United Nations Countering Terrorist Travel Programme

PROGRAMME OVERVIEW

Aims to strengthen Member State capacity to prevent, detect and intercept terrorists or serious criminals by **collecting and analyzing passenger data (API and PNR)**, in conformity with UN Security Council Resolutions 2178, 2396 and 2482, ICAO Standards and Recommended Practices and international human rights principals

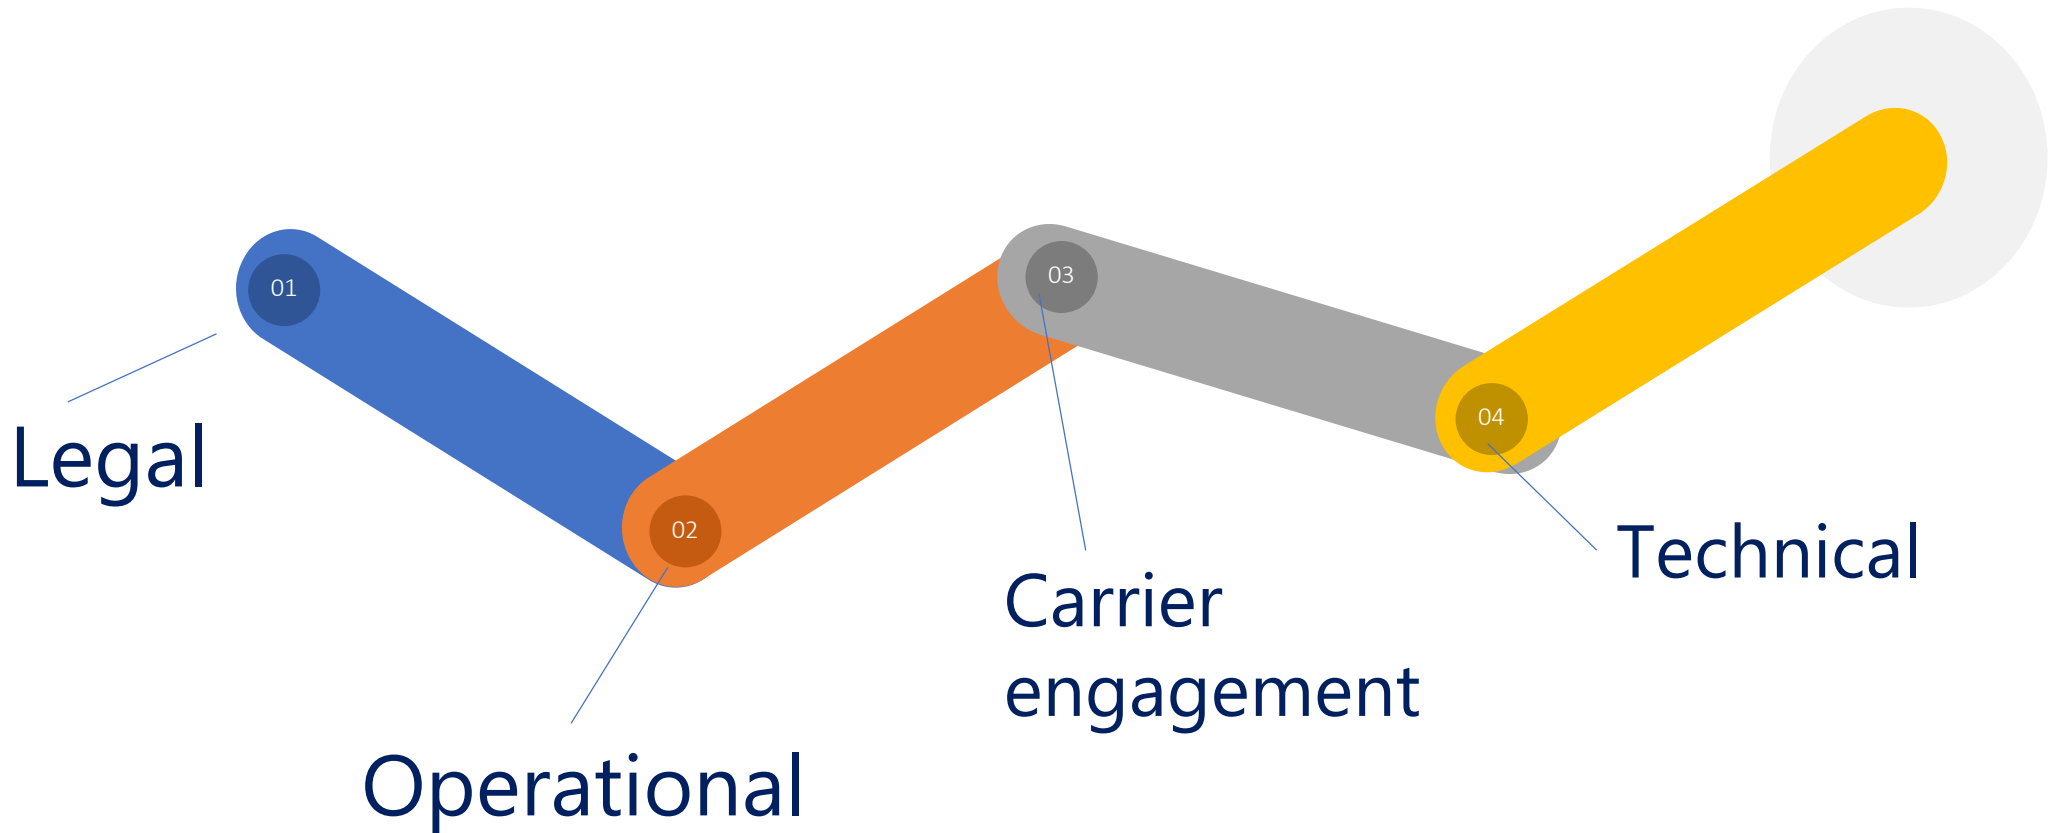

51 MEMBER STATE
BENEFICIARIES WORLDWIDE

THE FOUR PILLARS OF SUPPORT OF CT

TRAVEL

Supporting Member States

to establish API and PNR data systems to detect and prevent terrorist travels

Pillar 1 LEGISLATION

Legislative assistance to regulate collection, use and sharing of passenger data

International API and PNR legal standards

International human rights law

Pillar 2 OPERATIONAL

Passenger Information Units (PIUs)

Intelligence-led, risk-based approach

Training and mentoring on watchlisting, rules-based targeting, and network analysis

Pillar 3 TRANSPORT INDUSTRY

Transport industry (air, maritime) carrier connectivity and engagement

Technical implementation guides

Terms of Reference (ToR) for carrier engagement

Pillar 4 TECHNICAL

Information and communication technology (ICT) support

Deployment, installation and maintenance of the 'goTravel' software

4th AREA OF SUPPORT:

