ICAO FRAMEWORK FOR CIVIL AVIATION TRAINING

Julio Garriga

**Regional Officer Technical Assistance
North American, Central American and
the Caribbean Regional Office**

Introduction

ICAO Study reveals high demand for qualified aviation personnel 2030

- It has been foreseen more than two million jobs for pilots, maintenance personnel and air traffic controllers as a result of the retirement of skilled professionals and commercial air transport growth expected for 2030.

Personnel Category	Current population (2010)	Required population (2030)	Training Needs*	Training Capacity*	Deficit *
Pilots (world)	463 386	980 799	52 506	44 360	8 146
Pilots (in Latin America)	24 065	101 301	6 250	1 945	4 305
Maintenance	580 926	1 164 969	70 331	52 260	18 071
Controllers	67 024	139 796	8 718	6 740	1 978

* Estimated annual average.

Results of ICAO Study

Failure to begin to take steps to increase training capacity soon, it will probably have qualified aviation personnel shortfalls.

Thanks to this study, now Member States, industry and stakeholders can understand to what extent and in what places these deficits occur and solve this problem effectively.

- ✈️ ICAO provides leadership in the development of solutions that help ensure good availability of trained personnel.
- ✈️ During the several symposia on the new Generation of Aviation Professionals (NGAP) ICAO briefly outlined a strategy for recruitment, education, training and retention of aviation professionals.

Based on the results of audits USOAP, many conclusions relate to:

insufficient and inadequate qualified personnel:

Experience,

adequate training,

Certification system / licensing, and

**authorities that regulate and monitor the performance of
service providers.**

Professionals
(NGAP)***

Next Generation of Aviation Professionals

Next Generation of Aviation Professionals (NGAP):

 To ensure that there will be sufficient qualified and competent aviation professionals to operate, manage and maintain the future international air transport.

Work Program of the NGAP Task Group:

 addresses improvements in instruction to crew members, air traffic management and aircraft maintenance personnel to meet the demands of new procedures and with the increasingly complex technologies.

ICAO TRAINAIR Plus***

Civil Aviation Training Challenges

- ✈️ Civil aviation faces some difficulties in preparing the next generation of aviation professionals, considering:
 - ✈️ multiple retirements in the current generation,
 - ✈️ access to affordable training,
 - ✈️ competition with other industries for skilled employees,
 - ✈️ a lack of harmonization of competencies in some aviation disciplines, and
 - ✈️ a lack of awareness on the part of the "new generation" of the types of jobs available in aviation.

✈️ To this end, ICAO launched the Next Generation of Aviation Professionals (NGAP).

✈️ Additionally, ICAO has revised its policies and procedures and has supported this effort regarding the provision of adequate courses.

✈️ Among these activities, there has been a Civil Aviation Instruction Policy and a New ICAO Program TRAINAIR PLUS.

✈️ ICAO guidelines set forth in Appendix D to Resolution A38/12.

✈️ The training policy covers all aspects of safety and security of aviation and complements the work of the initiative on the next generation of aviation professionals (NGAP).

✈️ This policy enables the implementation of a comprehensive framework that ensures that all training to provide ICAO or third parties is evaluated to ensure that it meets the stronger design standards and development of training courses.

ICAO Civil Aviation Training Policy

The training policy applies to the training imparted by Directorates and Regional Offices of ICAO and training organizations that issue completion certificates of courses or use certificates bearing the logo of ICAO.

 What is not considered aviation training activities?

 Training activities and exams of ICAO

Basic Principles of the Policy

Training in the field of aviation is the responsibility of States and ICAO should not participate in the management of training centres, but should provide encouragement and advice to those who run such centres.

Basic Principles of the Policy

✿ It is considered that teaching courses is a support function and not one of ICAO's main functions. This function will be performed only when it is determined that:

- ✿ a) is needed to support States in compliance with SARPs, PANS and the policies and guidelines of ICAO Air Transport in the rectification of deficiencies found in any other activity or ICAO; or
- ✿ b) can promote and advance the strategic objectives of ICAO and produce an appropriate income to ensure self-sustainability without affecting the ability of the ICAO to carry out its main functions.

 The aviation training activities to carry out third party using the name or logo of ICAO meet the following requirements :

-  a) directly support the strategic objectives of ICAO;
-  b) full compliance with the SARPs, PANS and the policies and guidelines of ICAO Air Transport;
-  c) the use of the logo will fully comply with ICAO policies concerning such use; and
-  d) be subject to an appropriate mechanism of ICAO endorsement.

 ICAO Intellectual property shall be protected.

 It will not damage the reputation of the organization as a result of training activities by a third party using ICAO's name or logo.

 Training activities conducted by ICAO may be charged in accordance with paragraph 7.7 of the ICAO Financial Regulations (Doc 7515).

 Training activities conducted by ICAO can be financed with funds provided by Member States or organizations or funds that generate their own ICAO activities.
