# International Civil Aviation Organization Environmental Work

Jane Hupe

Deputy Director, Environment  
ICAO Air Transport Bureau

ICAO

ENVIRONMENT

# International Civil Aviation Organization

UN specialized agency

Established by the “Chicago Convention” in 1944

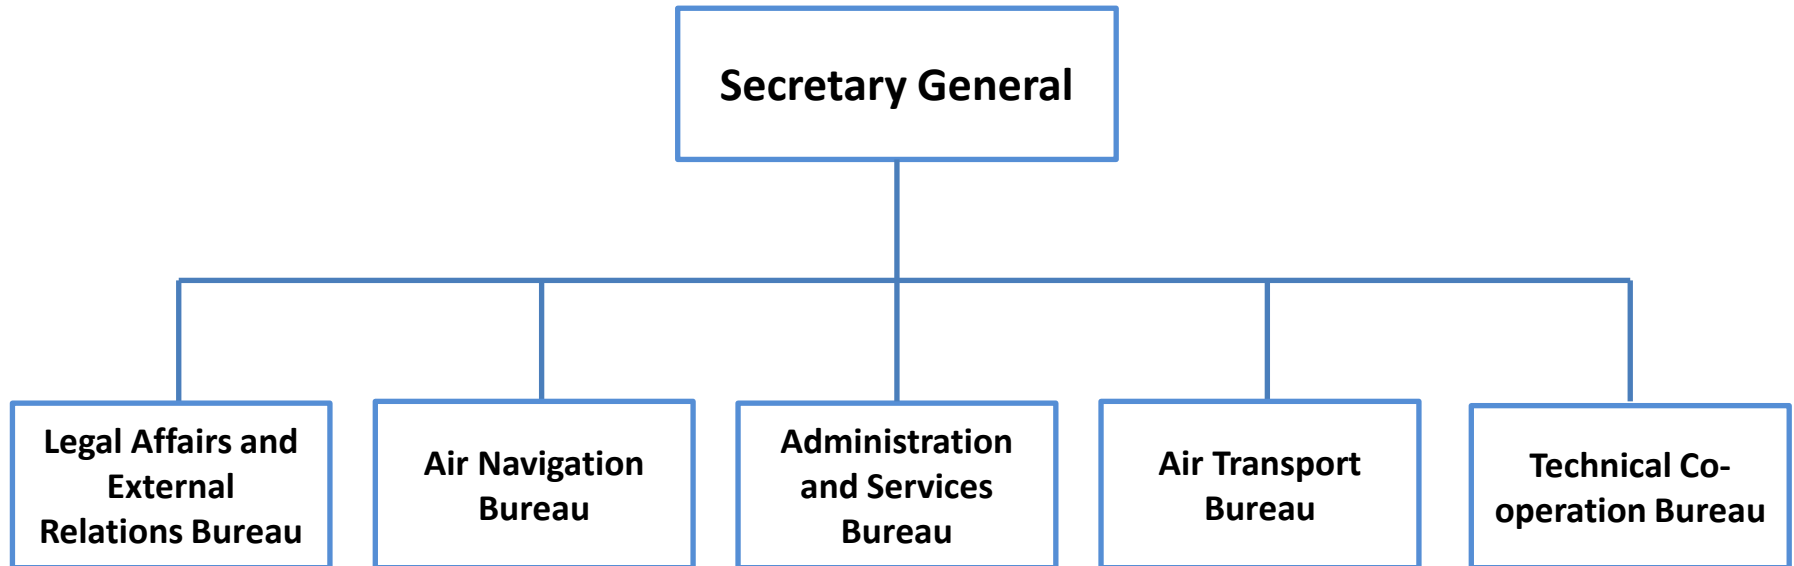

Forum for cooperation in all fields of civil aviation

191 Contracting States

Standards, policies & guidance for environmental protection since 1960's

Focus on aircraft noise, local air quality and global climate

**ICAO Environment, is under the Air Transport Bureau (ATB)**

## SOCIETY

**3 billion passengers** per year carried worldwide<sup>1</sup>

**56.6 million jobs** supported by aviation worldwide<sup>2</sup>

Scheduled worldwide passenger traffic forecast to **grow at 4.4%** per year<sup>1</sup>

## ECONOMY

**2.2 trillion USD** global economic impact<sup>2</sup>

Up to **3.5% of global GDP** supported<sup>2</sup>

**35% of world trade** by value carried<sup>2</sup>

## ENVIRONMENT

**2% of global human-made CO<sub>2</sub> emissions<sup>3</sup>**, approximately **65% of this 2% are from international aviation (≈1.3%)**

