Sustainable Bioenergy High-Impact Opportunity

Sustainable Energy For All

SUSTAINABLE
ENERGY FOR ALL

Overview

- The *Sustainable Bioenergy Group* is a partnership platform to drive deployment.
- Value for the Aviation Sector
- Questions & Discussion

Sustainable Bioenergy Group

The SBG promotes

- Knowledge enhancement and information sharing
- Policy and sustainability support
- Deployment support

To drive the deployment of sustainable

- Clean Cooking solutions
- Increased Agricultural Productivity
- Energy from Municipal Solid Waste
- Aviation Biofuels
- Cellulosic Ethanol

Sustainable Energy for All Works to End Energy Poverty and Scale-Up Renewable Energy

Energy is the golden thread that connects economic growth, increased social equity and an environment that allows the world to thrive.

-- UN Secretary-General Ban Ki-moon

Ending poverty and ensuring sustainability are the defining challenges of our time. Energy is central to both.

-- Jim Yong Kim - World Bank Group President

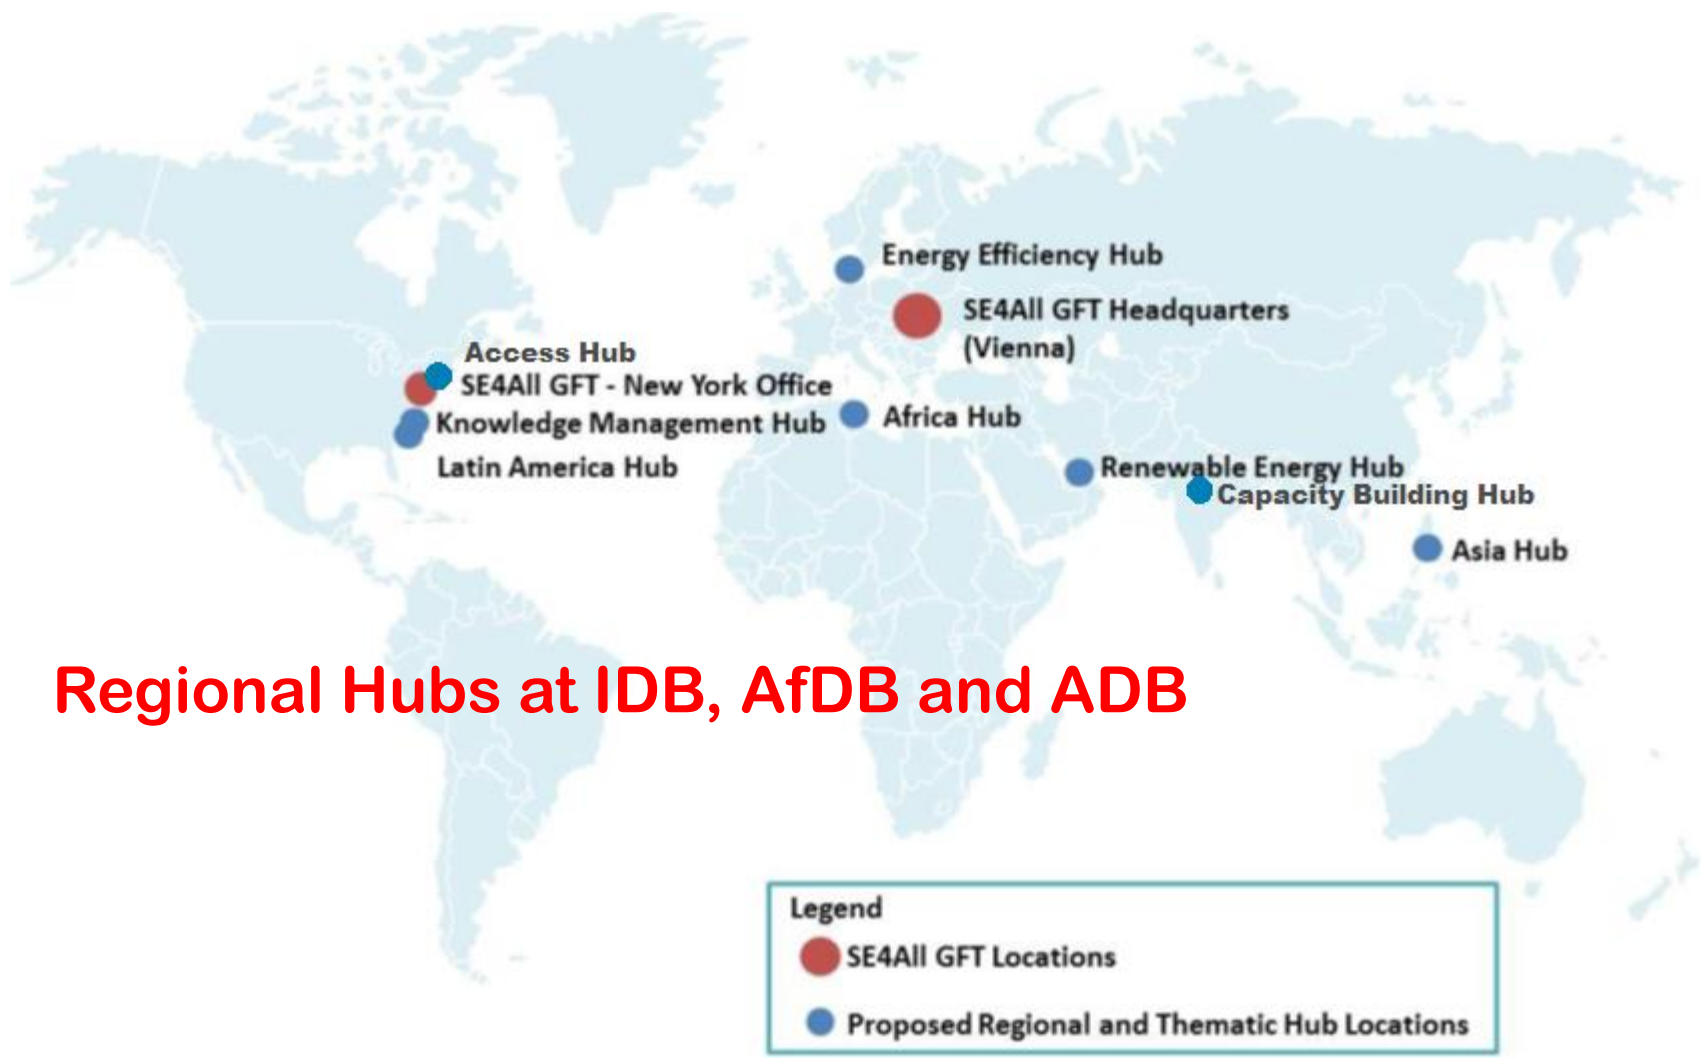

**SUSTAINABLE

ENERGY FOR ALL

Leveraging International Institutions to Drive Deployment

Regional Hubs at IDB, AfDB and ADB

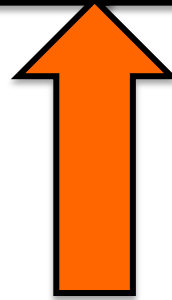

SUSTAINABLE
ENERGY FOR ALL

PUBLIC SECTOR

Governments Donors
Multilateral Organizations
Development Banks

PRIVATE SECTOR

Multinationals
Local Entrepreneurs
