ICAO SAFETY

NO COUNTRY LEFT BEHIND

Annex 19 State Safety Management Overview

Marcelo Orellana

Regional Officer, Flight Safety Implementation

ICAO NACC Regional Office, 13 August 2019

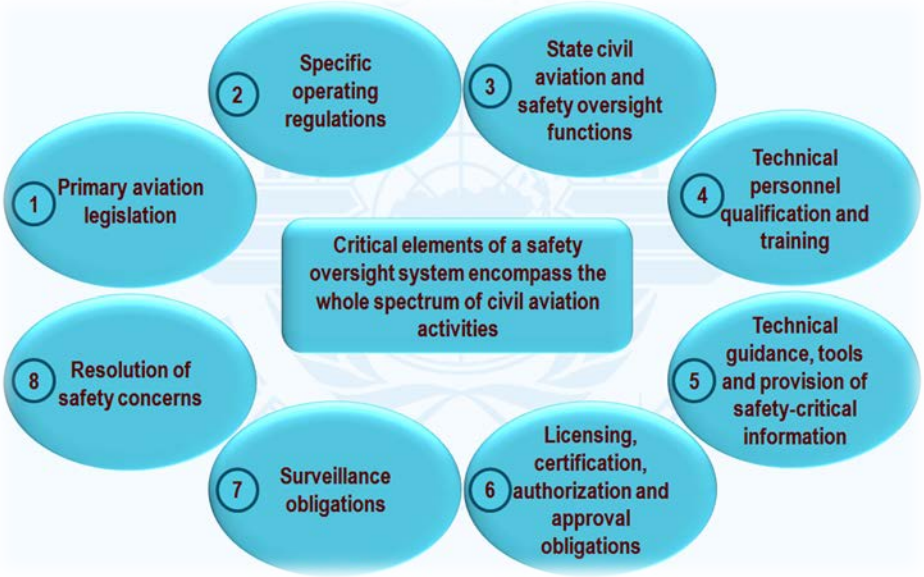
State safety management Foundation.

The State safety oversight (SSO) system critical elements (CEs) constitutes the foundation of the SSP.

The State safety oversight (SSO) system critical elements (CEs)

Safety oversight is defined as a function by which States ensure effective implementation of the safety related SARPs and associated procedures

The State safety oversight (SSO) system critical elements (CEs)



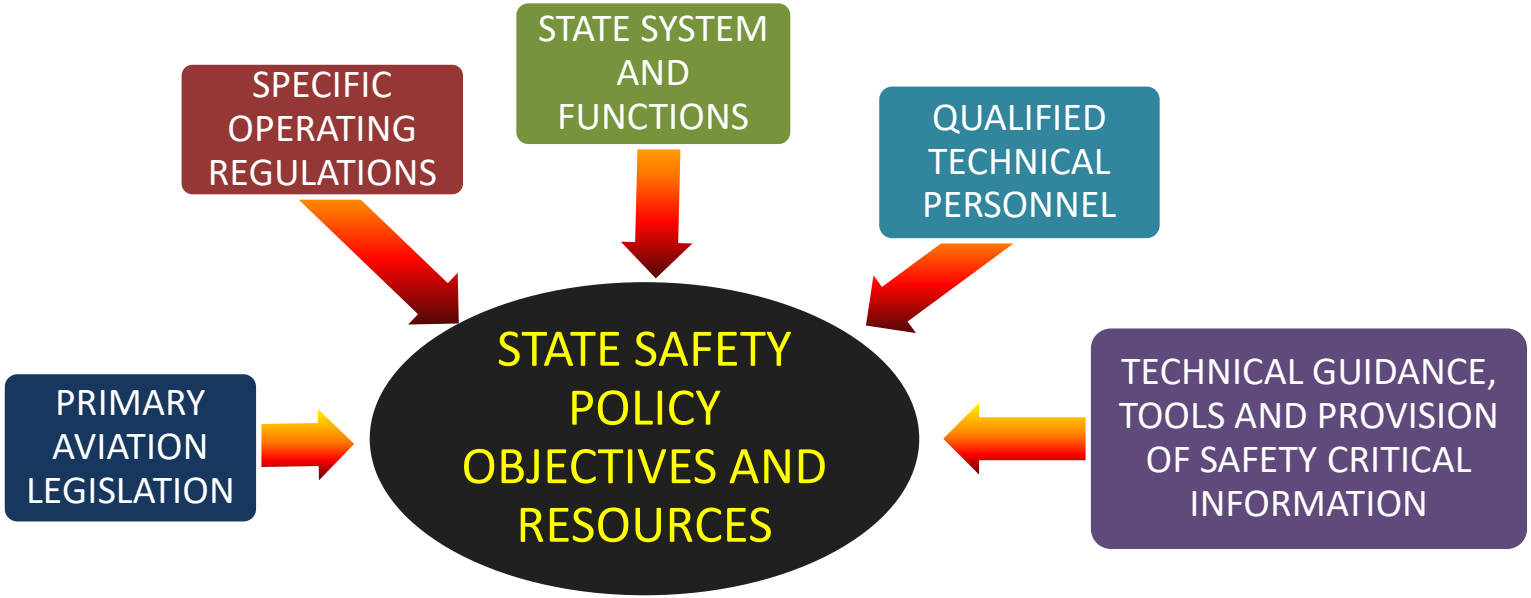
State safety programme (SSP)

