

## **TIAN Jianwen**

**VICE PROFESSOR FOR THE CHINA AVIATION MANAGEMENT INSTITUTE (CAMIC) & VICE DIRECTOR OF THE LOGISTIC RESEARCH INSTITUTE OF CIVIL AVIATION ENTERPRISE MANAGEMENT RESEARCH**

---

Ms. Jianwen Tian is a Vice Professor of the China Aviation Management Institute (CAMIC) in Beijing, operated by the Civil Aviation Authority of China. She is also the Vice Director of the Logistic Research Institute of Civil Aviation Enterprise Management Research Foundation. She has been involved with the air cargo and logistics industry for most of her professional career.

With 20 years of experience with CAAC, she has both taught and performed research in the areas of air cargo and logistics. She has also taught courses in air cargo developing strategy, international air cargo management, air cargo marketing, supply chain management, international rules of air cargo, dangerous goods regulation and other related subjects. Professor Tian has worked on air cargo strategy planning and airport logistics park planning at Shanghai Pudong Airport, Guangzhou Baiyun Airport, Chongqing Airport and many other airports in both China and the U.S.

Professor Tian received her Bachelor Degree in Mathematics in Beijing Normal University and a Master Degree in Engineering Management at Beijing Aerodynamics University.
