Way Forward

- Doha Declaration and the MID Region Safety Strategy defined regional performance targets, but do not specify what needs to be achieved by each State.
- Business as usual does not impact the resolution of many long standing deficiencies.
- ICAO NCLB Initiative.
- The MID NCLB Strategy/Plan aims at a new leadership approach.
- Agreement with concerned States (prioritization) on specific and measurable outcomes, and clear definition of accountability for the achievement of the set goals.
- Proactive approach to foster political will and senior level commitment.
- Identification of Champion State or stakeholder to provide required assistance.

Prioritization of States in Safety

- Assistance to States is prioritized by using multiple assessment variables
- Variables that increase the priority
 - State deficiencies
 - SSC
 - Lack of effective implementation of State safety oversight functions,
 - Risk exposure
 - Volume of aviation activity in the State
- Some variables that decrease the priority
 - Financial autonomy
 - GDP per capita of the State
