WORKING PAPER

E/CAR/DCA/26 — WP/08  
20/10/15

**Twenty-sixth Directors of Civil Aviation of the Eastern Caribbean Meeting (E/CAR/DCA/26)  
New Orleans, United States, 1 - 3 December 2015**

- Agenda Item 6: Air Navigation Matters**  
**6.1 GREPECAS Update**  
**6.1.2 Review of GREPECAS Air Navigation Deficiencies Database (GANDD)**

**AIR NAVIGATION DEFICIENCIES**

(Presented by the Secretariat)

<b>EXECUTIVE SUMMARY</b>	
This paper presents the current status of resolution of the deficiencies in the GANDD, the latest agreement for its update and the actions taken to assist the States in their resolution.	
<b>Action:</b>	Action is suggested in section 3
<i>Strategic Objectives:</i>	<ul style="list-style-type: none"><li>• Safety</li><li>• Air Navigation Capacity and Efficiency</li></ul>

**1. Introduction**

1.1 The GREPECAS Air Navigation Deficiencies Database (GANDD) is the application for storage, updating, monitoring and reporting air navigation deficiencies for the CAR and SAM Regions. The GANDD follows the ICAO Uniform Methodology for the Identification, Assessment and Reporting of Air Navigation Deficiencies.

## 2. Discussion

2.1 The revised methodology for the deficiencies presented at the GREPECAS/17 meeting, through Conclusion 17/12 - *Revision of the ICAO Uniform Methodology for the Identification, Assessment and Reporting of Air Navigation Deficiencies*, will be reviewed by the ICAO Air Navigation Commission (ANC) by December 2015 and as so, it has been included in the 2015 ANC Secretariat activity plan.

2.2 During the Third Meeting of the GREPECAS Programmes and Projects Review Committee (PPRC/3), IATA stated that it would send to the ICAO NACC and SAM Regional Offices its updated deficiencies list every three months so that each Regional Office may perform the corresponding actions accordingly.

2.3 In order to assist the States in resolving these deficiencies and within the NACC Regional Office NCLB strategy, the ICAO NACC Regional Office has coordinated and assisted the focal points on their action Plans and the timely validation of the evidence of the deficiencies solutions. In this regard **Appendix A** presents the status of the deficiencies of the Eastern Caribbean up-to-date in comparison with the status reported in the last E/CAR/DCA Meeting (2013). A number of deficiencies has been resolved and completed thanks to this activity. **Appendix B** presents the current GANDD focal Points.

