Organised by:

OBJECTIVES

This executive Programme provides participants with specific knowledge pertaining to the international civil aviation security framework and its compliance. While the area of security may not fall directly under the purview of a State's civil aviation administration (CAA), the underlying principles covered in this Programme will enable CAAs to carry out their responsibilities to ensure the effective management of aviation security in their States. This Programme features a roundtable discussion on new emerging threats, challenges, considerations and international cooperation, as well as in-depth case study discussions.

OUTLINE

Module I: Introduction

- **Security in the Civil Aviation World**
 - Revising the fundamentals – why is aviation security important?
- **The ICAO's Security Objectives, System and Programmes**
 - Global Aviation Security Plan (GASep) and its priorities
 - ICAO's Universal Security Audit Programme (USAP) and its evolution to the Continuous Monitoring Approach (CMA)
 - ICAO's 8 USAP-CMA critical elements
 - National Civil Aviation Security Quality Control Programme (NCASQCP)
 - Regional Initiatives and International Partnership Support
- **International Legal Framework for Aviation Security**
 - The international aviation legal framework & its relevance to States especially the ICAO Conventions & Annex 17 SARPS
 - ICAO's role under the international legal framework

Module II: Compliance

- **Key Compliance Tools for Aviation Security Audits/ Quality Control**
 - The importance of aviation security audits and quality control and how it is relevant to States
 - The ICAO USAP – why is it important to States; what should States and decision makers know
- **Airport Operations Perspective Regarding Aviation Security**
 - Challenges faced from compliance, operational and implementation aspects
 - Initiatives to meet desired security measures and outcomes
- **Aviation Security at the National Level**
 - Contribution of aviation security to a State's development
 - A State's aviation security responsibilities
 - National Civil Aviation Security Programme (NCASP)
 - Challenges and key issues in developing/maintaining an effective national AVSEC legal framework

WHO SHOULD ATTEND

Directors General of civil aviation administrations or equivalent and their deputies.

This Programme is offered on a complimentary basis to successful applicants. Participants are expected to make their own travel and accommodation arrangements.