The implementation of an SSP must be commensurate with the size and complexity of the State's aviation system

State safety programme overview

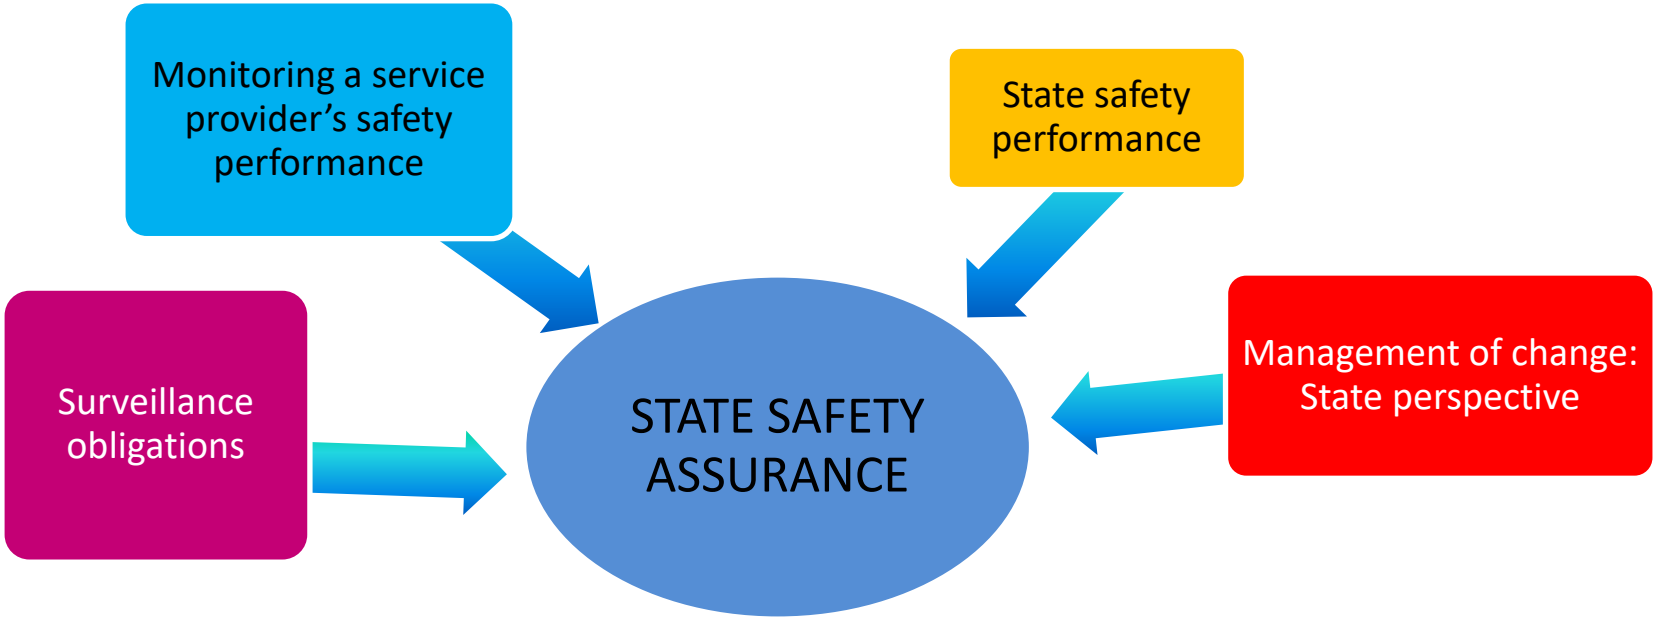
- An SSP is an integrated set of regulations and activities aimed at improving safety. For the establishment and maintenance of the SSP, the ICAO SARPs are structured into the following four components:
  a) State safety policy, objectives and resources;
  b) State safety risk management;
  c) State safety assurance; and
  d) State safety promotion.

STATE SAFETY POLICY OBJECTIVES AND RESOURCES



STATE SAFETY RISK MANAGEMENT

STATE SAFETY ASSURANCE



STATE SAFETY PROMOTION