**Fast, reliable, and safe mode of transport**

**No comparative alternatives for long haul passenger transport**

# dB

Noise

Emissions

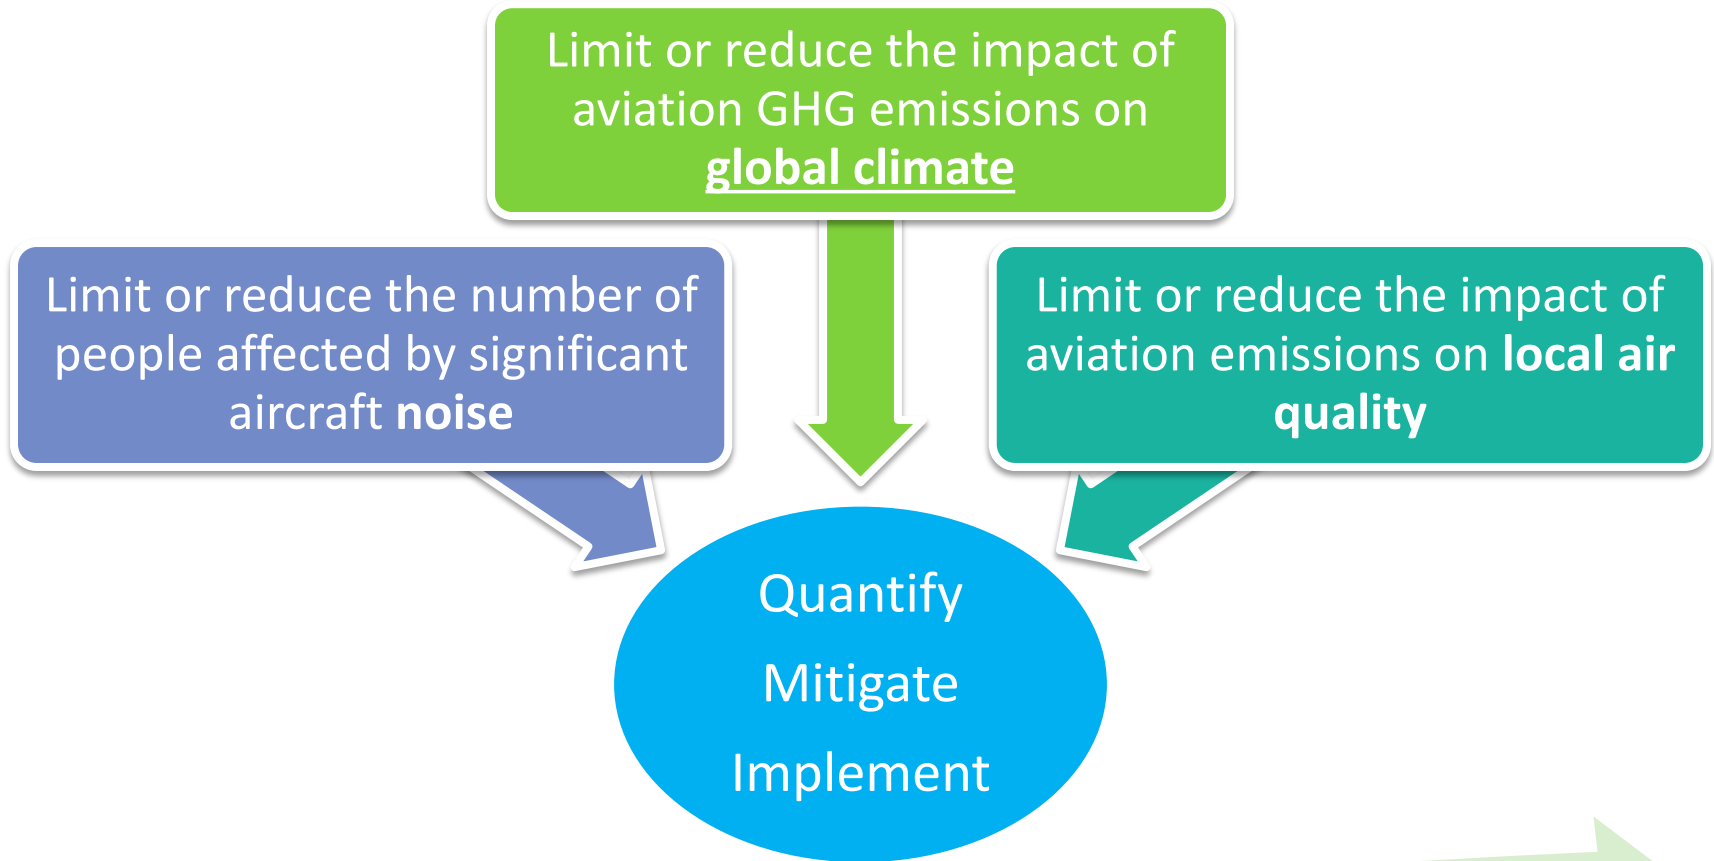

# CO<sub>2</sub>

# HC

# NO<sub>x</sub>

# CO

Minimize the adverse effect of global civil aviation on the environment

### Approach to Quantification through:

- Data Collection and Compilation (RTK, Fuels and Emissions Reduction)
- Forecasting
- Modelling

### Approach to Mitigation through:

- Technology and Standards
- Operational Measures
- Market-based Measures
- Alternative Fuels

### Approach to Implementation through:

- States' action plans and Assistance to States

# ICAO SARPs and Guidance

- **ICAO SARPs**  
Annex 16 – Volume I, Aircraft Noise  
Annex 16 – Volume II, Aircraft Engine Emissions

- **ICAO GUIDANCE**  
 (examples)

NOISE – *Guidance on the Balanced Approach to Aircraft Noise Management* (Doc 9829)

EMISSIONS – *Airport Air Quality Manual* (Doc 9889)

- **A38-17:** Consolidated statement of continuing ICAO policies and practices related to environmental protection – General provisions, noise and local air quality
- **A38-18:** Consolidated statement of continuing ICAO policies and practices related to environmental protection – Climate change

- IPCC Special Report on Aviation and the Global Atmosphere (1999)
- IPCC Fifth Assessment Report (AR5) published in 2014
- Kyoto Protocol, adopted 1997 came into effect 16 February 2005 – “... to pursue limitation or reduction of emissions of greenhouse gases from international aviation, working through ICAO”

- **ICAO Work priorities are:**
  - State action plans and assistance
  - Sustainable alternative fuels for aviation
  - Market-based Measures (MBMs)
  - Global aspirational goals
  - CO<sub>2</sub> Standard expected to be developed by 2016; and
  - Work in cooperation with other UN bodies in particular in support to the UNFCCC process
- **Climate change will remain the main challenge on the ICAO environmental activities in the upcoming years.**
