Innovation Road of Three-level Intelligent Logistics System

Liu Yanguang

General Manager, JD Drone Business Development Center

September, 2018

The red-colored JD distributor became a special scenery in the mountains and deserts

Zhu Kuntao, the distributor at Yunnan

“记得第一次溜索，吓得我眼睛都不敢睁，现在熟练多了，全程不闭眼！”
——云南怒江泸水站配送员 朱坤陶

“沙漠里虽然风沙大，但特别有意思，同样一条路，今天看到的沙丘，明天可能就没了。”
——内蒙古阿拉善左旗站配送员 陈国栋

Chen Guodong, the distributor at Inner Mongolia

“三小时的暴雨，加上山上的雨水下来，把路全都冲了，小货车一下就熄火了，当时确实着急。”
——广西南宁象州京东帮配送员 韦圣始

Wei Shengshi, the distributor at Guangxi

“他一路修着高压电塔，我就一路追着找他，我俩就跟捉迷藏一样，我到了，他走了，我走了，他到了。”
——江西宜春樟树站配送员 朱远

Zhu Yuan, the distributor at Jiangxi

JD Red

**Founded in October 2015,
achieved daily operation**

**World's first commercial drone
delivery, with provincial
authorized airspace**

- **130,000+** Total orders
- **6** Self Developed Drone Models
- **3** R&D Center

JD Drone has achieved daily operation in Shaanxi, Jiangsu, Qinghai, Hainan and Guangdong, accumulated mass data.

Asian First Warehouse

Warehouse

Delivery Station

Intelligent End

Catering to various scenarios,
Three-level intelligent logistics system aims for max efficiency

Model

Three-level intelligent logistic system is firstly created and used by JD to achieve efficient logistic.

Industry

Focus on building logistic industry ecosystem, and expand to other industries.

Drone

Solve logistic problems in internet thinking, and keep innovating in all dimensions.

Vision

Open-minded to cooperation in different industries and dimensions.

By all means, JD Drone is polishing to lead the industry.

