

ICAO SAFETY

# Universal Operational Security Oversight Audit Program (USOAP) General Updates

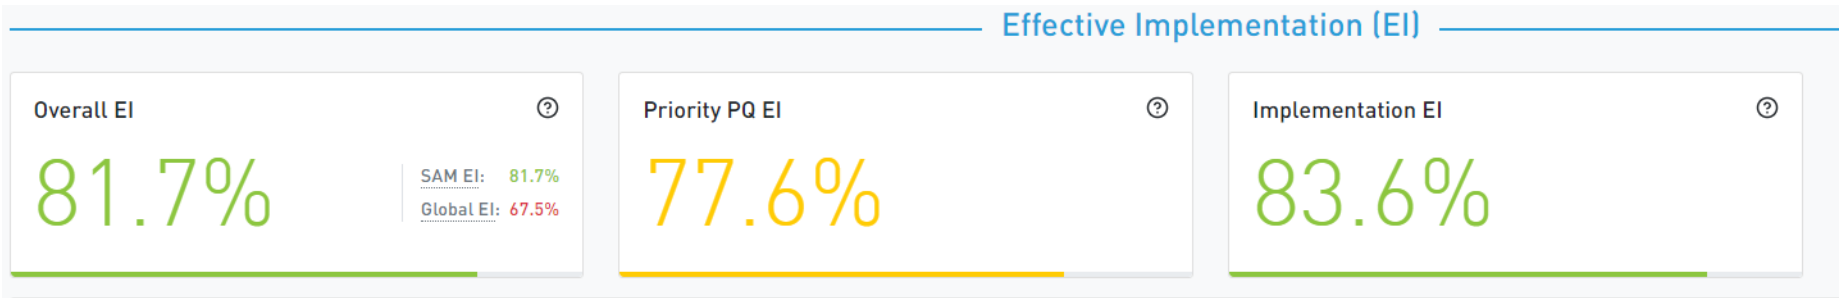

**Marcelo Orellana**

Regional Officer, Safety Implementation (SAF/1)

# OLF UPDATES

✈ New measure added to the State Profile Dashboard  
An EI showing the effective implementation of CE-6, CE-7 and CE-8 has been added to the State Dashboard. It is named Implementation EI, and can be found next to the Overall and PPQ EI measures.

## 1. Develop the timeline for CAP assessment

✈ The CAPS for those states with more than 6 years of not receiving a USOAP Full audit are no longer verified, in the case of our region almost 100% of the States.

✈ The states in the above condition will not be considered for ICVMs

## 2. Integration of SSPIA into traditional USOAP CMA activities

✈ the USOAP started phase 2 of the SSPIAs.

✈ In phase 2, SSPIAs are no longer voluntary or confidential. Three missions were planned for 2022: Singapore, Italy and the UK.

## 3. Implementation of USOAP Advisory Group recommendations (certain tasks will have to be delayed due to resource restraints).
