

Development of Regional Cooperation in AIG

MID Safety Support Team

Third Meeting (MID-SST/3)

Abu Dhabi, UAE, 10-13 Oct 2016

Important Note

- Cooperation in this respect does not mean that governments should give up their sovereignty, authority or responsibilities. However, participation in a regional arrangement may present an effective and efficient means for a State to achieve the desired level of accident and incident investigation.

(Doc 9946/RAIO 2.4.8)

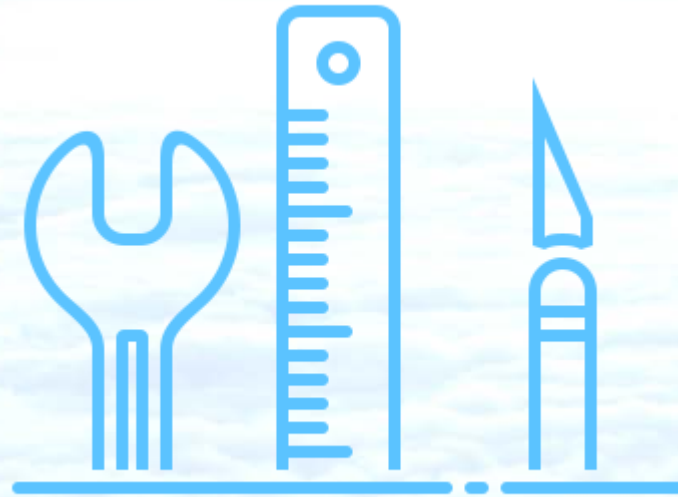

Objectives

- to improve States AIG implementation;
- To cooperate and collaborate in resources, including equipment and qualified personnel, for conducting investigations;
- to foster the use of common guidelines, investigation procedural handbooks and guides;
- to promote the implementation of a harmonized AIG training program;
- to cooperate to increase the qualifications and experience of accident investigators; and
- to promote the use of best practices concerning accident prevention and sharing of safety information.