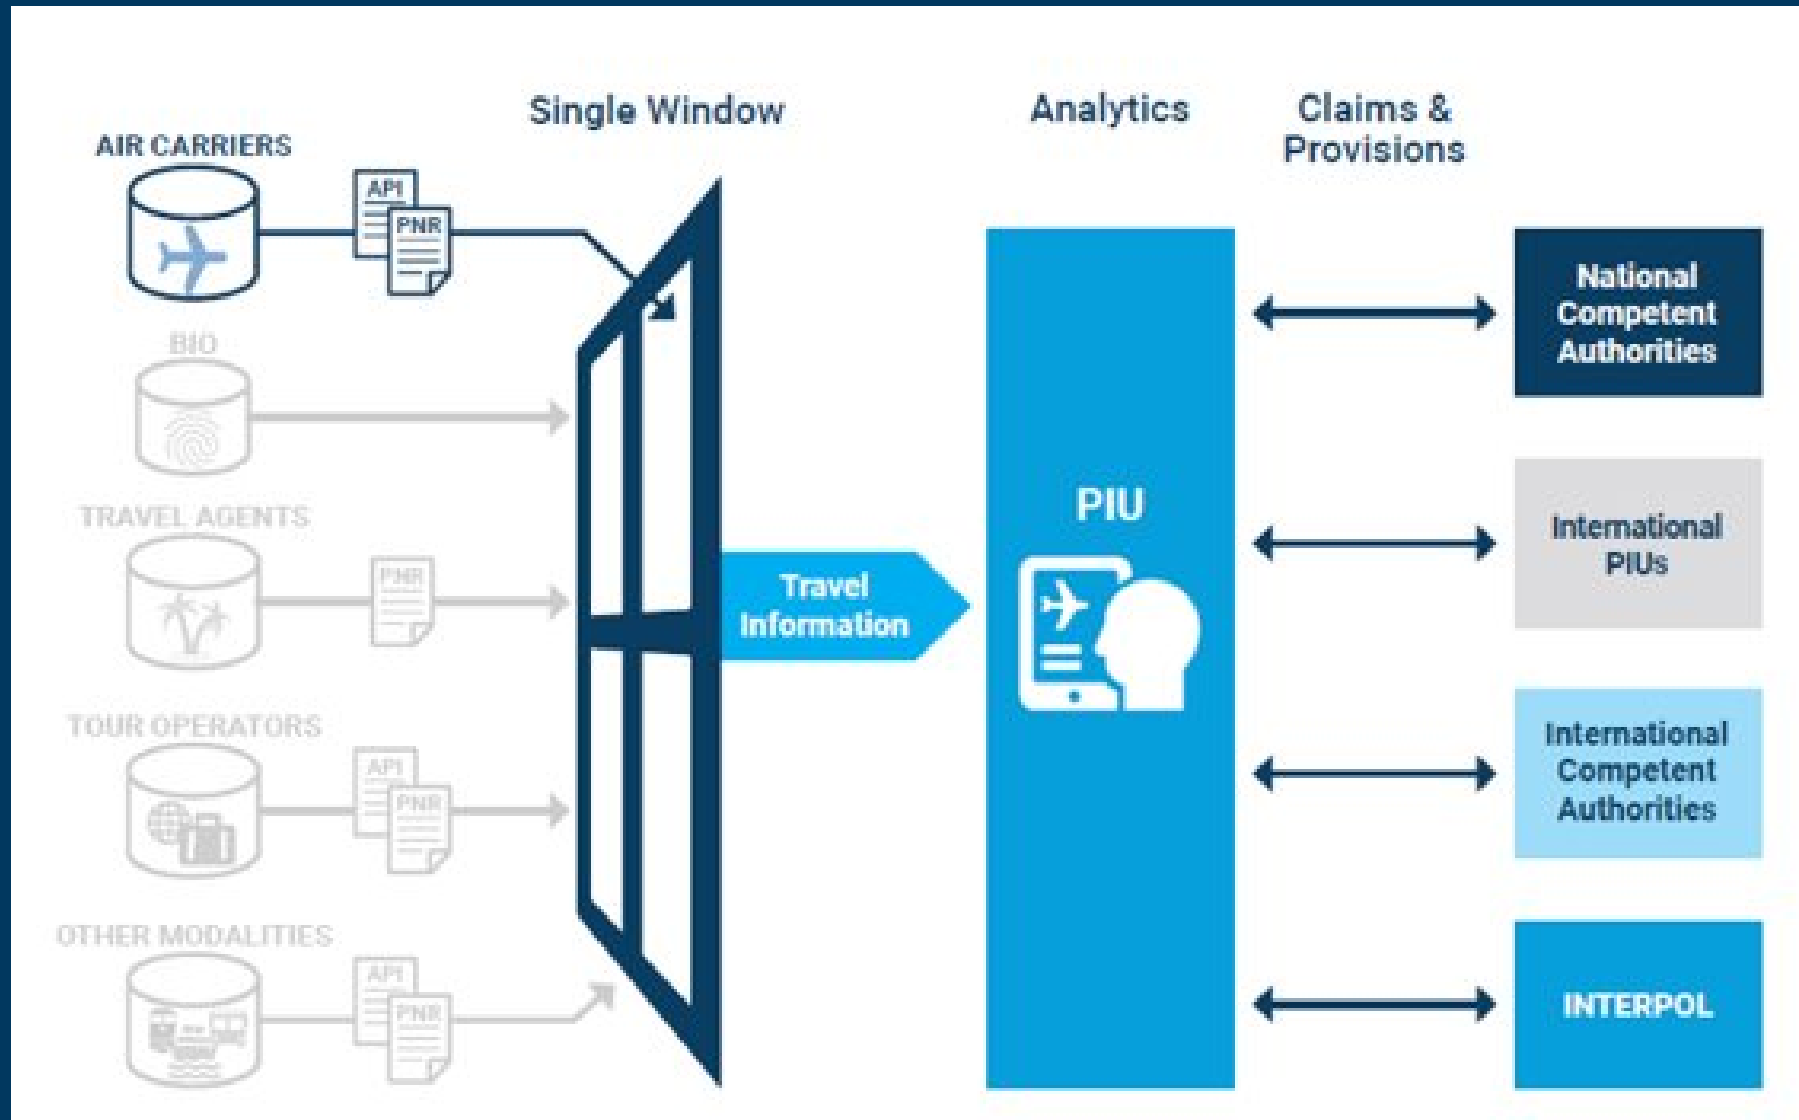

goTravel Air supports the end-to-end process for law enforcement to obtain passenger data from (airline) carriers and conduct targeted analysis as well as share the findings of their data assessment.

WHAT IS THE GOAL?

FOUNDATIONAL TRAINING

SPECIALIZED TRAINING

E-learning modules x 5

Training Course (5 days)

RBT, watchlisting, etc.

IT Basics, technical e-learning

goTravel Users

National Consultation

Development of the Roadmap

Pre-implementation

Phase 1: Conception

Phase 2: Implementation

Phase 3: Capacity-building

COOPERATIVE ONLINE PLATFORM

EXPERT SUPPORT / MENTORING / STUDY VISITS / TECHNICAL VISITS

'Micro-learning'

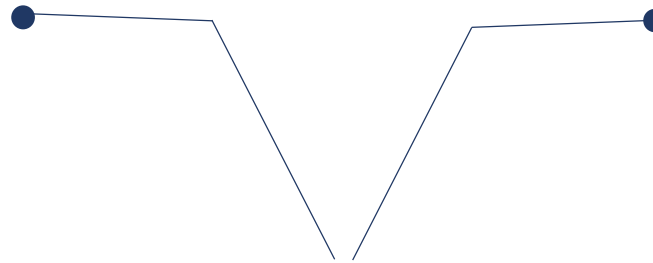

TableTop Exercise (TTX): national and international

Train-the-trainer

OBJECTIVES

- ⊕ **Informal forum**, Discuss API and PNR.
- ⊕ **Foster** cooperation of information between PIUs based on reciprocity or mutual agreement
- ⊕ **Share** a common language, best practices, and a forum for peer-to-peer support
- ⊕ **Focus** on the API, PNR and other data collected from air and maritime passengers
- ⊕ **Analyze** all different travel modalities
- ⊕ **Support** comprehensive border management

6 REGIONS

⌘ **Eastern Europe** (OSCE, Kyrgyzstan chairing with Mongolia, Albania, Georgia, and Montenegro as sub-chairs, covering a total of 43 Member States)

⌘ **Western Africa** (UNODC/AIRCOP) 

⌘ **Southern Africa** (SADC)

⌘ **CARICOM** (IMPACS)

⌘ **ASIA** (ASEAN)

⌘ **MENA** (AIMC)

UN Countering Terrorist Travel Programme

Programmatic Priorities | Maritime

CT Travel Programme is building applications that will allow the ingest and exploitation of API data from maritime carriers and from other transport modes. This will enable efficient and comprehensive border management.

Bespoke interfaces for all maritime sectors are being developed – suitable for all shipping sectors.
Maritime API will be processed in the PIU with other API – enabling broken travel to be identified.

JOINING THE CT TRAVEL PROGRAMME

- Introductory briefing for key national stakeholders
- Formal letter via UN Permanent Mission
- Nomination of national coordinating agency and focal points
- National API/PNR Consultation
- Programme Roadmap
