Digitalisation

Accessibility

Technology and the supply chain

Need for collaboration in the chain

- Supply chain is fragmented

- Individual initiatives lack support and acceptance

Digitalisation of the chain

- Need of international agreements

- Monitoring & enforcing

Better usage of information

- What is coming & when?

- Improve connectivity

How to digitalize

Work with standards

Transportation Flow — FSU

Product data flow — ETO

AWB number

Information flow is lagging behind the transportation flow

From supply chain to supply community
