Sir/Madam,

As a follow-up on the first and second editions of the Accident and Incident Investigation (AIG) Procedures Webinar Series carried out in May and June May 2020, I wish to invite you to the Third Edition of this event, which will study the elements to be considered when establishing a process for investigating the various types of accidents, as required by Protocol Question (PQ) 6.343: “*Has the State established and implemented: a) a process for investigating the various types of accidents, as well as b) guidance material to help determine the extent of an accident investigation depending on the circumstances of the accident and the safety lessons it expects to draw from the investigation?*”

It is important to note that all participants need to have a Zoom account as all sessions scheduled by ICAO are only for authenticated users.
