

ICAO UNITING AVIATION

GLOBAL AIR NAVIGATION PLANNING

**International Civil Aviation
Organization (ICAO)**

Agenda Item 5 - P/16

Eighth Meeting of the North American, Central American and Caribbean Directors of Civil Aviation (NACC/DCA/08)
Ottawa, Canada, 31 July to 2 August 2018

ICAO UNITING AVIATION

OUTLINE

- The vision
- A Plan to realize the vision
- Let's take a look to the future
- GANP 2019

| ICAO UNITING AVIATION

Global Air Navigation Planning

THE VISION

| ICAO UNITING AVIATION

Do we know where to go?

Yes!

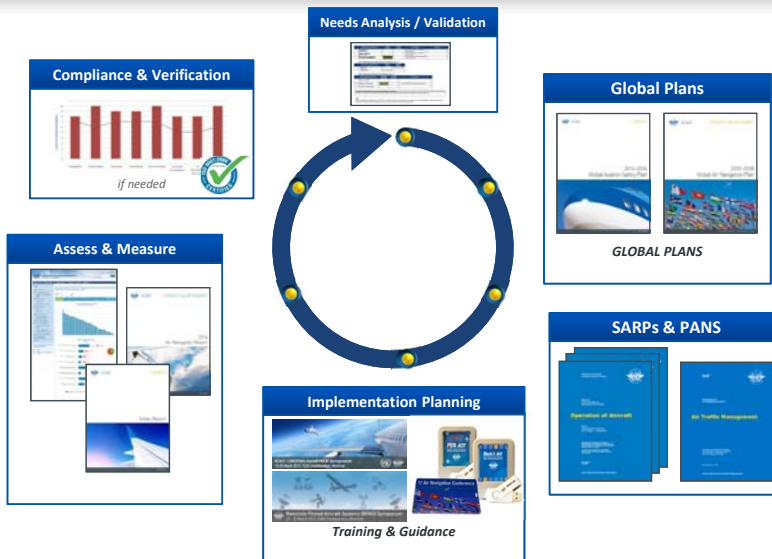

To achieve an **interoperable** global air traffic management system, **for all users during all phases of flight**, that meets agreed levels of **safety**, provides for **optimum economic operations**, is **environmentally sustainable** and **meets national security requirements**

Global Air Navigation Plan

A PLAN TO REALIZE THE VISION

GANP 2013

“Increase the capacity and improve the efficiency of the global civil aviation system”

- Through the **GANP**, offer a long-term vision to assist all aviation stakeholders, and ensure continuity and harmonization among modernization programmes
- Through the **Aviation System Block Upgrades (ASBU)**, provide a consensus-driven modernization framework for integrated planning based on performance

The table in the image shows performance indicators for four blocks (Block 1 to Block 4) across four categories: Capacity, Efficiency, Safety, and Security. Each cell contains a grid of small squares representing data points.

GANP 2016

- **Objectives**

- **International and overarching framework** of a global investment plan: make it more usable towards implementation
- Keep it **stable** while making the necessary updates/additions
- Adjust the **periodicity** to the Assembly and ICAO editing cycles

2016-2030
Global Air Navigation Plan

- **A Planning Document for Implementation**

- GANP should serve as a comprehensive planning tool to **support the development and implementation** of a harmonized global air navigation system

Global Air Navigation Planning

LET'S TAKE A LOOK TO THE FUTURE

An exciting future full of opportunities

- **Upper atmosphere**
 - Balloons, RPAS, space activities
 - Single homogenous region
- **Low density areas**
 - Different type of aircraft
 - Different missions
- **High density areas**
 - Traffic will continue to increase
 - Same or enhanced level of performance expected

Manned vs. unmanned traffic

- + 362,000 aircraft
- 23,000 airliners
- Growth of 750 /year

- + 4,000,000 drones
- Expected 400k commercial
- Growth of 150,000 /year

A NEW ERA IN AVIATION

- Technology and information

- Autonomous systems
- Artificial intelligence

A NEW ERA IN AVIATION

- Technology and information

- Full connectivity

**“ANYTHING THAT CAN BE
CONNECTED, WILL BE CONNECTED”**

A NEW ERA IN AVIATION

- Humans

META

A NEW ERA IN AVIATION

- Business Models

| ICAO UNITING AVIATION

Global Air Navigation Planning

GANP 2019

| ICAO UNITING AVIATION

Main Goals of the 2019 GANP

- **Evolution of the global air navigation system**
 - Promote investment in **innovation** through research and development activities
 - Align Regional **Research and Development Programmes**
- **Support implementation**
 - **ASBU framework**
 - Alignment global, regional and national planning
 - **Performance-based** decision making method
 - Optimize **allocation and use of resources** for air navigation

Main Purpose

- **ENHANCE THE PERFORMANCE OF THE AIR NAVIGATION SYSTEM**

- High social visibility
 - Safety
 - Security
 - Environment
- Medium social visibility: Operational
 - Capacity
 - Efficiency
 - Predictability
 - Flexibility
 - Cost- Effectiveness
- Low social visibility: basis
 - Access and equity
 - Interoperability
 - Participation by the ATM community

In a time of change...

- **Transformational change is needed**

- Information Management
 - Digital data MET, AI, FICE,...
 - Information exchange over IP
- Management by trajectory
 - Time based management
 - Synchronization
 - Automation

2019 Update of the GANP

Multilayer Structure

ANConf13 Papers on Air Navigation Planning

- **WP11:** IMPROVING THE PERFORMANCE OF THE AIR NAVIGATION SYSTEM THROUGH THE ASBU
- **WP18:** PROPOSED MULTILAYER STRUCTURE FOR THE SIXTH EDITION OF THE GLOBAL AIR NAVIGATION PLAN (GANP) AND ITS GLOBAL STRATEGIC LEVEL
- **WP19:** THE PROPOSED GLOBAL TECHNICAL LEVEL FOR THE SIXTH EDITION OF THE GANP
- **WP22:** COST-BENEFIT ANALYSIS AS PART OF A BUSINESS CASE IN SUPPORT OF ASSETS DEPLOYMENT
- **WP25:** IMPLEMENTING MINIMUM AIR NAVIGATION SERVICES FOR INTERNATIONAL CIVIL AVIATION THROUGH THE BASIC BUILDING BLOCKS (BBB) FRAMEWORK
- **WP26:** AIR NAVIGATION ROADMAPS
