Air Navigation Reporting Process

- PIRGs are progressing with planning and implementation of ASBUs
- The next step calls for an air navigation performance measurement, monitoring and reporting strategy.
- Methodology for reporting
 - States to send data to RO through Air Navigation Report Form (ANRF) or equivalent form/on ongoing basis
 - RO will consolidate data from all States and publish through Regional Performance Dashboard /on ongoing basis
 - HQ will consolidate data from all ROs and publish Global Air Navigation Report/annually

Air Navigation Reporting

What is ANRF?

- The current Performance Framework Form (PFF) has been redesigned and aligned with ASBU framework and called the Air Navigation Report Form (ANRF)
- ANRF will be the basis for performance reporting of the ASBU implementation
- The ANRF templates for all the 18 Modules of ASBU Block 0 will be available in the upcoming Regional eANP.

PFF re-designated as ANRF

**REGIONAL/NATIONAL PERFORMANCE OBJECTIVE –

Efficiency	Kilograms of fuel saved per flight
Environment	Kilograms of CO ₂ emissions reduced per flight (= KGs fuel saved per flight x 3.157)
Safety	Number of controlled flight into terrain (CFIT) incidents/accidents

ASBU B0-CDO: Performance Monitoring and Measurement (Implementation)

Elements	Implementation Indicators/Metrics
1. CDO	Percentage of international aerodromes/TMAs with CDO implemented
2. PBN STARs	Percentage of international aerodromes/TMAs with PBN STARs implemented

Regional Reporting

Regional Performance Dashboard

- Transparency and sharing of information are fundamental to a safe and efficient global air transportation system.
- Consistent with this principle, the Organization is introducing “Regional ‘Performance Dashboard’” - the homepages for every public website of the ICAO Regional Offices.
- These dashboards will illustrate the regional implementation status relating to the strategic objectives on Safety, Air Navigation Capacity and Efficiency, and Environmental Protection.

Regional Performance Dashboard Definition

- The Dashboard will show targeted performance at the regional level and will, initially, contain graphics and maps with a planned expansion to include the Aviation System Block upgrades (ASBU) Block 0 Modules.
- This new interactive online system will be in place in August 2013 for AFI region and March 2014 for the remaining regions and will be updated at regular intervals.
- Dashboard will be user friendly and able to deliver the message at glance.

Regional Performance Dashboard Roll-out plan

- **Step 1: identify a set of indicators for safety, efficiency and environment**
 - Initial set of indicators was agreed by PIRG-RASG Chairs in a coordination meeting held in Montreal on 19 March 2013.
- **Step 2: Seek endorsement from the 38th Session of ICAO Assembly in September 2013**
- **Launch initial version of the Dashboard in August 2013 for AFI region and March 2014 for the remaining regions**

A world map is shown in a light blue color. Eight colored dots (blue or orange) are placed on the map, each connected by a thin line to a text label describing an ICAO office. The orange dot is located in North America, specifically in the Montreal area. The other seven dots are blue and are located in Mexico City, Lima, Dakar, Paris, Cairo, Nairobi, and Bangkok. A large, rounded rectangular box with a grey gradient background and a black border is centered over the map, containing the text 'Thank You' in a bold, dark blue font.