Private Capital

SBG provides the mechanism thru which the Bioenergy Private Sector can engage SE4All

SBDG Leadership Structure

Co-Chairs

Steering Committee

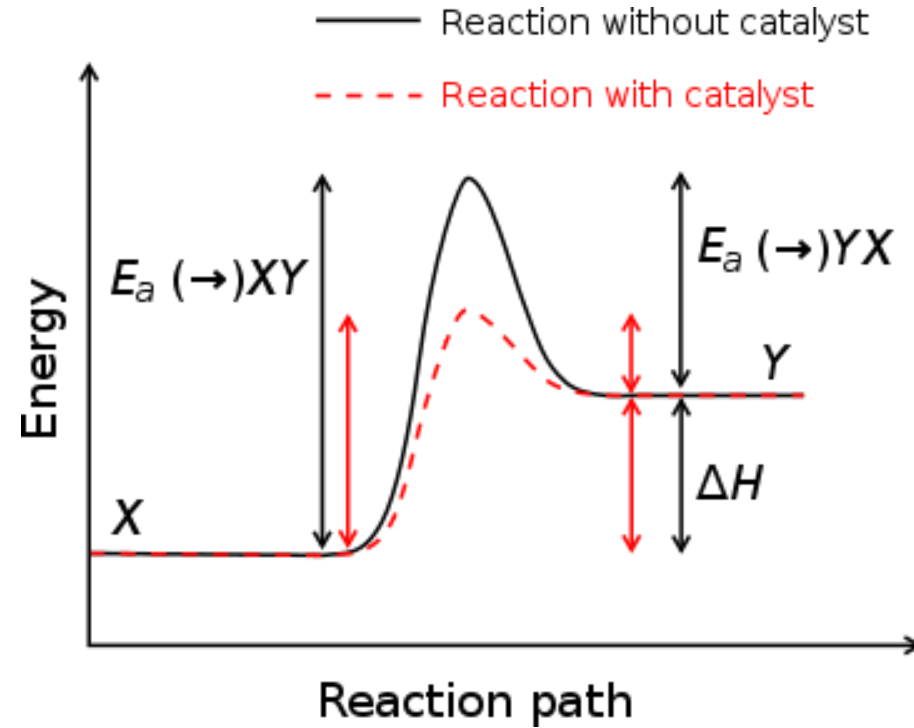

High Impact Initiatives PROJECTS

Reducing transaction costs

Barriers to deployment

- National & Local Policy
- Culture
- Finance
- Technology capacity
- Supply chain logistics

The Sustainable Bioenergy Development Group seeks to reduce project development transaction costs

Beta Renewables

How to drive investment and growth in SE Asia

Implement certain and stringent blending mandates

Remove subsidies of conventional fossil fuels

Incentivize electricity from renewable sources

Fair profit sharing mechanism with local biomass suppliers

Penalize uncontrolled burning of agri- residuals on the field

Value to the Private Sector

- Leverage international processes to foster a national and regional business climate that favors the productive use of biomass
- Recruit global partners to promote the development of sustainable biomass value chains
- Convince policymakers that Sustainable Biofuels are part of a sustainable, low-carbon future

Roundtable on Sustainable Biomaterials

Smallholder Sustainability Certification High Impact Initiative

Call to Action: Join the High Impact Initiative

Connecting smallholder farmers
to the global bioeconomy
