

## **Greg MYLES**

### **Program Manager – CANSO Standard of Excellence in Air Navigation – Safety Director NAV CANADA Safety and Quality**

Mr. Greg Myles has been active in the Air Traffic Control and ATM milieu for the past four decades.

Mr. Myles began his career as an Air Traffic Controller he was certified in Aerodrome, Approach and Area control at various locations in Canada. He has held progressively more responsible positions in operational environment and in management of Canada's Air Navigation System.

After a lengthy career as the President and CEO of the Canadian Air Traffic Control Association, Mr. Myles moved into the Safety and Quality portfolio at NAV CANADA. Most recently he has been seconded to CANSO to design and implement the SEANS- Safety program based on the CANSO SoE.

In this capacity, Mr. Myles has conducted assessments for numerous ANSPs worldwide. His experiences have given him a unique prospective on the development and implementation challenges faced by ANSPs.