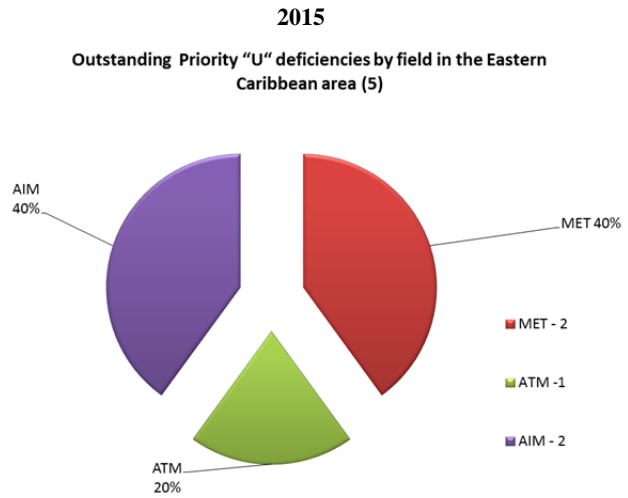

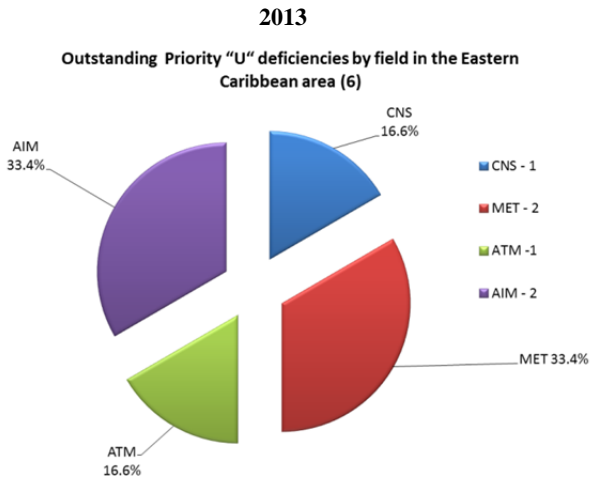

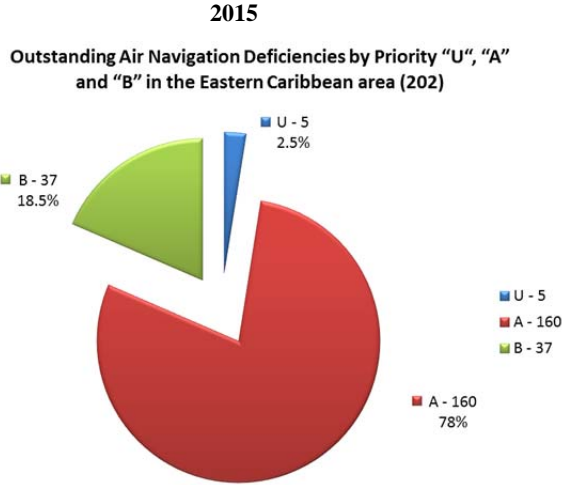

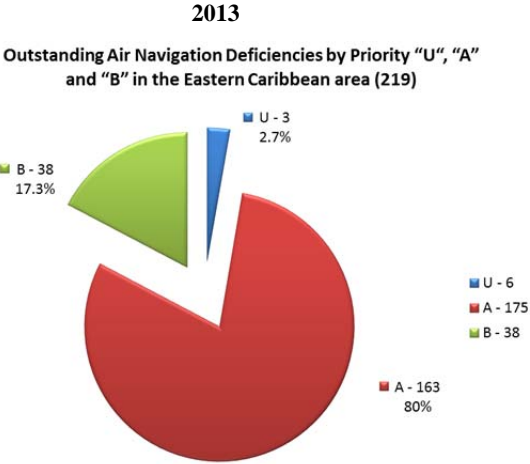

## 3. Suggested Actions

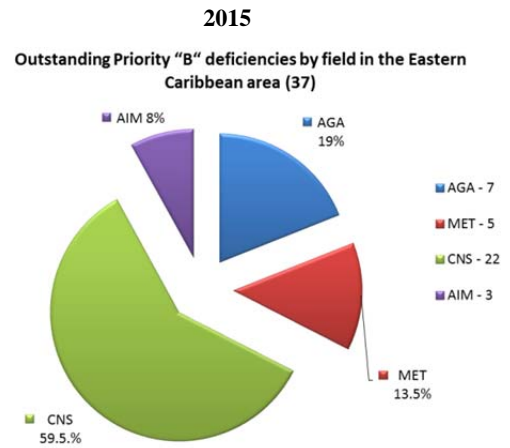

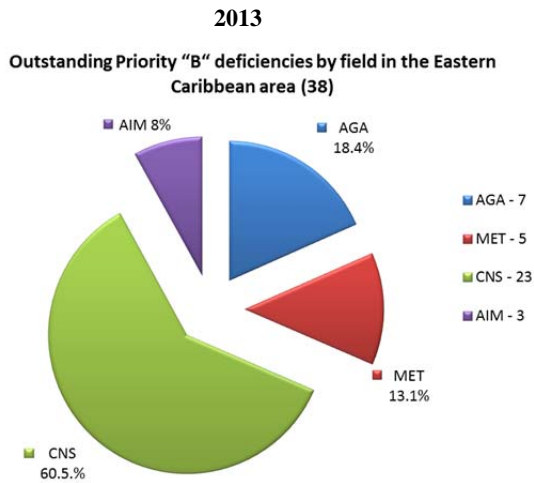

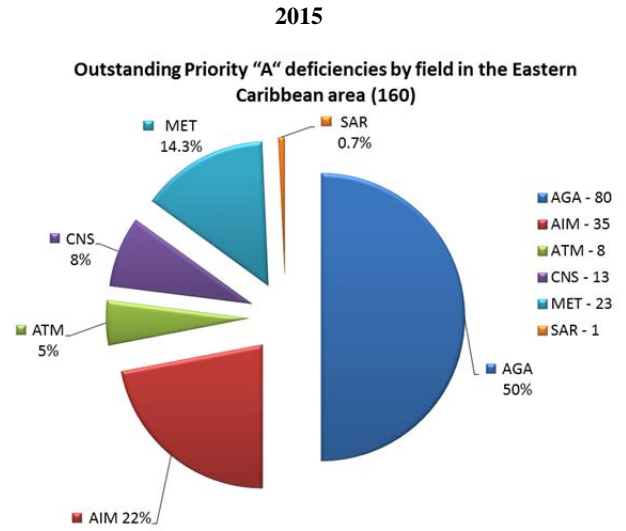

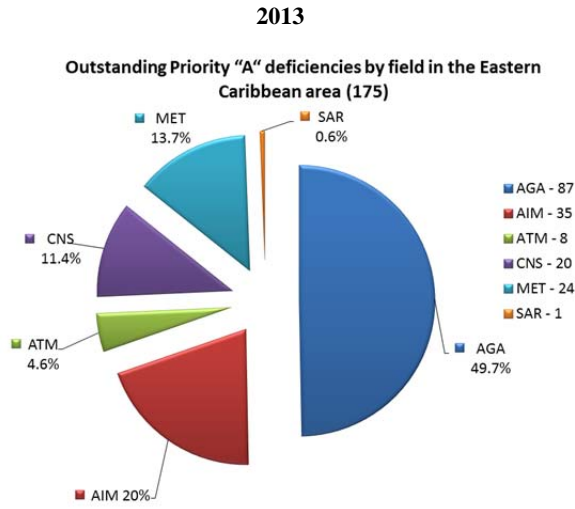

3.1 The Meeting is invited to:

- a) review and update the corrective actions or the status of their deficiencies;
- b) confirm or update their GANDD focal Points; and
- c) contact the ICAO NACC Regional Office to conduct a review of their deficiencies, as needed, for assisting in their resolution.