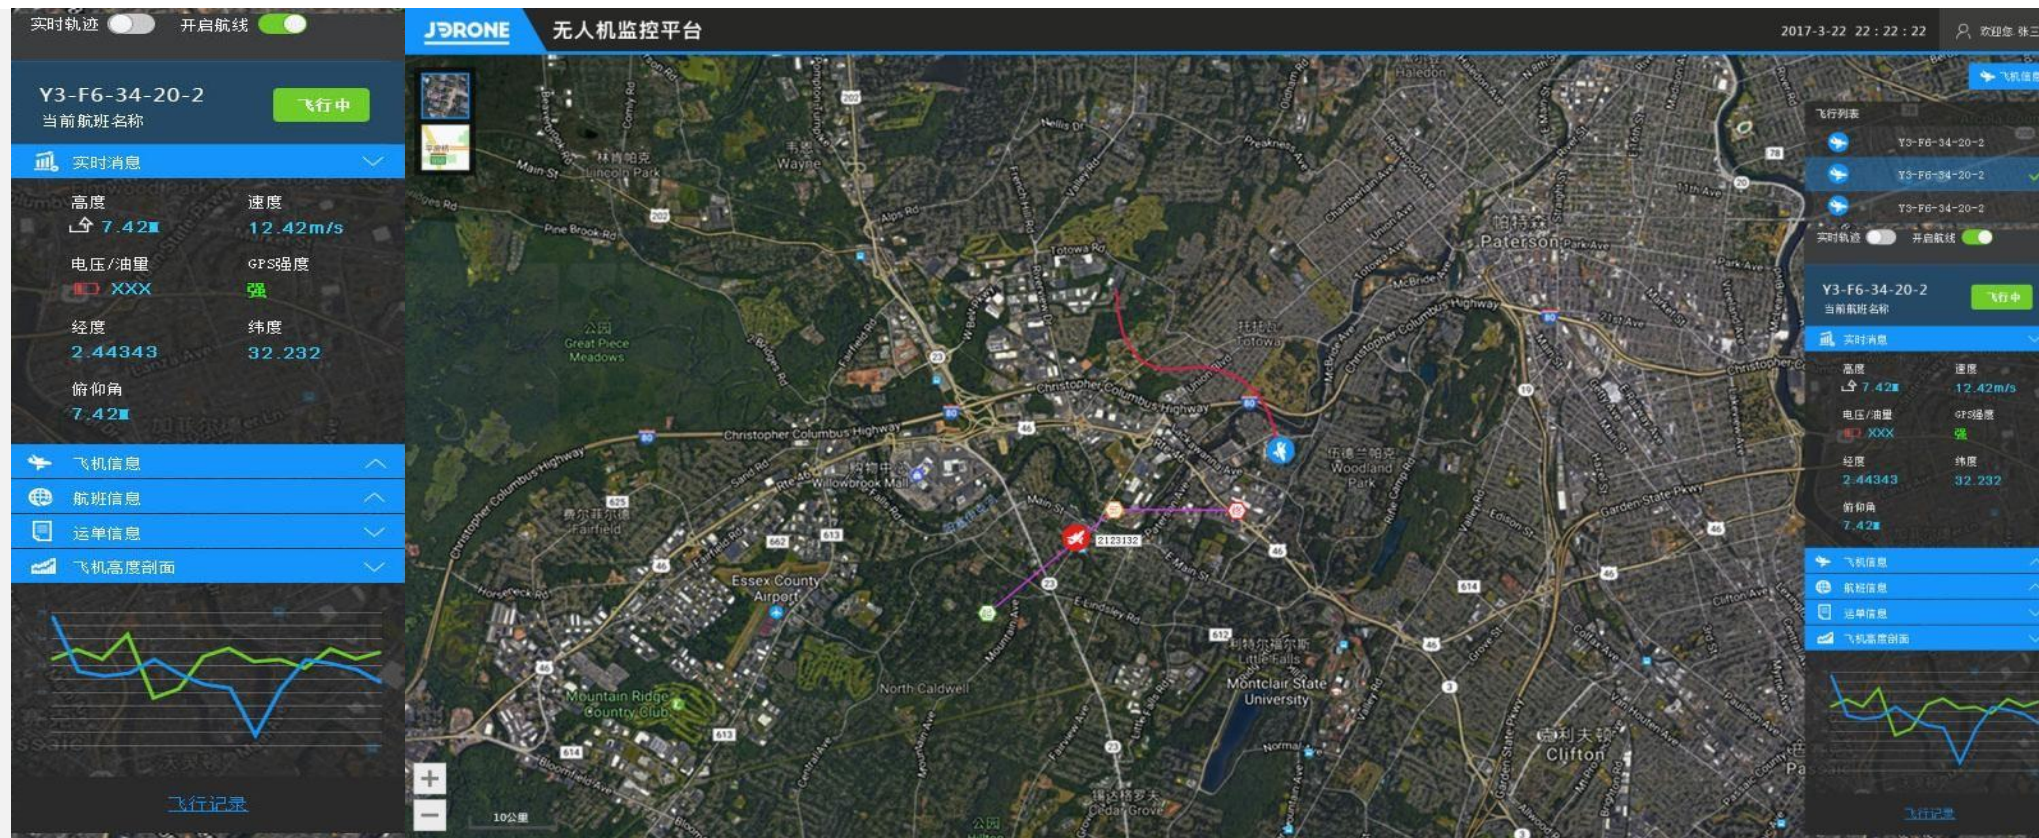

Three series and a variety of models
have expanded the application of JD Drone in logistics, reconnaissance and inspection.

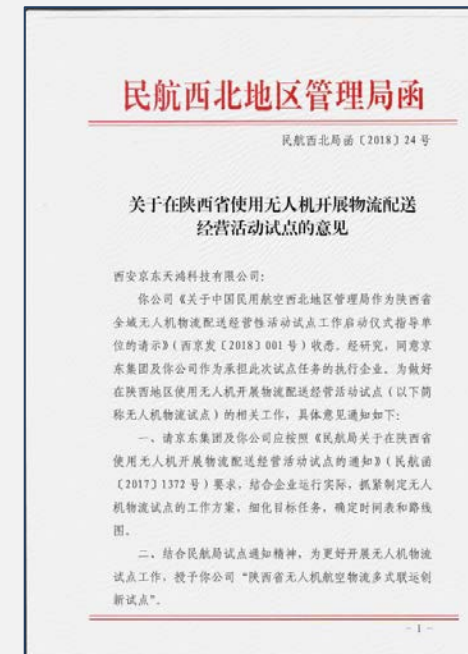

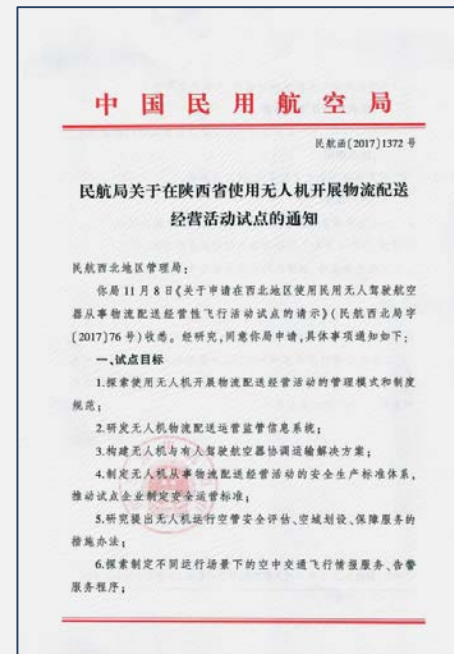

In June 2018, JD's first heavy-duty drone "Jinghong" completed the final assembly.

It can be seamlessly connected with the JD logistics and storage facility, marking the three-level intelligent logistics system entering the landing stage at the branch line level.

Real time monitoring of drone routes, orders, pilots, etc., ensuring the operation process is "no accident, no fortuity".

World's first national pilot enterprise
to carry out drone logistics distribution on a provincial scale.

Open to all merchants of the industry

Production to Consumer
Zero Inventory

Build boundary-less
infrastructure for the society
