New Developments: Information Reference Systems Passport, Autodocs, Currency

Document Builder is optional software module for adding your own documents into IRS.

A screenshot of the Document Builder software interface. It shows a form with several fields and options. The 'Country' field is set to 'Afghanistan'. The 'Document code' field is highlighted with a red box. Other fields include 'Document ID comment', 'Blank type', and 'Page corner shape'. There are also 'Fake document' checkboxes and expand/collapse icons for each field.

Thank you!
