1.   **Introduction**

1.1   During the Fourth NAM/CAR Air Traffic Services Inter-facility Data Communication (AIDC) and North American Interface Control Document (NAM/IDC) Implementation Follow-up Meeting (AIDC/NAM/ICD/4) a review of the pending tasks was made by the AIDC Task Force.

1.2   The Meeting concluded that the following activities were still pending completion:

No	Decision/Conclusion	Description	Observations
1	Decision AIDC/NAM/ICD/D/02	Send specific tasks to the NACC AIM and PBN Task Forces	The AIDC Task Force will coordinate activities to secure a proposal document by September 2021.
	Conclusion AIDC/NAM/ICD/C/01	Mechanisms for updating ATC systems databases	Valid
	Conclusion AIDC/NAM/ICD/C/02	Registry of functionalities of the flight plan processing system	Valid
	Conclusion AIDC/NAM/ICD/C/03	Inform the AIM task group of cases of differences in the interpretation of ICAO documents for flight plan processing	Valid
	Decision AIDC/NAM/ICD/3/1	Coordinate teleconferences between airspace users and state personnel to discuss and correct flight plan errors	Valid
	Decision AIDC/NAM/ICD/3/3	Obtain a contact list of the entities responsible for the development of the AIDC protocol.	Valid
	Conclusion AIDC/NAM/ICD/3/4	State and Industry AIDC Subject Matter Expert Contact List	Valid
	Decision AIDC/NAM/ICD/3/5	Development of an AIDC training profile for the NACC region	Valid
	Conclusion AIDC/NAM/ICD/3/6	Identification of difficulties in the ATC and flight plan systems for updating the database	Valid

1.3   During the last meeting of the AIDC Group, the following decisions and conclusions were made:

No	Decision/Conclusion	Description	Observations
	Decision AIDC/NAM/ICD/01	Implementation of automated AIDC and NAM/ICD protocols	Valid It is necessary to complete the activities identified in the previous AIDC meetings to ensure correct information and support a high percentage of implementation of the protocols
	Decision AIDC/NAM/ICD/02	Coordination with the United States to improve NAM/ICD implementation	Concluded

No	Decision/Conclusion	Description	Observations
	AIDC/NAM/ICD/03	Development of Flight and Flow Information for a cooperative environment (FF-ICE) and evaluation of Key Performance Indicators (KPI)	Valid: Establishing the requirements for the exchange of information on the elements of the FF-ICE is important for the region, it is necessary to establish the implementation of different ASBU elements to achieve operational objectives and with key performance indicators to better measure their implementation and benefit.

1.4   The Secretariat recommends that the AIDC Task Force review the decisions and conclusions that are still valid and update them and their completion dates.

2.   Suggested actions

2.1   The meeting is invited to:

a) update the status of decisions and conclusions still valid;
b) update the work plan of the Task Force; and
c) any other corresponding action.
