Investigation.

2. DISCUSSION

3.1 The RASG-MID/4 meeting recognized the need to establish a working group to review, analyse and categorize on annual basis the accidents and incidents at the regional level and provide an agreed and harmonized regional dataset of accidents and incidents. It was highlighted that this Group would also, to the extent possible, identify the main root causes and contributing factors of the reviewed accidents and incidents. Accordingly, the meeting agreed to the following Decision:

DECISION 4/5: ACCIDENT AND INCIDENT ANALYSIS WORKING GROUP (AIA WG)

*That, the Accidents and Incidents Analysis Working Group (AIA WG) be established with Terms of Reference (TOR) as at **Appendix 3B**.*
