PHASE 1 OF PASSENGER JOURNEY: EVIDENCE OF IDENTITY & TRUSTED DOCUMENTS

09:15 – 10:30   **Session 3. Supporting Improved National Identity Management Practices**
Both technology and generational changes are likely to have an impact on how legal identity could be packaged and shared in the future. Already smartphones are capable of unambiguously verifying physical identity using biometrics stored in interconnected central civil registry eco-system. Automation allows for credible evidence of identity, involving the tracing, linkage and verification of identity against breeder documents to ensure the authenticity of identity.

Moderator: Stephen Chapman, Expert, ICAO Implementation & Capacity Building Working Group (ICBWG)

• Data for Development: The Need of Effective Civil Registration and Vital Statistics Systems
Anette Bayer Forsingdal, Senior Program Specialist, Centre of Excellence, International Development Research Centre, Canada
