

Leo JEOH

**HEAD OF AVIATION SAFETY HUB, ASIA PACIFIC REGION &
HEAD OF DESIGN, AIRBUS HELICOPTERS SOUTHEAST ASIA
PROGRAM LEAD, SKYWAYS, AIRBUS HELICOPTERS**

Leo currently serves as the Head of Aviation Safety for the Asia Pacific Region, Head of Design for Airbus Helicopters Southeast Asia (AHSA), and the Head of the Skyways Program – Airbus Helicopter’s Urban Air Delivery project in Singapore.

While heading the various engineering, airworthiness, and safety teams, he is also qualified as a Rotary-Wing Category 1 Flight Test Engineer, Compliance Verification Engineer, Certification/Qualification Engineer, and Civil Aviation Authority of Singapore Design Signatory for AHSA.

Prior to joining Airbus Helicopters in 2009, Leo was an Airforce Engineering Officer in the Republic of Singapore Air Force. His tours of duties include serving as an Officer-In-Charge of Rotary-Wing Structures Repair and Non-Destructive Inspection, Detachment Engineering Officer in Brunei, Rotary Wing Flight Test Engineer, and Head of Rotary-Wing/UAV Aerodynamics.

Leo is a graduate and Dunlop Trophy winner (top Flight Test Engineer) of the UK Empire Test Pilots’ School (ETPS). He also holds a B.Eng in Solid-State Engineering Physics and a M.Sc. in Material Science and Engineering from the Stevens Institute of Technology, USA.
