

DC-ANSP ATFM Phase 1: Route Outcomes

7 Routing modifications that provide:

- Compliance with regional initiatives to implement a PBN airspace concept for the CAR region
- Harmonization with routing enhancements made in North and South America
- Movement of routes from non-radar and limited VHF coverage airspace to radar and VHF coverage airspace
- Better organized airport arrival and departures
- More efficient access to/from:
 - Panamanian and North Atlantic airspace
 - North and South America
