Speed Networking

Objective:

The aim of the speed networking activity is to briefly introduce students to the diverse career options available in the aviation industry by hearing directly from aviation professionals about their experience in the aviation sector and the role they play.

Who is this for?

This activity is for students who want to pursue a career in the aviation industry.

How will it work?

Students will meet individually with aviation professionals for 5 minutes. The activity will take place over a period of one hour and students will rotate amongst different aviation professionals. Participants are encouraged to prepare questions in advance.

Benefits of Speed Networking:

- Learn from the experiences of current aviation professionals.
- One-on-one session with aviation professionals who can respond to specific questions and provide tips and ideas on career options.
- Learn about exciting careers in the aviation sector and understand the diversity of opportunities that exist.

How to participate:

1. If you are a s**tudent at a Romanian University or Technical Academy**, please send your request to cybersecurity_ro@caa.ro with the subject line "Registration for NGAP-Speed Networking".

2. If you are a s**tudent from outside Romania**, please send a short CV to cyber2018@icao.int with the subject line "Registration for NGAP-Speed Networking".

Spaces for the Speed networking are limited. Attendance will be on a first-come-first-served basis.
