*Regional Officer ATM/SAR  
ICAO Middle East Office*

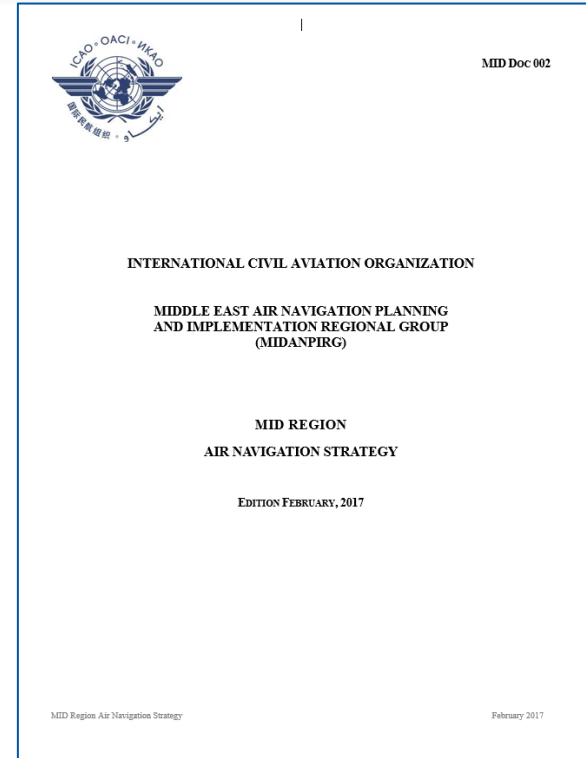

**Abbas Niknejad**

*Regional Officer, AIM/ATM  
ICAO Middle East Office, Cairo*

- The MID AN Strategy was endorsed by MSG/4 meeting (Cairo, 24-26 November 2014), based on the outcome of the relevant MIDANPIRG subsidiary bodies and inputs received from stakeholders.
- The Strategy was further reviewed and updated by MIDANPIRG/15 (Bahrain, 8-11 June 2015), and endorsed as ICAO MID Doc 002, which is available on the ICAO secure portal.
- Some additional amendments to the Strategy were approved by MIDANPIRG/16 (Kuwait, 13-16 February 2017).

The Strategy for the implementation of the ASBU Modules in the MID Region is in accordance with the GANP:

- **Near-term Objectives (2013 - 2018): ASBU Block 0**
- **Mid-term Objectives (2019 - 2024): ASBU Block 1**
- **Long-term Objectives (2025 - 2030): ASBU Block 2 and (2031 and onward): ASBU Block 3**

## The MID Region Air Navigation Strategy includes 12 ASBU Block 0 Modules identified as priority for implementation in the MID Region

**Priority 1:** Modules that have the highest contribution to the improvement of air navigation safety and/or efficiency in the MID Region. These modules should be implemented where applicable and will be used for the purpose of regional air navigation monitoring and reporting.

**Priority 2:** Modules recommended for implementation based on identified operational needs and benefits.

***Note.** States should develop their national performance framework, including action plans for the implementation of relevant priority 1 ASBU Modules and other modules according to the State operational requirements.*

- Some States are still facing difficulties to develop a National ASBU Implementation Plan based on the GANP and regional strategy
- ICAO could support (National ASBU Implementation Workshop)
- Planning for ASBU Block 1 would start soon
- The progress for the implementation of some priority 1 Block 0 Modules in the MID Region has been acceptable/good; such as B0-ACAS, B0-AMET and B0-DATM. Nevertheless, some States are still facing challenges to implement the majority of the Block 0 Modules.
- The status of implementation of the ASBU Block 0 Modules also shows that Bahrain, Egypt, Jordan, Kuwait, Qatar, Saudi Arabia and UAE made a good progress in the implementation of the priority 1 ASBU Block 0 Modules
- Looking into the States' plans for 2020 (outlook), the focus/priority of States is to complete the implementation of B0-APTA, B0-FICE, B0-DATM, B0-AMET, B0-CCO and B0-CDO.

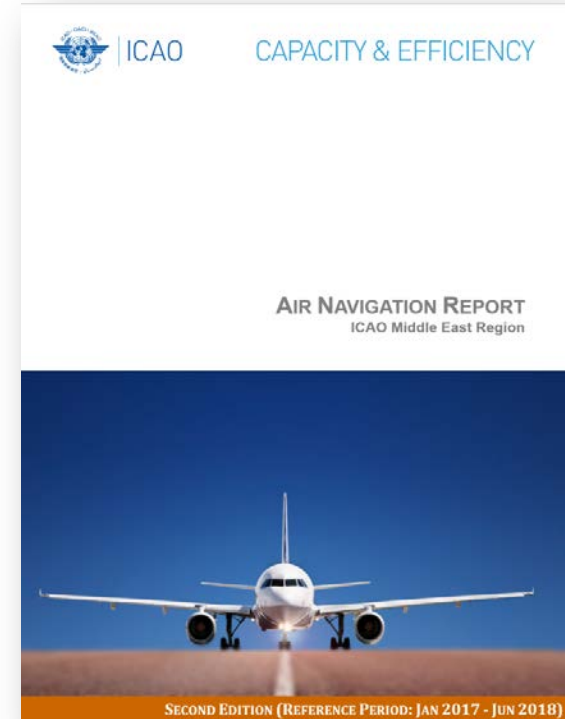

- *MIDANPIRG CONCLUSION 16/8: MID REGION AIR NAVIGATION REPORT-2017*

*That, MID States be urged to:*

*a) develop/update their National ASBU Implementation Plan, ensuring the alignment with and support to the MID Region Air Navigation Strategy (MID Doc 002); and*

*b) provide the ICAO MID Office, with relevant data necessary for the development of the MID Region Air Navigation Report-2017, by 1 November 2017.*
