Seventh Meeting (ATM SG/7)
(Virtual, 15 – 18 November 2021)

Agenda Item 3: Planning and Implementation issues related to ATM/SAR

MID ATS ROUTE NETWORK TABLE

(Presented by the Secretariat)

SUMMARY

This paper provides an overview of the developments of the consolidated PfA related to MID ANP Vol II, Table II MID-1: MID Region ATS route network table.

Action by the meeting is at paragraph 3.

REFERENCES

- MIDANPIRG/17 Report (Cairo, Egypt, 15 – 18 April 2019)
- MIDANPIRG/18 & RASG-MID/8 Report (Virtual Meetings, 15 – 22 February 2021)

1. INTRODUCTION

1.1 The meeting may wish to recall that, in accordance with its Terms of Reference, the ATM SG is tasked to :

- a) review the MID ATS Routes Network in order to assess its capacity and constraints;
- b) identify requirements and improvements for achieving and maintaining an efficient ATS Route Network in the MID Region; and
- c) propose a strategy and prioritized plan for development of improvements to the route network, highlighting the areas that require immediate attention and the inter-regional issues/improvements with the adjacent ICAO Regions.

1.2 The MIDANPIRG/18 meeting noted that a comprehensive review of the ANP Vol II, Table ATM II-MID-1: MID Region ATS Route Network, was still ongoing for the consolidation of States' inputs for the revised version, considering the numerous changes to the ATS route network in the Region, including, inter-alia, the impact of COVID-19 crisis, the projects of airspace re-organization in some States. The meeting noted also that the ICAO MID Office received requests from Bahrain, Egypt, Qatar and UAE for the inclusion of new established ATS routes in the MID ANP Vol II, including some of the contingency routes.

1.3 Based on the above, the MIDANPIRG/18 meeting agreed to the following Conclusion:

MIDANPIRG CONCLUSION 18/13: PROPOSAL FOR AMENDMENT TO THE MID eANP VOLUME II, TABLE ATM II-MID-I: MID REGION ATS ROUTE NETWORK

That,

- a) States and airspace users provide the ICAO MID Office with their inputs to the Table ATM II-MID-1 before 30 April 2021; and*
- b) the ICAO MID Office, carry out necessary coordination to consolidate and process a proposal for amendment to the MID ANP Volume II, by 1 June 2021.*

2. DISCUSSION

2.1 MIDANPIRG/17, through Conclusion 17/18, urged States to use the MID RDWG as the main platform to facilitate bilateral and multilateral coordination related to the improvement of the ATS Route Network and ASM. Also, this Conclusion requested States to review and update the route catalogue.

2.2 MIDANPIRG/17 meeting also invited States and IATA to work under the framework of the MID RDWG/route catalogue, which should present updates to the ATM SG to agree on follow-up actions.

2.3 ICAO MID consolidated all received inputs from States, and further enhanced the routes data, according to the following table:

<i>* Requested by state to retain as Contingency route</i>			
Notes:			
<ol style="list-style-type: none"> 1. Considering MSG/6 Conclusion 6/9, action has been taken to remove ATS Route Designators Prefix “U” from the ATS route Table. In this regard, the part related to upper ATS route was removed and reflected to the Lower part at the Draft PfA in Appendix A. 2. For harmonization purpose, the meeting may wish to agree to use Designator “T” for the contingency routes in the MID region. 			

2.4 During The consolidation process, the ICAO MID identified the follow list of challenges, which was addressed during several one-one meetings with the concerned States:

- *Interruption of Regional ATS route;*
- *Use of non-regional designator for regional route, and vice versa;*
- *Consideration of non-regional route as regional, and vice versa;*
- *Lack of consideration of some regional route in MID ANP Vol II ATS table;*
- *Duplication of Route designators; Duplication of 5LNCs as reflected in **Appendix C**, which was reviewed in the last AIM SG meeting; and*
- *Missing Bi-lateral coordination between adjacent States.*

*Note: details on the challenges are available, at **Appendix B**.*

2.5 Accordingly, the ICAO MID Office found that the majority of the received data is qualified for drafting the PfA for further processing, included in **Appendix A**; however there is still parts where further coordination and actions are required.

2.6 Based on all of the above, the meeting is invited to review and agree on the following Draft Conclusion:

DRAFT CONCLUSION 7/X: PROPOSAL FOR AMENDMENT TO THE MID eANP VOLUME II, TABLE ATM II-MID-I: MID REGION ATS ROUTE NETWORK

*That, the ICAO MID Office process the Draft Proposal for Amendment to the MID eANP Vol II, Table ATM II-MID-I, at **Appendix A**, in accordance with standard PfA procedure.*

3. ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) review and agree on: Draft Conclusion in para 2.6;
- b) agree on the use of designator “T” for the contingency routes in the MID region to be included in the ANP;
- c) encourage States and stakeholders to use the MID RDWG/Route catalogue as a the main platform to address ATS Route network improvements;
- d) encourage MID states with the support of ICAO MID Office to take action and follow up to removing the remaining challenges, at **Appendix B**; and
- e) encourage MID States to eliminate the duplications of the 5LNCs, at **Appendix C**, in coordination with the AIM SG.

TABLE ATM II-MID-1 MID REGION ATS ROUTE NETWORK

EXPLANATION OF THE TABLE

Column

- 1* *Designator of ATS route and Type (Conventional, RNAV5 or RNAV1 etc.)*
- 2* *Significant points defining the ATS routes. Only prominent locations have been listed. Additional points where facilities are provided to complete navigational guidance along a route, but not otherwise marking significant characteristics of the route (change of heading of centre line, intersection with other routes, etc.) have normally not been included. Locations shown in parentheses indicate significant points outside the Region.*
- Note 1.* *Not representing the operator's requirements. Operator's required route and/or nav aids are shown in square brackets ([]).*
- Note 2.* *Subject to further study. Including the associated navigation aid coverage.*
- Note 3* *Subject to military agreement.*
- Note 4.* *Not acceptable at present.*
- Note 5.* *At present, implementation possible only during specific periods (e.g. weekends, nights, etc., as published).*
- Note 6.* *At present, implementation of the RNAV route only possible above FL 300, or as published.*
- Note 7.* *Unidirectional use.*
- Note 8.* *For ATS route or part thereof is RNAV 1*
